HAS HIS SAY.

WILL LET 'EM YELL.

President Taft Has No Excuses.

New York Speech Statement of Views Considered Wanted of Him.

Purpose Now to Get Action by Congress on Bills Recommended.

Conference of Republicans in New York Devoted to State Outlook.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 13.—After a quiet morning in New York, President Taft returned to Washington tonight to find that his speech last night before the Republican Club at its Lincoln Day dinner had kept national legislators busy talking the whole day long.

The President had planned the speech a week or more ago. It was one of the longest he ever made and covered his attitude on practically every issue pending in Congress or that has come up since his administration began.

Mr. Taft felt that a statement of his views was wanted. Now that he has had his say, it is declared his purpose is to get to work on Congress in the interest of measures he has recommended.

In fact, it is said that in connection with his speech and his plans for the immediate future, the President today quoted a saying by Jewett, head master of Balliol at Oxford, when he advised a young man: "Don't excuse; don't explain; get it done; let 'em yell." So far as he can, the President said, he was trying to get it done and in the meantime would "let 'em yell."

News reaching Washington of the conference of the Republican leaders in New York yesterday, participated in by the President and Gov. Hughes, tends to confirm statements of last night that possible candidates for Governor of the State did not enter into the discussion. It is said the President and Gov. Hughes occupied positions that are almost identical in that both are deeply interested in the candidate to be named, but that neither will take an active part in his selection. Neither Mr. Taft nor the Governor, it is positively stated here, has indicated a choice.

STATE OUTLOOK GOOD.

Gov. Hughes assured the President that the outlook in the State, as he viewed it, was not so bad as had been pictured. He declared that the scandal at Albany must be gone through with and that excision must be made of any cancerous growth in the party. With this done, the Governor thought the people would rally to the party, and so declared in his speech last night.

Much sentiment was found in New York that nothing should be done in the way of settling possible candidates until the return of Mr. Roosevelt. To many, this was indicated as a strong "boom" for Collector of Customs William Loeb, which would undoubtedly call Mr. Roosevelt to the stump. While in New York, Mr. Taft consulted Mr. Loeb regarding plans under way for a home-coming reception to Mr. Roosevelt.

In his cablegram to the Republican Club of New York City, which had undertaken the arrangements for a reception, the former President, after stating that whatever was done should be done on the day of his arrival, concluded with the advice: "See Loeb."

Mr. Loeb told President Taft positively that no arrangement had been made so far and that none would be made until after Mr. Roosevelt's arrival in Europe, when there will be plenty of opportunity to consult his wishes.

FIRES COOK FOR PEARY.

Indiana Hamlet Bound to Be Called After Discoverer of North Pole.

[BY DIRECT WIRE TO THE TIMES.]

DUBLIN (Ind.) Feb. 13.—[Exclusive Dispatch.] As an echo of the famous Cook-Peary controversy, the hamlet of Cook, near Owensville, located in the "pocket" of Southern Indiana, will change its name from Cook to Pearysville.

The settlement took on the name of Cook following the alleged discovery of the North Pole by Dr. Cook, but when his evidence failed to prove his claim the residents of the place decided to change the name of the hamlet in keeping with the recognized discoverer.

SERIOUS.

COLLEGE FUNDS SHORTAGE BIG.

METHODIST CHURCH OFFICIALS MAKE INVESTIGATION.

Pennsylvania Institution Is Short About $100,000 and Inquiry Is Not Only Expected to Shake the Town, But Is Likely to Stir Up Scandal in the Faculty.

[BY DIRECT WIRE TO THE TIMES.]

MEADVILE (Pa.) Feb. 13.—[Exclusive Dispatch.] The shortage in funds of Allegheny College here, will reach $100,000 it was learned today. Charges of a serious nature are being made and if high officials of the Methodist Episcopal church of Pennsylvania insist on pushing the matter as they now claim they will, the old college town will be badly torn. Most of the money missing is of the Centennary fund.

Allegheny College has been the recognized school of the Methodist church in this part of the country for almost a century. Attorneys have been sent from Pittsburgh by the church officials and ordered to spare no one.

The Rev. Dr. H. C. Dodds, district superintendent of the Erie Methodist Episcopal conference, has issued a statement in which he asserts that when he first found there was a shortage and that Treasurer W. S. Smith, who was formerly a State legislator, appeared to blame, the Rev. Dr. William H. Crawford, president of the college, bound him to secrecy for a time and before he had been relieved from this promise much more harm was done. It is expected that most of the faculty and board of trustees will resign.

PULLMAN ROLLS INTO RIVER.

Broken Rail Wrecks a Rio Grande Train and Seven Passengers Suffer Severe Injuries.

[ASSOCIATED PRESS NIGHT REPORT.]

SALT LAKE CITY, Feb. 13.—Rio Grande passenger train No. 2, eastbound, was derailed at Woodside, twenty-six miles west of Green River, Utah, last night. The Pullman car Ivanhoe rolled down the embankment into the Price River.

Seven passengers in the sleeper were injured. They are Mrs. Frances W. Cooper, Pueblo, Colo., spine and back injured; Lillian D. Sinclair, Boston, slightly hurt internally; J. L. Shepherd, Denver, cut on chin and chest; H. P. Gayhort, Grand Junction, hand and knee cut; Herbert P. Russell, Worcester, Mass., right knee bruised; I. N. Fisher, Denver, shoulder and knee sprained, and C. O. Peona, Modena, Utah, inhaled gas. The injured were taken on to Denver in another car.

A broken rail caused the accident.

NO NEWS YET OF TUG NINA.

BOSTON, Feb. 13.—No news of the missing naval tug Nina, which left Norfolk for the Charlestown navy yard last Sunday, came today to relieve the anxiety as to her fate. The belief is growing that the vessel has gone to the bottom of the sea with her crew of thirty-two men.

ALSO DISCOVERED.

DR. COOK IN CHILE.

Faking Explorer Is Found at Last.

With His Wife, He Arrives at Valdivia on Board the Steamer Osiris.

Travels Under Name Craig. Won't Be Interviewed. Sails Northward.

Charcot Expedition Is Back from Antarctic With Tale of Hardship.

[ASSOCIATED PRESS NIGHT REPORT.]

VALDIVIA (Chile) Feb. 13.—Dr. Frederick A. Cook, explorer, and his wife, arrived here on board theGerman steamer Osiris, having taken a cabin at Montevido.

Dr. Cook traveled under the name of T. Craig. He and his wife sailed north today. He declined to be interviewed.

The steamer Osiris sailed from Hamburg January 1, and from Antwerp January 8, for Callao. Presumably she touched at Montivideo, where the Cooks are said to have boarded her but her call there has not been reported.

BROTHER IS DOUBTING.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 13.—[Exclusive Dispatch.] When shown the dispatch from Valdivia today at his residence, No. 747 Bedford avenue, Brooklyn, William L. Cook said he knew where his brother, Dr. Cook, was, but would give no information on the subject.

"I heard from him three weeks ago," he said, "and he certainly was not then in Chile or any other part of South America. Where he was I will not say, except that he was abroad. I suppose that when he gets ready he will issue a statement to quiet all this guesswork over him, and set himself right, but until then it will be time wasted to ask questions of me."

Dr. Cook's latest undisputed abiding place was the Gramatin Inn, Bronxville, which he quit November 24. Rumor then took him to Europe by the Cunarder Coronia, which sailed from this port November 27, for Naples and Genoa. Since then he has been reported to be in many places in Europe and this country.

CHARCOT EXPEDITION TELLS OF HARDSHIP.

[ASSOCIATED PRESS NIGHT REPORT.]

PUNTA ARENAS (Chile) Feb. 13.—Further details have been received of the voyage of the Pourquois Pas, which is now returning with Dr. Jean M. Charcot's Antarctic expedition.

The Pourquois Pas, on reaching the region of ice on her trip to the south, stranded on the coast of Grahamland, but was refloated after three days.

On the resumption of the voyage the steamer met with a long series of accidents. She was in collision with a number of icebergs, and lost her rudder. The crew constructed a jury rudder.

There was much suffering in the Antarctic regions, scurvy and heart disease being the chief ailments.

Scientific observations were conducted with the greatest care, and thus the object of the expeditian was, in part, realized.

Many journeys were made over the ice, but it was impossiblet to use automobiles because of the bad conditions of the ice fields.

Collisions with icebergs caused a leak impossible to repair, in the ship, at the outset of the expedition. Water flowed in at all times, and the pumps were in constant use until the end of the voyage.

HEAD OF ANTARCTIC EXPEDITION RETURNING NORTH.

Dr. Jean M. Charcot,

French explorer, whose party now at Chilean port tells of discoveries, observations and sufferings in the frozen South.

GOOD CASE, SAYS ATTORNEY.

CLAIMS TO BE SON OF SWOPE.

WEST VIRGINIAN MAY BE SOLE HEIR TO RICHES.

Prominent Kansas City Lawyer, Who Remembers Millionaire's Early Marriage, Takes Case for Claimant. Under Missouri Law He Will Oust Nephews and Nieces.

[BY DIRECT WIRE TO THE TIMES.]

KANSAS CITY (Mo.) Feb. 13.—[Exclusive Dispatch.] To establish his right as legal heir to the Swope millions, Elmer C. Swope of Martinsburg, W. Va., claiming to be a legitimate son of the late Col. Thomas H. Swope, will bring suit in the Circuit Court.

Senator T. A. Milton has been retained by the West Virginian and is now preparing his citation.

If successful in the suit Elmer C. Swope will be entitled to the $3,500,000 bequeathed to the relatives. Under the Missouri statute, as he then will have proven that he is of the first degree of consanguinity, all the Swope millions must be given him as a son. The will bequeathing his property to his nephews and nieces will be declared invalid.

"I think Swope has a good case, and can establish his right to the millions," said Senator Milton today.

Senator Milton was slightly acquainted with Swope twenty years ago—was born and raised in Martinsburg, leaving there about twenty years ago.

He says it was common talk in the town then how Tom Swope had married a young woman of that place; how they became estranged and he left her. This was long before Col. Swope became wealthy, and the marriage was talked of merely as an unfortunate match.

GRAND JURY TO BEGIN HUNTING POISON TODAY.

[ASSOCIATED PRESS NIGHT REPORT.]

KANSAS CITY, Feb. 13.—The special grand jury that is to investigate the deaths of Col. Thomas H. Swope, millionaire philanthropist, and his nephew, Chrisman Swope, will begin its work tomorrow.

The testimony that was given by nurses of the Swope household, by physicians and by relatives of the dead man at the Coroner's inquest, will be repeated before the grand july that is to decide if an indictment shall be returned against any one in connection with the Swope deaths.

Dr. Ludwig Hektoen and Dr. Walter S. Haines of Chicago and Dr. Victor Vaughn of Ann Arbor, Mich., the scientists who examined the internal organs of Col. Swope, will tell the details of their investigations which ended in a report to John G. Paxton, executor of the Swope estate, that poison had been found in the viscera of Col. Swope.

It is also understood that the specialists have finished their examinations of the organs of Chrisman Swope and that they will report the result to the grand jury. The reports of the scientists at the inquest consisted of only sworn statements and affidavits and these cannot be accepted by the grand jury.

It is expected that scientists will make a report on the contents of the stomach of Margaret Swope, a young niece of Col. Swope. According to Mr. Paxton, Dr. Haines examined the ejecta and reported no trace of poison, but, in a subsequent analysis, Dr. Vaughn found poison. Mr. Paxton says that later Dr. Haines explained that his analysis was not sufficiently thorough. The scientists, it is believed, will tell whether the poison in the stomach of Miss Swope exceeded the quantity of strychnine usually given in a hypodermic injection for medicinal purposes.

Robert Howard, a member of the grand jury, was a schoolmate of Dr. Hyde in Lexington, Mo., in 1887.

IMPROVEMENT.

CONVICTS LOSE HATED STRIPES

MISSOURI PENITENTIARY INMATES ARE JOYFUL.

Light Blue Uniforms Are Furnished Prisoners, Who Show Their Appreciation of the Change by Adopting Resolution of Thanks and the Day Passes Without Any Infractions.

[BY DIRECT WIRE TO THE TIMES.]

JEFFERSON CITY (Mo.) Feb. 13.—[Exclusive Dispatch.] For the first time since the Missouri penitentiary was established, more than seventy-five years ago, the male convicts appeared this morning dressed in civilians' clothing, the hated stripes having been changed for light blue suits at 6 a.m.

Every convict in the penitentiary knew that the change was coming, and in their own secret way of communicating with each other, were ready with a response. Charles Wright, No. 8695, had a resolution of thanks ready and it was adopetd with a roar.

This was not all the convicts did change. At some period not stated, a poet and a warbler, Albert Ferguson, No. 7978, had broken into the prison and he had been busy grinding out verses suitable for the occasion. He headed his effusion: "Danny Dever—After Woodyard Kindling—With a Shotgun."

For the first time in sixty years the day passed without a single infraction of the prison rules, and considering the fact that there are 2245 inmates, this was considered a record breaker. The negro convicts, in particular, were greatly pleased with their new uniforms, which have a neat appearance. Each convict had his shoes polished, and his personal appearance was improved as much as possible. The prison tailor had succeeded in giving most of them good fits.

ALBANY POLITICS.

PRESIDENT INSISTS ON SIFTING CHARGES.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 13.—President Taft had a quiet Sunday in New York. He posed leisurely for a sketch or two before a young woman artist, Lois A. Swan, while going through his mail this morning; saw two callers, and started for Washington in his private car, Olivette, leaving Jersey City at 3:55 p.m.

Otto T. Bannard, president of the New York Trust Company, and defeated candidate for Mayor in the recent municipal contest, and Lloyd C. Griscom, president of the New York Republican County Committee, were the only persons besides relatives and the artist whom the President saw.

At the conference yesterday in the house of Mr. Griscom, Mr. Bannard, Gov. Hughes and Mr. Griscom were of one mind in insisting that the Republican party in this State should be purged, and that the Allds-Conger charges at Albany should be sifted to the bottom.

While President Taft did not commit himself at the conference, he is said to have told several leaders that the "situation looked very bad," and it was common belief that he sided with Messrs. Hughes, Bannard and Griscom as against State Chairman Woodruff, Senator Depew and Speaker Wadsworth of the Assembly.

Mr. Bannard would not say that politics was not discussed today, and the inference was that the President has taken an active interest in the Republican situation in this State.

After the banquet of last night, the President returned to the home of his brother, Henry W. Taft, and did not get up until nearly 10 o'clock today.

A number of churches had extended special invitations to Mr. Taft to attend services today, but he declined, explaining in each instance that the activities of yesterday necessitated seclusion and rest.

Mr. Bannard arrived at the Taft residence a few minutes before 11 o'clock, and a moment after he had entered the house, he came out with Mrs. Taft. The President followed, and the three, accompanied by secret-service agents, were driven in an automobile to Mr. Bannard's home.

After dinner at Henry W. Taft's house, the secret-service men called with two automobiles, and the President and Mrs. Taft were taken to the train.

DIET OF DYE COLORS HENS.

"Biddy's" Feathers Turn Pink and Her Eggs Take Same Hue.

[BY DIRECT WIRE TO THE TIMES.]

ITHACA (N. Y.) Feb. 13.—[Exclusive Dispatch.] How to change the color of a pure white hen to pink and how pink, red and other colored eggs may be produced, was one of the demonstrations successfully carried out at the State College of Agriculture yesterday.

Experiments of feeding hens with Rhodameride dye proved successful. One hen was fed with this dye during the moulting season and her feathers gradually changed from white to a delicate pink. The same color was marked in the albumen of her eggs. By the use of Soudan III dye concentric rings of red appeared in the yolk of the eggs, which also were made entirely red, and the demonstrators said that it would be possible to produce other colors.

HORROR PILED ON HORROR.

STEAMER BLOWN UP AFTER HITTING REE...

[ASSOCIATED PRESS NIGHT REPORT.]

PALMA (Majorca) Feb. 13.—The supposition that the boilers of the French Trans-Atlantic steamer Gen. Chanay exploded, after she struck on the reef near the island of Minorca, Thursday night, is based largely upon the character of the wreckage of the ship, which was reduced almost to kindling wood.

The work of salvage and recovery of bodies continues, but is greatly retarded by the high seas. Among the bodies washed ashore was that of a woman with a baby clasped in her arms.

LOSS, OFFICIAL, 158.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Feb. 12.—Although a special dispatch from Toulon to the Journal des Debats says it is reported some survivors from the steamer Gen. Chanay were landed on a neighboring island, no confirmation can be obtained. On the contrary, everything indicates that Marcel Rodel alone escaped. The loss is given officially as 158 persons.

PRODUCES BLACK COTTON BY COMBINATION OF CHEMICALS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 13.—[Exclusive Dispatch.] Floral culture and the cultivation of cotton will be revolutionized if the formula which Dennis Trapley, a rheumatic cripple of Savannah, Ga., proves all he asserts it will. Trapley is in Washington trying to obtain a patent of his formula, which he says he has experimented with successfully.

By his process, which consists of the mixing of three inexpensive chemicals into a fluid, black cotton can be produced at an expense about one-tenth that of dye. Not only black roses can be produced, but every colored flower can be cultivated so that its blooms will be as black as ink.

Back of Trapley and his claims are Representative Edwards of Georgia, and Col. A. R. Lawton, a wealthy lawyer of Savannah.

CURES CANCER BY INOCULATION.

BUFFALO SCIENTIST HOLDS OUT STRONG HOPE.

Experiments on Rats Cure 25 in 40 by Vaccination—Now Needs Human Patients to Work on—Prevalence of Disease in Fish May Account for Rapid Spread.

[ASSOCIATED PRESS NIGHT REPORT.]

ALBANY (N. Y.) Feb. 13.—A strong hope of curing cancer, or at least greatly ameliorating the suffering of cancer patients by means of inoculation, is held out in the report of Harvey G. Gaylord, director of the cancer laboratory of the State Department of Health, at Buffalo.

This hope is based on extended experimentation in the last year in the inoculation of various animals, mainly rats, with the cancer virus.

"It appears," says the report, "that where the resistance of the animal is not sufficiently awakened by one inoculation of the tumor, this resistance can be heightened by repeated doses, and in a considerable proportion of cases immunity can be raised to a point that will bring about a cure. It is needless to point out that this process of repeated vaccination, which has cured in the proportion of twenty-five to forty in rats, might well be applied to those cases of late cancer in human beings in which surgery has nothing to offer, and the outlook is hopeless.

"As we strongly urged the Legislature in previous reports, the time has come when we should begin experimentation with human beings. To do so, it is necessary that a number of patients should be maintained for this purpose. Funds sufficient to enable us to maintain ten patients is the least amount that can be of value if this work is to be undertaken."

Other investigations conducted by the laboratory have had to do with the prevalence of many forms of cancer in fish and the possibility of infection by human beings. It has been found that cancer of the thyroid is of frequent occurrence in fish of the trout family.

"It is a remarkable coincidence," says the report, "that the area of the United States, which includes the great concentration of human cancer cases, is almost identical with the area through which the various members of the trout family are distributed."

Statistics are given to show that cancer continues to increase. The report says that in the United States it has increased from 9 per 100,000 population in 1850, to 43 in 1900, an average of about 63 in 1901, and an average of more than 70 in 1906.

LOOKS TO FUTURE.

BAD HEALTH TO STOP MARRIAGE.

PREACHER ADVOCATES LAW TO IMPROVE RACE.

Kansas City Minister Believes That All Persons Desiring to Wed Should Be Compelled to Furnish a Medical Certificate Before Being Granted Legal Permission.

[BY DIRECT WIRE TO THE TIMES.]

KANSAS CITY (Mo.) Feb. 13.—[Exclusive Dispatch.] The Rev. Cyrus Townsend Brady is advocating a law that will require men and women to present medical certificates of good health before they can get licenses to marry.

Rev. Brady has long been studying this matter. He has come to the conclusion that Elbert Hubbard was, in part, right when he advocated a system of social laws under which marriage should be difficult and divorce not too difficult.

Under his theory, the number of marriages would be reduced, but the race would be improved. In this he also reflects some of the views of George Bernard Shaw, although repudiating much that is objectionable in Shaw's philosophy.

Rev. Brady long ago saw the increasing amount of human ailments. Knowing that many of the diseases that inflict the race are handed down from father to son, he decided to start a movement toward securing legislation to correct the evil. Several of Rev. Brady's colleagues are supporting him in his efforts.

ANOTHER IDENTIFICATION.

Col. John B. Irish Thinks Skeleton of Girl Found on Tamalpais Was Former Client.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Feb. 13.—Former State Senator John B. Irish visited the morgue at San Rafael this afternoon and informed Coroner Sawyer that he believed the woman whose body was found on Mt. Tamalpais several weeks ago may have been a former client whom he represented in an action in which a man was involved. He refused to give further information at this time.

An effort is being made by the authorities to locate the daughter of the late James McKay, the half-breed Indian, who is supposed to be the McKay whose watch was repaired in Eureka, some years ago by Jeweler Wansky. The watch found on the remains of the dead girl was identified by Wansky's son as having been repaired by his father for McKay.

To Visit San Francisco

without seeing Andrews's Diamond Palace would be like visiting Europe without seeing Paris. It is the most beautiful jewelry store

TRIBUTE.

HONORS PLANNED FOR MAINE DEAD.

BATTLESHIP'S LOSS TO BE COMMEMORATED.

Next Tuesday Is Twelfth Anniversary of Vessel's Destruction—First Service Held in Washington Last Night—Monument to Be Erected in Arlington Cemetery.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 12.—Next Tuesday, the twelfth anniversary of the destruction of the battleship Maine in Havana harbor, is to be made the occasion for memorial services extending over several days in this city and other cities throughout the country.

A movement is under way to erect at Arlington National Cemetery a suitable monument to the sailors who lost their lives in the explosion.

The services began in this city tonight at the First Congregational Church, when a meeting arranged by patriotic organizations was held. Rear-Admiral Sigsbee, commander of the Maine on the night of the explosion, made the principal address.

On Tuesday services will be held at Arlington, where the Cuban Minister is expected to be one of the speakers. On February 20 a Maine memorial meeting will be held at Carnegie Hall, New York, with Joseph Choate as presiding officer and Admiral Sigsbee as one of the speakers.

Plans for a national subscription for a memorial have been perfected, and headquarters for the receipt of contributions have been established in this city. One hundred and sixty of the Maine's dead are buried at Arlington. The membership fee in the memorial association has been fixed at $1, for which the subscriber receives a certificate of membership and a black silk navy cap ribbon, on which, instead of the name of a ship, there is worked in gold wire the inscription, "Member Maine M. A."

MATAGALPA WORRIES MADRIZ.

Nicaraguan President Seriously Concerned Over Capture of Important Point by Rebels.

[ASSOCIATED PRESS NIGHT REPORT.]

MANAGUA, Feb. 13.—President Madriz and members of the government are seriously concerned over a report of the taking of Matagalpa, by the insurgent general, Chamorro.

Heavy artillery is being mounetd on the hills commanding Matagalpa, and as the revolutionists are without large guns it is believed they must be dislodged eventually.

Gen. Chavarria has occupied Accalica, about nine miles from Matagalpa, and Gen. Lara, Gen. Ramire and Gen. Fernando Rivas have brought up troops from Acoyapa, and are closing in on the revolutionary general, who is now said to have with him nearly 2000 men. There is a possibility that Matagalpa will be bombarded.

An American courier, after a ride of twenty hours, has reached Managua and has made an appeal to the American Consul, José Olivares, to prevent the destruction of American property. The Consul has expressed determination to return with the courier tomorrow and investigate.

The steamer Managua, captured a few days ago by a group of conservatives affiliated with the revolutionists, and which later was found abandoned, has resumed service across Lake Managua, with a doubled military guard.

FIND MISSING GIRL'S BODY.

Police Start Search for Young Married Man and Brother Who Disappear Suddenly.

[BY DIRECT WIRE TO THE TIMES.]

ATLANTIC CITY (N. J.) Feb. 13.—[Exclusive Dispatch.] The body of Jane Adams, the pretty 15-year-old daughter of Mr. and Mrs. Charles Adams of this city, who has been missing since they spent the evening on the million-dollar pier, on Friday, February 4, was found in the breakers off Harrisburg avenue, Ventnor, today.

Still clad in the finery which she donned for the evening at the pier, the girl's body was identified by the grief-stricken mother and father and the police have started a country-wide search for William Seyler, a young married man of this city, who was the last person seen in her company and who disappeared on the day following the girl's disappearance.

The search is also to be extended to locate Arvis Seyler, a younger brother of William Seyler, who is also missing.

GATES WOULD GOVERN TEXAS.

Financier Could Be Induced to Enter the Race, Says His Business Associate.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 13.—[Exclusive Dispatch.] John W. Gates, who, wearing a swallow tail and patent leathers, used to loll in to the Waldorf is now so much of a Texan that people down there are talking of nominating him for Governor of the Lone Star State. Mr. Gates is a Republican and thec hance of a Republican being elected Governor of Texas is what he might call "A 1000 to 1 shot." But he has "a barrel," and there would be no difficulty in procuring campaign funds.

George W. Fruck of Davenport, Iowa, associated with Mr. Gates in iron, steel and oil enterprises, is in Texas and started the boom for Gates for Governor. A dispatch from Austin says:

"Mr. Fruck says that as Mr. Gates is a resident of Texas now, he could be induced to take an active part in Republican politics if properly approached. If the Republicans of the

SAFE ONCE MORE.

SURVIVORS OF WRECKED SHIP RETURN FROM ALASKAN CAMP.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Feb. 13.—Bringing nineteen survivors of the ill-fated steamer, Farallon, which was wrecked near Iliamna Bay, Alaska, on January 5, the steamer Victoria arrived in port from Valdez, Alaska, today.

All the survivors brought down by the Victoria were members of the Farallon's crew, the passengers having decided to wait at Valdez and take the next west-bound steamer for their original destination. Many show the ill effects of their month's camp on the storm-bound coast. Several of them are still suffering severely from frostbites.

Capt. J. C. Hunter, commander of the Farallon, says that the wrecked steamer is a solid mass of ice. The constant dashing of the waves over the hulk has completely encased the steamer with frozen spray so that now nothing shows above the ice but the steamer's funnel.

Capt. Hunter believes the boat's crew that left the camp January 7 is safe. The two seamen, Nelson and Peterson, had fished along the coast of Kodiak Island, and are thoroughly familiar with that part of the Alaskan coast. Possibly the men will be found at Kodiak, he thinks, and if they have not reached there already they may have taken refuge at some Indian village.

STILL BELIEVE IN WITCHES.

Pennsylvania Couple, Losing Seventeen Children, Declares Family Is Under "Evil Spell."

[BY DIRECT WIRE TO THE TIMES.]

READING (Pa.) Feb. 13.—[Exclusive Dispatch.] "Seventeen of our twenty children died because they were bewitched; an evil spell was put on them; they wasted away, the dwindling flame of their lives was snuffed by some weird breath."

So decided Mr. and Mrs. Frederick Carl of this city, today; the seventeenth child they have lost, a daughter of twenty-eight years, died last week. The parents' declaration is another proof that ancient superstition survives in this county, Berke and counties surrounding, where colonies were planted long ago, and where the people have been slow to forget the mysterious folk tales of their old country ancestors.

Mr. and Mrs. Carl employed "witch doctors," "pow-wow doctors," and the like, but their charms, incantations and potions did not save the children's lives.

DAHLMAN QUITS BRYAN.

Omaha Mayor, Candidate for Governor, Differs With "Peerless One" on County Option.

[BY DIRECT WIRE TO THE TIMES.]

LINCOLN (Neb.) Feb. 13.—[Exclusive Dispatch.] Because W. J. Bryan has come out for county option, Mayor Dahlman of Omaha, Democratic candidate for Governor, says he and Mr. Bryan have reached the parting of the ways.

"I am greatly disappointed,' said Mr. Dahlman tonight, "on the position Mr. Bryan has taken.

'However, it will not change my plans relative to running for Governor. It puts Gov. Shallenberger and myself in the same bed. For years I have fought side by side with Bryan and have been one of his greatest admirers. Now we must separate and become political enemies, for I am strenuously opposed to county option, being a firm believer in personal liberty.

"The declaration of Bryan means a bitter fight in the Democratic State convention."

PREPARING TO SAIL SOUTH.

SAN FRANCISC. Feb. 13.—Preparatory to their run to Magdalena Bay for target practice, the Pacific fleet, under Rear-Admiral Harber, will arrive at this port Tuesday morning. They are the armored cruisers California, flagship; South Dakota, Colorado, Pennsylvania, West Virginia and Maryland. The gunboats Galveston and Denver will be in the harbor tomorrow morning with the tug Iroquois in tow.

SALOON FIGHT ENDS FATALLY.

SAN FRANCISCO, Feb. 12.—In a saloon fight tonight, Harry Tarr, aged 29, stabbed and fatally wounded Henry Faust, aged 25. Harr was arrested, charged with murder. He says he acted in self-defense. The weapon was a butcher knife, the blade of which was plunged into Faust's stomach.

NEAR DEATH'S DOOR.

WAILS OF BABY SAVE SLEEPERS.

TWELVE PERSONS ARE RESCUED FROM ASPHYXIATION.

Visitors in Crowded House Are Overcome by Gas Fumes When Infant's Cries Bring Help and Timely Assistance Saves Many Lives. Woman Dies from Inhaling Poison.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Feb. 13.—The cry of a baby alone saved twelve people from asphyxiation today. The twelve had remained to sleep at the residence of Henry Kolkey, after attending a party. The family and relatives had retired, after dancing until almost daylight. While they slept, a defective gas pipe poured fumes into the crowded quarters.

The gas became so dense that they still were asleep at 1 o'clock in the afternoon. At that time, a baby sleeping in another room, by a window, became hungry and began to wail loudly. This aroused Henry Kolkey, the only one in the house not completely overcome. In a dazed condition he managed to crawl to a window and call for help.

Outsiders soon smashed open the door. They found members of the Kolkey family and their visitors all unconscious, some apparently dead. They were taken to a hospital, where it was thought they would recover.

Today, also, in a hotel, the police found Annie Miller, 24 years old, dead from the effects of gas, and Annie Evans, 20, in the same room, dying.

HAS HOSPITAL ON WHEELS.

Retired Banker of Louisiana Is Speeding Toward Los Angeles in Search of Health.

[BY DIRECT WIRE TO THE TIMES.]

SHREVEPORT (La.) Feb. 13.—[Exclusive Dispatch.] After a long illness and having exhausted the skill of surgeons, Henry H. Youree, retired banker and one of the leading financiers of this State, is now aboard a private car that has been turned into a temporary hospital on wheels and surrounded by his family physicians and trained nurses is hurrying to Los Angeles and California resorts for the remainder of the winter.

The private car Edgemere was chartered from the Texas & Pacific and fitted up for the long journey. Banker Youree is accompanied by Capt. Peter Youree and family, Dr. G. B. Lawrason, the family physician; a nurse and Mrs. Soufert of Marshall, Texas, sister of the Youree's. The party left last night with the hope of securing benefit from the California climate.

FRIGHTFUL.

SPEND NIGHT WITH A CORPSE IN LAUNCH FIGHTING STORM.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Feb. 13.—After spending the night with a corpse in an open launch at the mercy of a fearful storm that whipped the water of Puget Sound into a frenzy, A. H. Craig and A. F. Winch of Bremerton, ran their craft ashore at Richmond Beach this morning. The dead body of Hagbert Isaacson, a sailor, which they picked up off Port Blakeley, was carried away by the storm.

Early in the afternoon Craig and Winch were sent from Bremerton to recover the body, which had been floating near Port Blakeley. When they found the corpse, they placed it in a rude coffin that had been lashed to the launch.

A storm came up, and they were driven from their course. During the night the lashings gave way and the body was again swept into the water. Craig and Winch battled with the storm all night. Late this morning, completely exhausted, they succeeded in beaching their launch at Richmond Beach.

It is believed that Isaacson committed suicide. He has been missing since he was discharged from the Marine Hospital at Port Townsend recently.

MONEY IN RECLAMATION.

ENGLAND PUTS MILLIONS IN CALIFORNIA IRRIGATION BONDS.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 13.—[Exclusive Dispatch.] Word has been received of the sale in England of five million dollars' worth of bonds of the Natomas Consolidated Company of Sacramento and work on the great reclamation project undertaken by this corporation will begin at once. Two million and a half of the sum will reach here on the fifteenth and the remainder in ninety days.

A year or more ago the Natomas Company obtained options on 50,000 acres of overflow land at the junction of the Sacramento and American rivers immediately north of the city of Sacramento. Since then other options have been added and ultimately it is intended to bring into the scheme about 200,000 acres.

This exceeds in extent the reclamation plan of the Kuhns of Pittsburgh, in Glenn and Colusa counties, which a party of bankers from the East, who came by way of Los Angeles and were entertained there last week, are now inspecting. It has been roughly estimated that there are a million acres of overflow lands in the Sacramento Valley, and all of it is valuable for agriculture.

Many reclamation districts have been formed in the last few years, but none on the scale of the two mentioned.

The Natomas Company was originally engaged in gold dredging and is still so engaged, having taken up reclamation only recently.

Armour of Chicago is understood to be in control of the corporation.

Another large tract, the famous Haggin grant of 55,000 acyres, also adjoining Sacramento on the north, will soon be divided into small ranches and placed on the market, it is understood.

THRILLER.

FEARFUL FIGHT WITH A GRIZZLY.

ALASKAN TERRIBLY TORN BY DYING BRUIN.

After Receiving Its Death Wound Monster Clawed and Bit Man's Head Most Horribly—Victim Walks Seven Miles Before Medical Assistance Could Be Secured.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) Feb. 13.—[Exclusive Dispatch.] Of all the battles in the Yukon county between men and grizzlies, none ever was more exciting than that waged by James Christie, who arrived at Dawson in January from the headwaters of Stewart River.

Christie had tracked a bear several miles to punish him for robbing a cache of moose meat. He was roused by a crackle in the brush and saw the beast coming through the thicket on a run. Christie had barely time to pull the trigger with a bead on Bruin's heart. The brute was but thirty steps away.

Another moment and the hideous claws were tearing at the man's face and body. The bear gave a vicious grind of the teeth and Christie felt its vice-like clamp closing over his head. The man threw up his right arm in desperation, hoping to stay the force of the brutal jaws. In his extremity, Christie thrust his right arm straight into the jaws of the bear and forced back on them with all his might. This effort and the fact that death just then dealt the great brute his quietus, saved the man's life.

As the bear fell dead, his jaws relaxed and Christie, half fell, half crawled away, victorious, but at an awful cost. The man's two cheeks were severed from ears to mouth and his lower jaw fell down against his breast. The scalp was cut through his abundant hair and thrown back in detached form, like a cape.

Christie walked seven miles to his home, where he received medical attention.

THINK WOMAN IS IMPRISONED.

Searchers Fail to Find Mrs. Eaton and Authorities Believe She Is Held for Reward.

[BY DIRECT WIRE TO THE TIMES.]

WALLA WALLA (Wash.)) Feb. 13.—[Exclusive Dispatch.] Every body of water has been dragged and every clump of bushes within the city has been beaten by persons who have searched for a week to find Mrs. Alice Eaton, widow of a prominent citizen, who has strangely disappeared. Those leading the searchers for Mrs. Eaton have decided the woman is not dead, but is either being held for reward or is staying with some person who has not yet been informed that she is sought.

Mrs. Eaton had been an inmate of the Odd Fellows' Home here. She disappeared last Sunday. Superintendent Bathamy of the home and the Sheriff are among those who believe she is being secreted by parties who hope a large reward will be offered. The woman was possessed of some means, but chose to remain at the home. Her husband was John Eaton, one of the early settlers here.

FIVE HURT IN AUTO WRECK.

When One Victim Is Taken Home His Mother Is Fatally Injured by Fall.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 13.—[Exclusive Dispatch.] In an auto mishap, this evening, several miles east of Sacramento, Otto Heilbron, real-estate dealer and son of A. Heilbron, millionaire brewer, was perhaps fatally injured; George C. Sherman, manager of a large manufacturing concern, was also seriously hurt, and the third ocupant of the machine, Lucien G. Brayton, treasurer of a local concern, severely injured.

The automobile collided with a buggy which it demolished, injuring the two persons in it, and then turned over in a water hole. When Heilbron was brought home, his aged mother, in her excitement, fell over the balustrade of a stairway and was hurt so badly that it is thought she is now dying.

NOBODY WANTS IT.

MAYOR MAY WIN BY A WALKOVER.

ASHLAND RECALL ELECTION APT TO GO BY DEFAULT.

No Candidate Offers to Oppose Oregon Executive Made Victim of Acknowledged Political Warfare—Says It Is Spite Work and Hurts the City.

[BY DIRECT WIRE TO THE TIMES.]

ASHLAND (Or.) Feb. 13.—[Exclusive Dispatch.] Interest in the coming recall election for Mayor, to be held February 21, has not reached a white heat and there is no evidence yet of life in the campaign, as no opponent has offered himself or has been persuaded to enter the race against Mayor Snell. It now appears the Mayor will be reelected by default.

Mayor Snell takes the position that the election is not a good advertisement for the city. He says in an authorized publication:

"My contention from the beginning of the dastardly spite work has been that no matter what might be the result of a recall election it would leave a blemish upon the character of an honest and faithful public servant, simply to gratify the spite of a few men who have personal spleen to vent."

The petitioners for the recall, which admittedly was started as an act of political warfare, assert that the taxpayers of the city hve lost confidence in Mayor Snell's official management of public funds.

REPORT ANOTHER RICH STRIKE.

New Pay Shoot Is Uncovered in the Surprise Mine in Republic District.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) Feb. 13.—[Exclusive Dispatch.] Another wonderfully rich strike has been made in the Republic mining district, this time in the Surprise mine. J. C. Kerley verifies the reports of last week. He personally took samples from the face of the new ledge where the vein was four feet wide. Assays have given values running from $648 to $905 per ton.

A new pay shoot has been uncovered for 350 feet. Kerley says this is the most remarkable body of ore yet opened in the Republic camp, surpassing in richness the famous Patsy Clark pay shoot opened in the Republic ten years ago.

The Republic ores are a base containing gold, copper and silver. They are sent to Tacoma, Granby and Northport for smelting. The Old Republic mine was practically abandoned eight years ago when the cyanide process, intalled a a large expense, proved a failure. Two years ago the mine was leased by a group of men who knew little about mining. They have uncovered new ore bodies and the mine is now paying handsomely.

This process has been repeated with several other Republic mines and the camp, which was almost abandoned a few years ago, is now one of the largest producers in the State.

TRAMPS MENACE SAN JOAQUIN.

Itinerants Are Causing Residents Much Trouble and Appeal Is Made to the Sheriff.

[BY DIRECT WIRE TO THE TIMES.]

STOCKTON, Feb. 13.—[Exclusive Dispatch.] The largest number of tramps ever known in the history of San Joaquin county is causing the peace officers more trouble than anything they have to deal with in an official way. Hundreds are working their way South, but it seems as if they make an endless chain and railroad yards are crowded with them trying to catch every freight train that pulls out for the South.

When they fail to get out of Stockton on the brakebeams, they walk to French Camp, Lathrop and Tracy, where the towns are overrun with them to such an extent that an appeal has been made to the Sheriff's office for assistance in handling them. The special railroad officers have been making an effort to control the tramps, but find they cannot cope with the situation.

The hobos have become so bold they rob cars in the local yards and they appear to have a system of disposing of the loot in small towns along the railroad lines. Arrests do not seem to have any effect on the wanderers.

CELERITY IS RATHER DEAR.

Baker Drives Horse Faster Than Train to Deliver Rolls and Pays Fine.

[BY DIRECT WIRE TO THE TIMES.]

RENO (Nev.) Feb. 13.—[Exclusive Dispatch.] Gust Xindas baker, to deliver steaming hot rolls to his patrons, forced his old white horse to trot faster than the stub train could run and pleaded guilty yesterday before Juhtice Cartwright to a charge of cruelty to animals.

After inquiry into the price of hot rolls, and the profits therein, the justice fined Xindas $10 and costs, and prompt delivery of the load cost Xindas $21.60.

STILL OUT.

HERMANN JURY FAILS TO AGREE.

JUDGE ORDERS IT LOCKED UP FOR NIGHT.

After Thirty-six Hours of Consideration the Haggard Dozen Go to Sleep—Rumor Says They Stand Nine to Three for Acquittal—Many Hang About for Verdict.

[ASSOCIATED PRESS NIGHT REPORT.]

PORTLAND (Or.) Feb. 13.—At 11 o'clock tonight, no word having been received from the jury in the case of Binger Hermann, Judge Wolverton ordered that body locked up for the night. The jury was still arguing the case at 8:15 p.m., but about 9:30 the lights in the jury room were extinguished.

After thirty-six hours spent in the consideration of the evidence in the case of former Commissioner of the General Land Office Hermann, tried for conspiracy to defraud the government in connection with the establishment of the Blue Mountain forest reserve in this State, the jury had not reached a verdict.

The jurors, haggard and worn from their ordeal, made but one appearance in court today. Shortly after 10 o'clock this morning they asked to have read to them again the instructions of the court as to what constituted reasonable doubt, and what constitutes conspiracy.

Following a consultation with the attorneys, Judge Wolverton reread from his instructions the portions asked for and in addition also read that portion of his instructions bearing upon the credibility of witnesses.

Armed with the additional information which the rereading of the instructions imparted, the jurors again retired.

All day long, groups of interested persons loitered about the corridors hoping for some word from the jurors, but they were doomed to disappointment. Even rumors as to how the jury stood were facking, about the only report which was bandied about being one which stated the jury stood nine to three for acquittal.

HIGH OFFICIALS CLASH.

Federal General, Secretary of State and Mayor of Spokane Squabble Over I.W.W.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) Feb. 13.—[Exclusive Dispatch.]] Between Gen. M. A. Maus, commanding the Department of Columbia, on one side, and Secretary of State Howell of Washington and Mayor Pratt of Spokane on the other, a breach has opened, touching the suspension from command of Fort George Wright of Lieut.-Col. W. H. Abercrombie. It is charged from Spokane that Col. Abercrombie's suspension has come about because Gen. Maus was not consulted in regard to the housing in the fort of I.W.W. prisoners during the recent troubles there.

Gen. Maus denies this. It is also charged by the Washington people that Gen. Maus paid a visit to Spokane and protested loudly to E. V. Lambert, who was acting Mayor, against what he called the discourtesy shown him.

"It is true I went to Spokane," said Gen. Maus at Vancouver Barracks today, "but it is not true that I made such a protest as is reported. The relieving of Col. Abercrombie at Fort George Wright had nothing to do with the I.W.W. incident. I have investigated certain charges against Col. Abercrombie, but their nature I cannot divulge."

WOOD WOULD SEGREGATE SEXES

School Statistician Declares Boys and Girls in High School Should Be Separated.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Feb. 13.—[Exclusive Dispatch.] Job Wood, statistician in the office of the State Superintendent of Public Instruction Hyatt, is strong for sex segregation in the High Schools, and to support his contention, which he has preached for many years, he offers practical reasons.

He asserts that when a boy enters a high school, he is a big, awkward fellow, not much for neatness. The boy is careless with his paper, while the girl makes a neat showing. Teachers are naturally attracted by the precise maiden and give her more credits than the youth. That disgusts the boy and urges him to leave school.

"Put by themselves and they will work to excel their classmates, in that way bringing out what there is in them," he says.

The girls are naturally "older for their age" than the boys, which is another drawback, Woods finds, to the sexes being together in the high schools.

OBITUARY.

Judge Lawrence Archer.

SAN JOSE, Feb. 13.—Judge Lawrence Archer, one of the best known pioneer residents of San José, and a former Superior Judge and lawyer, died of heart failure this morning. He was 89 years of age and had been prominently identified with the bench and bar and with all civic movements here for half a century.

$1.750.000

BEHIND YOUR BANK ACCOUNT

THE SOUNDNESS AND STRENGTH of every bank is measured, in great part, by its reserve fund.

The Capital, Surplus and Undivided Profits of the Los Angeles Trust & Savings Bank amounts to $1,750,000—the largest of any savings bank in So. Cal.

Absolute protection and safety is thus assured all deposits.

You should choose this bank—its great reserve will prove a bulwark of protection for your funds.

There is an interest bearing account for every financial need. Our location, service and accomodations make this an ideal banking home.

Open an account today—identify yourself with an institution whose permanent prosperity is the result of capable management and sound banking principles.

LL CARRY OUT PLEDGES.

'dent's Speech Indicates Early Action.

se Will Fight Ship Subsidy Measure.

Demand for Rival Food Cost Inquiry.

OCIATED PRESS NIGHT REPORT.]

SHINGTON, Feb. 13.—The fact President Taft in his New York n picked out for emphasis such ts as postal savings banks, in- te commerce legislation, anti-in- gun, Statehood and conservation tural resources, seems to mark as subjects for early considera- by Congress.

ecially is this true for the reason measures to carry out these party gs have reached advanced stages the appropriate committee.

s remarked also that the char- of Mr. Taft's allusions to the al incorporation bill would hard- tify the placing of that measure e first rank of administration ures, while the fact that ship ly was ignored altogether makes estionable whether the Executive bring pressure to further its es.

o subsidy legislation seems al- certain to pass the Senate, but emocrats in the House are pre- g to line up against the bill, believe that with some Republican tance they will be able to defeat is not improbable that the Sen- ould then place the measure upon ostoffice Appropriation Bill as a in which event a second contest t be precipitated in the House.

VESTIGATING COMMITTEE.

is expected the committee of the te selected to conduct an investi- n into the cost of living will be unced early this week. There is doubt that Republican members e committee will be Senator t, chairman, and Senators Elkins, umber, Smoot and Crawford. Democratic membership has not determined, but indications are Senators Simmons of North Caro- and Clark of Arkansas will be d to serve.

publicans generally express the on that the inquiry can be con- ed so speedily as to insure a re- before the conclusion of the pres- session. They will undertake espe- y to demonstrate that the tariff t responsible for the rise in prices. e question whether the House mittee on Ways and Means will rtake an investigation of the high of living is still undetermined, ere is no general demand for a inquiry, and indications are that House will be willing to leave the e subject to the Senate, as the r's inquiry is intended to be de- ive of Republican principles and esigned for use in the Congres- al elections.

MANY BILLS READY.

stal savings banks and appropria- bills will take up practically the e week in the Senate. In the se the Rivers and Harbors Bill ably will occupy much time, and e are other appropriation bills y for consideration. Among these he postoffice bill, carrying about ,000,000, and the Indian bill. It is kely that any administration bills be considered in the House this k.

e Ballinger-Pinchot investigation scheduled for resumption tomor- . There will be important hearings at both ends of the Capitol on administration railroad bill.

he hearings on the anti-option bill attracting general interest. Hear- will be resumed tomorrow.

BUSY SESSION AHEAD.

IG DECISIONS TO COME SOON.

PREME COURT HAS MANY CASES ON DOCKET.

obacco and Standard Oil Cases ead in Importance—"Hours of ervice" Railway Law, Suit Against berlin Carter and Many State tatutes Will Be Passed Upon.

ASSOCIATED PRESS NIGHT REPORT.]

ASHINGTON, Feb. 13.—When the preme Court of the United States avenes on Monday, February 21, a g list of decisions is expected. awyers believe the court in its three ks' vacation has endeavored to dis- pose of many cases that it may be as free as possible to consider this spring the application of the Sherman anti-trust law to corporations and the validity of the corporation tax.

The suit of the government against the American Tobacco Company and others, is the most important case under advisement by the court. It was argued several weeks ago. On account of the Standard Oil case to be argued March 14, and involving similar questions, it is believed the decision in the tobacco case will not be announced until after the Standard Oil suit has been heard.

One of the most important laws whose validity has been questioned in arguments before the court is the "hours of service law" for railroad employés, passed by Congress in 1907. The railroads have attacked the law as being applicable to employés engaged in commerce within the State as well as in interstate commerce. It is claimed the law is open to objections similar to those that nullified the liability law of 1906. A decision in this case may be announced on February 21.

CAPT. CARTER CASE.

Another suit that has attracted much attention is that in which the government is seeking to get possession of property amounting to nearly $400,000, in the hands of Oberlin M. Carter, former captain in the Engineer Corps of the army, who was sentenced to prison for his alleged connection with schemes to defraud the government out of $2,000,000. The court has the case under advisement.

The validity of a large number of State laws is questioned in cases which the court has heard arguments, but in which it has not announced its decision. Among these is the act of the Minnesota Legislature increasing to 4 per cent. the rate of the gross earning tax or railroads. The Chicago Great Western Railway and the Great Northern Railway have brought suits to the Supreme Court claiming that, as applied to them, the law is void, because their charters exempt them from paying a higher rate than is specified in those charters.

One Arkansas suit involves the validity of the act of the State Legislature requiring foreign corporations seeking to do business in that State, to pay a fee proportionate to the capital stock of the corporation.

The validity of the regulations of the railroad commission of Arkansas requiring railroads to furnish cars for local shipments within five days after the order has been received, is also under consideration.

JUSTIFICATION?

JEFFERSON SET THE PRECEDENT.

FATHER OF DEMOCRACY REFUSED TO OBEY COURTS.

Third President's Action in Aaron Burr Trial Interests Washington in Light of Attitude of Senate and House Toward Judge Wright's Summons—Old Papers Consulted.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 13.—The fact that Thomas Jefferson, when President, declined to appear in court and produce certain papers in the trial of Aaron Burr for treason, taken in connection with the attitude of the Senate and House in the mandamus of Judge Wright to the joint Committee on Printing to appear in the District of Columbia Supreme Court last week, aroused interesting comment among officials of the Department of Justice.

Mr. Jefferson was asked to bring a letter from a general who was believed to have knowledge of Burr's alleged treasonable designs upon the Southwest, but he contended that as the executive offier of the government, he was exempt from the process of the court.

The documents do not disclose just how the incident ended, but one official said it was his recollection, from reading the history of the trial, that the President's attitude was upheld by the courts.

Burr was tried at Richmond, Va., and was acquitted. The papers in the case, more than a hundred years old, were loaned by Judge Edmund Waddell of the Federal court at Richmond to Chief Clerk Field of the Department of Justice to form part of the exhibit at the Alaska-Yukon-Pacific Exposition at Seattle last year.

YANKEES LIKE L. A. BONDS.

BOSTON, Feb. 13.—[Exclusive Dispatch.] A $50,000 block of Los Angeles water bonds offered on the Boston market by E. H. Rollins & Sons, Boston bankers, is meeting with a good steady demand, mainly in small lots, to trustees of estates, trust funds and savings banks, in Maine, New Hampshire, Vermont, Rhode Island and Connecticut. These bonds are legal investment for savings banks in the States named. The bonds are 4½ per cent., maturing serially in 1938, and sell, according to maturity, to net about a 4.20 per cent. income.

KING GUSTAV MUCH BETTER.

STOCKHOLM, Feb. 13.—The condition of King Gustav was so satisfactory today that no official bulletin was issued.

UP AND DOWN THE VALLEY.

ITH OF THE NEWS FROM OUT THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

HICAGO, Feb. 13.—[Exclusive Dispatch.] The "old fashioned" winter was again in evidence today d there was very little indication of mild weather. Middle West mperatures at 7 p.m.: Alpena, 24; marck, 24; Cairo, 36; Cheyenne, 46; ncinnati, 28; Cleveland, 18; Davenrt, 32; Denver, 58; Des Moines, 34; troit, 18; Devil's Lake, 22; Dodge ty, 46; Dubuque, 24; Duluth, 24; Esnaba, 26; Grand Rapids, 24; Green y, 24; Helena, 42; Huron, 26; Inapolis, 28; Kansas City, 40; Marette, 24; Memphis, 36; Milwaukee, 24; naha, 40; St. Louis, 36; St. Paul, 26; ult Ste. Marie, 22; Springfield, Ill., ; Springfield, Mo., 40; Wichita, 44.

POLITICIANS NOT PRESENT.

deral Judge Rebukes "Professionals" for Not Attending Lincoln Birthday Celebration.

[BY DIRECT WIRE TO THE TIMES.]

LITTLE ROCK (Ark.) Feb. 13.—[Exclusive Dispatch.] At the Lincoln Day elebration here last night under rand Army auspices, Federal Judge rieber, the principal orator, said:

"About two weeks ago several hundred prominent Republicans of this and adjoining cities and from all sections of the State, attended the Republican State Committee's meeting for the purpose of distributing Federal positions. Where are these patriots tonight?

"While this is a splendid gathering, I am forcibly reminded how conspicuous the professional politicians have made themselves by their absence tonight."

Judge Trieber particularly referred to leading Little Rock politicians, who failed to attend the celebration, though it was held in their home city.

RAILROAD REGULATION.

INTERSTATE COMMERCE BILL WILL REACH CONGRESS SOON.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 13.—If the calculation of members of the Senate and House Committee on Interstate Commerce does not go amiss the administration measure probably will be under discussion on the floor of Congress within a month.

Committees of both houses have practically completed their general hearings, but members of the Interstate Commerce Commission and Atty.-Gen. Wickersham are still to be heard.

Representative Mann, chairman of the House committee, said today he was hopeful the bill could be reported by his committee on March 1, and it is understood that he feels equally confident that it will be taken up and favorably acted upon by the House soon afterwards.

Other members of the committee express confidence, but at the same time they complain that the hearings have not been especially illuminating. The railroads, with the exception of the Chicago, Rock Island and Pacific, have shown a disposition to let the bill go through without contesting it.

The bill will be amended in many respects by the House committee, but it is already well understood that it will cover the essential features of the President's measure. As outlined today the bill will cover the following points:

First. Control of the issuance of stocks and bonds by railroads and prohibition of the purchase of competing lines.

Second. A provision requiring railroads to furnish their rates on application, with a penalty for failure to do so.

Third. Giving the Interstate Commerce Commission power to suspend a proposed rate before it goes into effect.

Fourth. Making effective the long and short haul clause of the present law, so as to forbid a higher charge on a short haul than on a long haul. This provision in the present law was destroyed by decisions of the courts.

Fifth. Giving the commission power to control the classification of freight and of all regulations and practices of railroad companies.

The provision for a Court of Commerce probably will not be included in the House committee report.

The Senate committee has given the bill no consideration beyond the hearings, but it is believed the matter will be taken up seriously after the appearance of members of the commission. There is likely to be more division of opinion than in the House committee, and no one is so sure of the outcome.

It is believed, however, that ultimately the bill will find its way out of the Senate committee, and the general disposition is to accede to the wishes of the President.

INQUIRY.

PRICE OF HOGS NEXT SUBJECT.

"MEAT" GRAND JURY TO EXAMINE INDEPENDENTS.

Whether Agreement Exists to Keep Down Figure Paid Farmers to Be Line of Inquiry—Two Hundred Chicagoans Will Discuss High Cost of Living.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Feb. 13.—Whether any agreement has existed to keep down the price of hogs when bought from farmers by the packing-houses, is to be the line of inquiry when the Federal grand jury tomorrow resumes its hearing of the government's investigation of the meat industry.

Employés of the Schwarzschild & Sulzberger Company from Chicago and western cities, are to be questioned as to methods of their firm, known as an "independent."

At the same time the books of the other packers are to be gone over to ascertain prices of hogs for the last five years.

EXPERTS TO EXPLAIN WHY.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 13.—[Exclusive Dispatch.] The question of responsibility for the cost of living will be discussed by 200 Chicago men, students of political economy, practical grocers, retailers and wholesalers, at a meeting at the La Salle Hotel tomorrow night.

Why meat and potatoes and other necessities of life should be sold at a price making them luxuries was attributed today to various causes by the men who will speak tomorrow night. The following reasons were given, being listed according to the frequency with which they were mentioned:

Increase in the production of gold.
High protective tariff.
Trusts and combinations to control prices.
Railroads.
Extravagance of the average American householder.
Labor-unions.

Two speakers, Otto C. Ericson of Evanston and John A. Lee of Oak Park, take issue with the popular belief and assert that in many lines living is actually less expensive than at any time within forty years. Mr. Ericson asserts he is prepared to spring a surprise by presenting convincing figures that a great number of food staples are sold cheaper than ever before.

PLANS BIG IMPERIAL NAVY.

Germany's Programme for Naval Supremacy Rests on Merchant Marine's Upbuilding.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 13.—[Exclusive Dispatch.] News was received today of the German government's plans for a great imperial navy, to include an auxiliary war fleet to be commissioned out of the German merchant marine. These plans, backed by the personal influence of Emperor William, are considered by naval experts, American and foreign, as being the most extensive so far undertaken by any power.

The official dispatch received today setting forth the exact plans of Germany states that the eight Dreadnought battleships already contracted for will be the last of this type of warship, and that hereafter the imperial government will develop her merchant navy.

Germany has been making rapid progress by encouraging home construction. She furnishes model yards, docks and appliances, and acts as intermediary between constructors and steel makers, offering reduced railroad rates to the latter in compensation for any discounts given to the former.

This is the plan which Secretary of the Navy Meyer is going to submit to Congress at an early date.

URGES NOISELESS REVIVALS.

Pittsburgh Preacher Says They Are "Emotional Debauches" and Harm Cause of Christianity.

[BY DIRECT WIRE TO THE TIMES.]

KANSAS CITY, Feb. 13.—[Exclusive Dispatch.] Rev. John Ray Ewers of Pittsburgh is here conducting a revival without noise. He calls his meetings "decision meetings."

"Modern religious revivals are nothing more than emotional debauches with no lasting good effects, and are damaging to the cause of Christianity," said the Pittsburgh pastor today.

"I am opposed to revivals, and I will tell you why," this iconoclastic clergyman continued.

"They work up a fanatical enthusiasm that lasts only over night, and when the fever effervesces and is gone, the religion is gone. The man who gets religion in a whirl of excitement, loses it when the excitement is gone. Then he thinks there is nothing to religion, after all, and tells his friends so. In this way the church is damaged to an untold extent.

"It does not pay to scare people into Christianity. They can be scared out just as easily. When an evangelist begins to shout and get excited, they profess Christianity from sheer nervousness. It is an emotional debauch and nothing more.

"Mob psychology will not save souls."

"BILLY" SUNDAY IN CLOSE CALL.

Noted Evangelist Suffers from Pneumonia Because Overzealous Convert Took His Overshoes.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) Feb. 13.—[Exclusive Dispatch.] Evangelist "Billy" Sunday, the ex-Chicago ball player, was at death's door for two days and was able to appear in the big special tabernacle meeting at Youngstown, O., today only after having fought the grim reaper for several days. All of this was due to the overzealousness of one of the famous evangelist's converts. The latter to mark the epoch in his life, after having been induced to join the fold by the ex-ball player's exhortations, decided last Wednesday to appropriate Sunday's overshoes.

"He wanted them as a souvenir, evidently," said the evangelist when he addressed an audience today. "At any rate he said so in a letter and I won't divulge his name."

The result was that the evangelist contracted a severe cold and it was thought he had developed a fatal attack of pneumonia.

BRITISH NAVY TO USE OIL.

Admiralty Decides to Employ Liquid Fuel and Places Order to Fill New Tanks.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Feb. 13.—[Exclusive Dispatch.] The Express is responsible for the statement, to which it gives prominence, that the Admiralty has decided definitely to substitute oil fuel for coal in the navy. It has placed an initial order for 11,000,000 gallons, or 50,000 tons.

The oil will be stored in new tanks lately completed in the neighborhood of Plymouth. The tanks have a capacity of 500,000 tons. It is intended to fill these largely from American and European sources, but the Admiralty will rely on the British shale and colonial oils for fuel whenever there is a war.

The Express describes the decision as the greatest revolution in naval equipment since steam supplanted sails.

LOCAL TRAVELERS.

Los Angeles People Who Are Registered at Hotels in Other Cities.

[BY DIRECT WIRE TO THE TIMES.]

TRAPPED 8 TIMES

The following report in an extreme case of chronic Bright's Disease will interest physicians, due to the fact that tapping has heretofore invariably attended fatal terminations. Under the new emollient treatment tapping does not prevent recovery.

Patient—six years old—the young son of A. C. Dean, of 1728 Ninth Ave., Oakland, Cal. Chronic Bright's. Dropsy that had resisted all efforts was continually increasing. The family physician gave no hope and said the end was near.

At this critical moment the treatment was changed to Fulton's Renal Compound, the physician aiding it by holding up the heart and strengthening the little patient against collapse.

Case very stubborn—dropsy was so oppressive that the patient had to be tapped eight times. But as the tappings became further apart the albumen began to decline, diuresis increased, and the patient made a slow but steady recovery, and is now going to the public school in Oakland.

The new emollient treatment for Bright's and chronic kidney disease (Fulton's Renal Compound) shows an efficiency in about 97 per cent. of these hitherto incurable and fatal diseases. It can be had in Los Angeles at all first-class drug stores.

We desire to hear from and advise with patients not noting improvement by the third week. Literature mailed free. John G. Fulton Co., 645 Battery st., San Francisco, Cal. We invite correspondence with physicians who have obstinate cases.

SIXTEEN-YEAR-OLD MURDERER.

BLOODHOUNDS BRING GIRL'S DEATH HOME TO MERE BOY.

[ASSOCIATED PRESS NIGHT REPORT.]

DELANS (Fla.) 13.—Irvin Hantchett, a sixteen-year-old white boy, was arrested today, charged with the murder of Mary Tedder, at Glenwood yesterday. The girl was stabbed in sixty-five places.

The boy was formerly in a school of correction in Connecticut. The girl had been beaten about the face and dragged 100 yards from her bicycle before being stabbed.

The Sheriff got bloodhounds and followed a trail to the orange grove of William Woolen, where young Hantchett was employed. In his room were found bloody clothing and the knife with which it is believed the murder was committed. He strenuously denied that he had committed the crime.

As soon as it was known that Hantchett had been arrested on a strong chain of circumstantial evidence, excitement was intense. He was taken away in an automobile, probably to Jacksonville.

WAS IN REFORM SCHOOL.

[ASSOCIATED PRESS NIGHT REPORT.]

MERIDEN (Ct.) Feb. 13.—Irvin Hantchett, the boy arrested on a charge of murder at Deland, Fla., was an inmate of the Connecticut State School for Boys here. His home was in this city. When in the school the boy's behavior was of the best and his conduct earned his parole in the custody of William Wooley of this place, who has an orange grove in Florida.

LONDON'S LATEST.

"TORTURE BOOKS" AND TATTOO CRAZE IN SMART SOCIETY.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

LONDON, Jan. 15.—In the summer houses of the river mansions, in the drawing-room, in historic castles and great London houses and the Casinos of Continental resorts, both the chic young married woman and the "smart girl about town"—as the belle of the day is defined in London—have metaphorically speaking their "Torture Books" up their sleeves, so that they may be at hand when the opportunity comes to pounce on any interesting subject whom they wish to depict himself therein.

Torture books are for the moment the craze and the burden of society and it is a wary celebrity who can dodge the owners. The keenest rivalry exists between those who possess them as to the interest and the importance of the people who figure in their pages, and indeed many a friendship has been split because Mrs. Jones Smythe secured a portrait of Caruso by himself or some other celebrity before Lady Robinson had time to apply for it. There is usually a whole set of these torture volumes, five being the correct number. They are bound in everything from pasteboard to gold and silver. Now they are carved, again inset with jewels. The leaves are of satin, or vellum, or parchment. Possessors who love their needle make delicate art embroidery covers for them.

The most important book of the set is that in which the unhappy acquaintances of the owner are asked to draw blindfold, pictures of themselves. The fact that you never had a pencil in your hand in your life, is no excuse whatever for failure to comply with the request.

"I could not draw a straight line to save my life," was what the King said to Miss Shonts when she requested him to depict himself in her volume.

"Your Most Gracious Majesty," she replied, "that has nothing to do with the matter."

Much amused, the King called his nephew, Prince Arthur of Connaught, and deputed him to draw his own figure for the young lady. His Royal Highness said he could only accomplish this if Miss Shonts would promise to hold his disengaged hand while he sketched. Miss Shonts was not, it appears, agreeable, so the picture was not forthcoming. Princess Patricia of Connaught has drawn a first rate caricature of herself in Miss Shonts's volume.

A Confession Book is another of the torture series. In this the victim has to set forth the transgressions of his life.

Amateur tattooing is yet another amusement of the moment which has many votaries. Princess Pless and Countess Pappenheim, the pretty American who made such a success here during the season as a hostess, are two of those who have had lessons in tattooing from a professional expert. One day recently an advertisement appeared in the columns of a morning paper stating that an expert in tattooing was required to teach the members of a house party in Scotland during September, how to tattoo novel designs. A flying machine in sepia with Mephistopheles in his beloved red as aviator is one of the most approved designs. One woman who has arms like ivory has had this picture tattooed on the top of one shoulder. Thereby she has succeeded in attracting more attraction than she ever before managed to draw.

Prospective hostesses are thanking their stars that they have managed to find something to pass the time on Sundays when the men dare not shoot lest they shock those who go to church.

"One has to be so awfully careful, don't you know," said one great lady who entertained the Princess of Wales every year for a week-end during the country house season, "it is so very easy to set a bad example to the common herd. They will do what we do. Now we can all sit on that deadly day Sunday, within our own four walls and tattoo each other's arms. It will be such fun and one's neighbors need know nothing about it."

IRREGULARITY.

GRAFT WORKED BY DUPLICATES.

COLORADO BOILER INSPECTOR IS UNDER FIRE.

Woman Stenographer Makes Confession, Declaring That Extra Receipt Books Are Used by Officials for Eleven Years and State Has Lost $20,000 Annually.

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER, Feb. 13.—According to State Auditor Kenehan and Gov. Shafroth, graft which may have cost the State $20,000 a year has been unearthed in the office of Alexander E. P. Whitney, State Boiler Inspector.

The officials who conducted the investigation, which followed the protesting of an expense voucher, turned in by Whitney, claim that Whitney had three sets of receipt books, numbered in duplicate, and that he accounted to the State only for receipts issued from one book and put the funds received from the issue of receipts from the other two books into his own pocket.

It is estimated that there are 5000 boilers in the State, which should yield the State $25,000 each year. The amount turned into the State last year is little more than $5000.

The system said to have been used by Whitney was exposed by the confession of Mrs. Ada R. Tibbits, a stenographer employed in the Boiler Inspector's office. She says similar graft has been going on for eleven years.

Boilers in Denver are exempt from inspection by the State Inspector, but Whitney admits having examined boilers in Denver and giving State certificates of inspection to the owners, and kept the inspection fee himself.

Whitney will have a hearing before Gov. Shafroth tomorrow.

MACKAY IS OPTIMISTIC.

President of Postal Telegraph Says He Sees No Cause for Business Alarm.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 13.—Clarence H. Mackey, president of the Postal Telegraph and Commercial Cable companies, returned today from his regular inspection tour through the south.

"If the telegraph business is a barometer," he said, "the South has lost none of the impetus that began before and continued in a modified degree through the panic.

"Pending decisions by the Supreme Court may be, and doubtless are, important. Proposed legislation in Congress may or may not be enacted, but what of it. Properties are not going to be confiscated and the country is not going to smash.

"It may, and doubtless will, take some time to adjust legislation to meet the requirements of changing conditions, but that is no reason why business men should get scared and sit like bumps on a log until all questions are finally and definitely settled.

"If the heads of big concerns show the white feather, the thousands of business men engaged in lesser affairs will be disheartened, naturally, and a period of common apathy will set in without rhyme or reason.

"Such a policy is not only nonsensical but wrong. At least, that is my opinion, and our companies are going to act accordingly. We are not to be swerved from our original determination to provide additional facilities that we foresee are going to be required."

SLOW STRANGULATION.

CUSTOMHOUSE ESTRADA'S AIM.

REVOLUTIONISTS WOULD STOP ZELAYA'S REVENUE.

Insurgent Leader Plans to Surprise the Small Nicaraguan Garrison at Corinto Seize the Port and Hold It Until Poverty Causes Enemy to Surrender.

[BY DIRECT WIRE TO THE TIMES.]

PANAMA CITY, Feb. 13.—[Exclusive Dispatch.] Nicaragua insurgents have a plan of campaign as follows:

To harry the front of the Madriz troops by making frequent attacks, while the main revolutionist army in flying column, makes a forced march north of the Cordilleras, screening the movement with cavalry.

The intention is to surprise the small government garrison at Corinto, capture the customhouse there and throw up entrenchments.

If the revolutionists can seize and hold that customhouse they will be collecting the customs revenues on both the east and west coasts of Nicaragua, as they already have the revenues from eastern ports. Then they need only await the slow strangulation of the Madriz government through lack of money to carry on the war.

It is asserted that Gen. Estrada has the greatest apprehension that President Madriz may apply to Washington for intervention by the United States government, thus destroying all the insurgents' hopes.

WORDS THEIR WEAPONS.

RING BOUT TAME IN COMPARISON.

NATIONAL PRESS CLUB PLANS GRIM BATTLE.

Cannon and La Follette, Pinchot and Prof. Moore, Champ Clark and Dr. Wiley to Speak Ten Minutes on Same Platform on "Subjects Nearest to Heart."

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 13.—[Exclusive Dispatch.] The National Press Club is planning an event for next Tuesday evening which, by comparison, is likely to make the Jeffries-Johnson prize fight seem as tame as a tiddledewinks tournament in a theological seminary.

It proposed to put Speaker Cannon and Senator La Follette, former Chief Forester Pinchot and Prof. Willis L. Moore, chief of the Weather Bureau, and Representative Champ Clark, leader of the minority party in the House, and Dr. W. H. Wiley, chief chemist of the Department of Agriculture, on the same platform to talk against each other in ten-minute rounds on the "subjects nearest and dearest to their hearts."

Washingtonians are looking for something that will rival the Massacre of St. Bartholomew's day.

At the end of the ten minutes each speaker is to have to put his hobby through its paces and the referee will call time by beating the top of an anvil to pieces with a hammer. The anvil and hammer are brought into the mêlée scene as a delicate touch of symbolism that is thought singularly suitable to the occasion.

Senator La Follette, of course, will talk about the insurgents in Congress. They are, par excellence, the thing "nearest and dearest" to his heart.

The rules of the House of Representatives undoubtedly will be Speaker Cannon's topic. They are his life work.

Constipation Munyon's Paw-Paw Pills

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening, they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

OREGON EDUCATOR UNORTHODOX

Prof. Howe Not Permitted to Speak in Y. M. C. A. When His Views Are Learned.

[BY DIRECT WIRE TO THE TIMES.]

EUGENE (Or.) Feb. 13.—[Exclusive Dispatch.] After having been first invited by the University Y.M.C.A. to address it on his conception of the mission of Christ and then having the invitation withdrawn because it was declared his ideas were not in accord with the orthodox beliefs of the evangelical churches, Prof. Herbert Crombie Howe, dean of English literature of the University of Oregon, delivered his address tonight in the Eugene Unitarian Church to a congregation which included many students.

"If Christ was not a man, as we are, then God who was His father is not our father in the same sense," was one of the unorthodox utterances made by Prof. Howe in the course of his address tonight.

SENSIBLE SUGGESTIONS

Of Interest to Kidney, Backache and Bladder Sufferers — Prescription Given Which Ends Misery, Restores Out-of-Order Kidneys and Brings Back the Glow of Health.

A very sensible suggestion, and one which is being more and more adopted, was recently made by the eminent Dr. Lewis Baker, formerly physician and surgeon with The British Medical Institute. He said that many simple prescriptions should be published or printed in the newspapers, so that the public could use them when needed, instead of buying the much advertised patent medicines, all of which are not good for the general public. For instance, the following simple and inexpensive mixture can be made at home or mixed by any well stocked druggist, and it is a boon and blessing to anyone afflicted in any way with kidney and bladder troubles. Mix, fluid extract buchu 1 oz., compound fluid balmwort 1 oz., and compound syrup sarsaparilla, 4 ozs. Shake well and take a teaspoonful before or after meals and one when retiring. Quickly restores and stops all such symptoms as: Deranged kidneys and bladder are indicated by dry parched skin, hot and cold sensations, frequent burning or scanty urination, (especially at night), with bad odor, tender spots in back, loss of weight, morning weariness, swollen feet and ankles, backache, inflamed eyes, etc.

Bankrupt Stock of Japanese Silk Goods

By request of the YOKOHAMA SPECIE BANK of San Francisco, creditors of

"The Komono House"

237 Geary Street, San Francisco, Bankrupt. We have bought all their new spring silk goods, imported lately, and held by above bank.

"THE KIMONO HOUSE" was the best Japanese Dry Goods Store on the Coast. They were unfortunately forced to bankruptcy by the failures of the JAPANESE-AMERICAN BANK and JAPANESE BANK OF SACRAMENTO. They were the biggest stockholders of these banks.

Every piece of these goods is the best in quality, design and style. They were proud of the fact that all goods they handled were made from their own designs and in their own factory in Yokohama, Japan.

Our purchasing price was near

60c on the Dollar

and we will dispose of them with a small profit, as the lot is too large for us and we must sell them down to a certain quantity. We sincerely want you to see Japanese silk goods in all other stores in this city before you come in our store, as we want you to realize the quality and prices of this bankrupt stock of "THE FAMOUS KIMONO HOUSE."

WE ONLY DO BUSINESS ON AN ENTIRELY RESPONSIBLE BASIS.

The Bankrupt Goods are as follows:

Embroidered Silk and Silk Crepe Komonos
Embroidered Silk and Silk Crepe Mandarin Coats
Embroidered Silk Gowns Embroidered Silk Jackets
IN ANY SIZE AND IN ANY COLOR.

Our New Shipments of Pongee Silks Have Arrived
SAMPLES WILL BE SENT ON REQUEST.

DIN OF HORNS.

GRAND AVENUE RINK AUTO SHOW LIGHTS TURNED OUT.

THE Automobile Show of Southern California closed last night. More than $200,000 worth of 1910 automobiles were sold, and every dealer and exhibitor at the show is satisfied. No sales were made yesterday, the visitors being content to take a last look at the handsome machines grouped on the floor.

This Grand avenue rink show, which Walter Hempel staged so successfully, has given the public a taste of what the licensed show is to be. That the public is intensely inetrested in the automobile was seen from the throngs which visited the rink every night.

There was not an exhibit at the rink that attracted more attention than the one made by the Welch Motor Car Company. Just one big handsome seven-passenger car made the showing for the company, but it was enough. The car is sold, but it was examined by thousands, who expressed their appreciation of the machine Messrs. Blin and Kinehan are handling.

The Welch was shown in the big four-cylinder type, which has a world of power. The hood is full of engine. The valves are in the head of the cylinders, but the motor is noiseless, and has all the snap and ginger of such motors. The car is certain to make a hit.

The Fal car also attracted considerable attention. The exhibit in the corner of the rink always had a number of visitors and Fred Cornell, the agent, was kept busy explaining the fine points of the car.

The Sterling was another booth which claimed the attention of thousands. The racing car, which Bruno Siebel is to drive, was the center of the attractive display. This car is to be seen in action at Ascot Park.

William P. Bosbyshell, besides winning the contest for the most popular man at the show sold a number of cars. His booth was near the entrance and the genial Dorris agent had the first chance at the crowds. With his partner he always made good.

The electric display was splendid. The silent and handsome cars claimed merited attention and a number of sales were recorded.

The Stanley steamer display proved a winner and cars were sold right off the floor. There was also something doing every minute at the Lane steamer booth, where the new cars were shown for the first time, proved particularly attractive.

Charley Yeager, agent for the Paterson "Thirty," the Westcott "Forty" and the Whiting "Twenty" had no time to do anything but show cars. He has a number of sales to report. His Paterson "Thirty" was the center of his display and this car is making a decided hit.

The Paterson was shown in the touring car model. The handsome machine has made good and is already popular though comparatively a newcomer. The Paterson is housed with the Pico Carriage and Auto Company, but Yeager is planning to secure larger quarters at once. Paul Derkum has been employed by Yeager to sell Paterson cars and is making his usual number of records.

Though Manager Hempel had ordered the reeds taken from every automobile horn, somehow the din at closing time last night was greater than ever before. Long before 11 o'clock, the closing time, arrived the sirens were turned loose and the horns held sway as the 1910 automobile show of Southern California came to a close.

PROGRESSING.

GARBUTT ELECTED PRESIDENT OF LOS ANGELES MOTORDROME.

FRANK A. GARBUTT was elected president of the Los Angeles Motordrome Company at a meeting of the directors in a private car on a trip from Los Angeles to the motordrome at Playa del Rey, Friday afternoon.

F. E. Moskovics, who formed the company, and is conducting the project, was chosen vice-president and treasurer; H. G. Feraud, secretary, and R. A. Rowan, Henry Keller, Fred Flint and Harry Lombard, directors.

All the men but Moskovics are well known in Los Angeles. Moskovics comes from New York, and is conducting the project. He and Jack Prince, who devised the circular board track scheme, have put their own money into the deal, and expect to show that the idea is not only feasible, but will revolutionize motor racing.

About one-quarter of the track is up, although the finishing touches are not on. The timbers are rising all over the circuit, and the motordrome is taking on the appearance of an immense affair. It is believed that the structure is being built scientifically as far as engineering details go.

Located at a point where it is possible to bring great crowds from Los Angeles and other points, the Los Angeles Motordrome is being built to accommodate from 50,000 to 100,000 persons. The opening on April 7 is to be one of the notable events in local motoring circles.

All the prominent drivers now before the public are anxious to come to Los Angeles for the April meet. It is possible that Oldfield and De Palma will be the star attraction. The track is to be one mile long and the only circular mile track in the world.

Designer Jack Prince claims that a mile will be made on the track in less than 40 seconds. Moskovics, who is even more enthusiastic, has made several bets that miles will be made in less than 39 seconds, and he says he has more money ready to back up his opinion.

Motor racing has reached a stage where the records are hard to break on a dirt track. On the circular mile track Prince says all existing records will be smashed, as the cars can make terrific speed.

DESERT FLYING.

HAMILTON IN FAST FLIGHTS.

CURTISS AVIATOR WINS RACE AGAINST MOTORCYCLE.

Willard Makes Cross-Country Flight Over Sands at Phoenix. Small Crowd Attends Extra Day's Aviation Exhibitions Which Are Best of Entire Meet.

[ASSOCIATED PRESS NIGHT REPORT.]

PHOENIX, Feb. 13.—Due to a short announcement and objection to a Sunday show, the attendance at the extra day of the aviation meet was not large, but the exhibition was the best of the four days. No flyer ever saw better weather four days in succession.

Hamilton and Willard were in the air simultaneously, the former 7m. 10s. and the latter 8m. 30s. The five-mile race between Hamilton and a Studebaker auto was won by the auto. Its time was 6m. 33 2-5s. and for the biplane 8m. 44⅕s. As the latter had a handicap advantage of ten seconds it lost the race by four-fifths of a second.

Willard made his longest cross-country flight here and the best one of the meet in 9m. 45s., though Hamilton has been in the air longer than that every day.

Hamilton's finest stunt today was to circle the course seven times, a Curtiss motorcycle being entered against him for two miles in the second and third laps this being the first planecycle contest recorded.

After the time on the race was taken the cycle continued two laps and the plane four laps. While the cycle was making its four laps, the biplane made five. The time on two laps comprising the race was: Biplane 2m. 47s.; motorcycle 3m. 16 1-5s. On the seventh lap Hamilton rose high in the air over the home stretch on the race track, and stopping his engine, dropped with a beautiful glide to the ground directly in front of the grand stand.

WATER POLO GAME.

Y.M.C.A. Team to Go Against Bimini Aggregation in Contest Next Friday Night.

The Y.M.C.A. water polo team has scheduled a game with a team representing Bimini for next Friday evening. The association team was organized last fall, and has given several good exhibition contests against the second team, but has hitherto found difficulty in securing games with a formidable opponent. In the Bimini team an opposition will be developed that should lead to a good contest.

Swimming races for the Southern California championships will be held in the big aquatic tournament planned for the week beginning February 22 at Bimini. A new feature of the tournament will be a contest for swimmers of grammar school grades, who have never figured in previous races.

New Umpire Chosen.

CHICAGO, Feb. 12.—President T. N. Chivington of the American Association, completed his 1910 staff of umpires today when he signed Gerald Hayes. The others are Owens, Bierhalter, Guthrie, Van Sickle, Cusack, Cahill and Ferguson.

SANTA BARBARA SOCCER.

Thistles Defeat Rangers by Close Score in Most Exciting Game of the Season.

SANTA BARBARA, Feb. 13.—The Thistle soccer team defeated the Ranger eleven by a single point in a hard-fought exhibition game played between the two Los Angeles teams here this afternoon. The final score was 3 to 2 in favor of the Thistles.

The Rangers wanted to break through the string of victories that the Thistles have been winding up lately, and sent their strongest team into the game. They were able to hold the blue eleven nearly even but could not quite pull through to a victory. The game was about the best played in Southern California this winter.

For the Thistles Watts did exceptionally good work, scoring all three tallies made by the team. The whole forward line played well, the chief reason for the Thistle victory being in this team play. The Rangers did more brilliant individual playing than the Thistles, but were unable to get past the blue defense for the necessary tallies. Archie Mitchell scored one goal for the Rangers, and Lincoln made the other.

WOMEN'S GOLF PLAY.

Sixth Annual Coronado Tournament to Start Today With Three Champions in List.

Play in the sixth annual golf tournament for the Coronado women's championship is to begin this morning. The qualifying round is to be played over the 18-hole course, eight to qualify. The winner of the tournament is to receive a silver replica of the trophy, which must be won three times to become the property of any player.

Miss Isabelle Smith of Chicago, who won the tourney last year, is here again, and is picked as the most probable winner. Mrs. George Sturges, who got one leg on the cup in the 1908 contest, is also entered and may upset the calculations of the Chicago star. Mrs. Herbert Munn of Coronado, the winner in 1907, is also a contestant.

The entries are Miss Ada Smith, San Diego; Mrs. F. S. Sherman Coronado; Miss Isabelle Smith, Chicago; Mrs. Theodore D. Hewitt, San Diego; Mrs. E. R. Williams, Chicago; Mrs. George Sturges, Coronado; Mrs. Heber Ingles, San Diego; Mrs. Herbert Munn, Coronado; Mrs. F. S. Jackson, San Diego.

New Tennis Organization.

NEW YORK, Feb. 13.—A new lawn tennis organization of national scope, to be known as the American Association of Clay Court Players, has been formed to take control of that branch of the sport, according to the announcement by Dr. P. B. Hawk of the University of Illinois, president of the new association. The Executive Committee will be composed of representatives in all States and Territories.

Travis Defeated.

PINEHURST (N. C.) Feb. 12.—Walter G. Travis, former national golf champion, was defeated today 3 up and 2 to play, in the semi-finals of the Valentine golf tournament by P. W. Perrin of the Merion Cricket Club, Philadelphia. Perrin won the finals from Henry C. Fownes of the Oakmont club, Pittsburgh.

CUSTOMARY.

JOHNNY KLING AFTER MONEY.

Catcher to Sue Commission If Not Reinstated.

Hermann and Murphy Prepare to Take Water.

National League Magnates to Meet Tuesday.

[BY DIRECT WIRE TO THE TIMES.]

CINCINNATI, Feb. 13.—[Exclusive Dispatch.] The National Commission must choose between either reinstatement of Catcher Johnny Kling of the Cubs or of facing a court and telling why they keep him out of employment which would net him $40,000 for four years.

Kling has sent the word here by an indirect route that he must either be installed or that suit against the three members of the commision will result. He has made no threats, but he has let Chairman Herrmann of the commission know what to expect in case that body rules adversely upon his application for reinstatement.

Several lawyers in Kansas City, Chicago and New York have been busy on this matter for several weeks and have written and told Kling that he will have a plain case against Messrs. Herrmann, Johnson and Lynch if they refuse. The case can be based, they say, on the "breach of contract" statute and it can be shown, according to them, that the National Commission is only a deciding jury when the members of the league are willing that it should be.

It is believed here, however, that Kling will never have cause to go into the civil courts with his case, inasmuch as Herrmann and Murphy have come to an understanding regarding his case.

MAGNATES GO EAST.

All the western magnates started today for New York City, where the board of directors of the National League will gather Tuesday morning to settle several matters of importance. President Murphy left late last night, accompanied by President Stanley Robinson of St. Louis. This afternoon, Presidents Herrmann and Dreyfuss left Cincinnati and will reach New York early tomorrow morning. Dreyfuss came here last evening to see Herrmann and to go to New York with the Red's president. Just before he left Cincinnati, President Herrmann said: "There is no reason that I can think of now why Catcher Kling cannot be reinstated. Of course, this matter will have to be settled when the National Commission meets. But, just the same, why should this valuable player be barred when others have been reinstated?

"We are having the whole matter gone over by one of the experts employed by the National Commission. He has not yet made his report but it will be made within a few weeks and will give Kling, in case he is reinstated, time to get to West Baden for the spring practice."

MAY HELP MURRAY.

LEADERS CONSIDER HIM.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 13.—The board of directors of the National League will hold a special meeting at the Waldorf-Astoria tomorrow to pass on the contract of William J. Murray with the Philadelphia club, and on the claim of the New York club against the Philadelphia club for the forfeiture of a game at the Polo Grounds last year.

Murray has a two years' contract with the Philadelphia club as manager, at a salary of $7500 each season, but the new owners, it is alleged, will not allow him to carry it out.

FOLSOM WINS AGAIN.

Mischief Takes Concluding Race in Winter Series for One-Design Dory Contests.

The Little Mischief II, sailed by Walter Folsom, won first honors in the second series of one-design dory races of the South Coast Yacht Club of San Pedro Harbor yesterday afternoon, by taking two straight firsts from the "Merrily," her only competitor.

With the two victories yesterday the Little Mischief II scored a total of six wins, making further sailing unnecessary, as the series is only ten. Warren Wood won two races with the Merrily, and hoped to pull up on the Mischief yesterday, but lost out. Only eight races have eben sailed.

The first series of the winter went to the Merrily in straight wins, the Mischief dropping out before the series was finished. Six races were enough to settle the series. Wood had everything his own way. Walter Folsom decided to get even in the second series, and after eight closely contested races has evened matters up.

With the end of the dory racing, winter boating at San Pedro will practically stop, as the larger yachts are still in winter quarters. As soon as the rains are over the larger vessels will be put into commission again, and tuned up for the big races of the summer.

PRISON BOOKS MUDDLED.

Gross Incompetency Shown by Report of Accountants Investigating Texas Penitentiary.

[BY DIRECT WIRE TO THE TIMES.]

AUSTIN (Tex.) Feb. 13.—[Exclusive Dispatch.] The Penitentiary Investigation Committee has received the report of the expert accountants who were appointed to investigate the books of the State penitentiary system.

It shows that the books have been kept in an incompetent and inaccurate way for many years. No charges of willful corruption are made. For the period of thirty months succeeding September 1, 1904, it was necessary for the accountants to create a set of books reflecting the fiscal status of the institution, as the person in charge of the books at the time failed to record supplies and materials aggregating approximately $500,000. To effect a proper accounting of the money disbursed the auditors had to find the original invoices and in the search consumed about two months of the time spent on the audit.

Padded biennial reports, false entries to show a condition of funds at variance with the facts and the inadequacy of the present system of books, as far as reflecting on the actual financial status of the institution, are among the more important revelations of the report, indicative of the utter incompetency of the methods of book-keeping to which the accounting department has adhered.

FINE TEAM WORK.

Good Turnout of Revolver Experts at Outdoor Range in Practice Shoot Yesterday.

There was a fair attendance at the outdoor practice shoot of the Los Angeles Revolver Club at the Bishop-street range yesterday and excellent scores were made with both pistol and revolver.

Fraser, Schrader and A. B. Douglas did fine work with the single shot hand gun while Thaxter and Siefert held up their end of the game with the .38 six-shooter.

A team contest was held, Fraser, Schroeder, Packard, Siefert, Richardson and W. E. Smith shooting against A. B. Douglas, Thaxter, Holcomb, Wright, A. M. Smith and Hubbs. The former team won by a margin of thirty-seven points. The scores were:

TEAM SHOOT.

Name—	Weapon.	1	2	Tot.
R. J. Fraser	(22 pistol)	92	85	177
Carl Schroeder	(22 pistol)	84	92	180
Dr. L. M. Packard	(22 pistol)	88	82	170
J. W. Siefert	(38 revolver)	89	87	176
E. G. Richardson	(38 revolver)	76	79	155
W. S. Smith	(45 revolver)	80	84	164
Team total				1,022

Name—	Weapon.	1	2	Tot.
A. B. Douglas	(22 pistol)	85	92	177
H. D. Thaxter	(38 revolver)	82	91	173
J. E. Holcomb	(22 pistol)	80	77	157
Will A. Wright	(22 revolver)	81	69	153
A. M. Smith	(38 revolver)	80	77	157
C. B. Hubbs	(22 pistol)	88	81	169
Team total				993

The 50-yard pistol scores were:

R. J. Fraser, 90, 93, 92, 88, 89; J. E. Holcomb, 86, 87, 90, 84, 85, 91; Dr. Packard, 86, 85, 85; A. B. Douglas, 93; Carl Schroder, 88.

The 50-yard revolver scores were as follows:

E. G. Richardson, 80, 79, 84, 73, 88, 85; J. W. Siefert, 81, 86, 90, 84; H. D. Thaxter, 87.

GLENDALE SCORES.

LISTLESS SHOOTING.

A half-dozen members of the Los Angeles Rifle and Revolver Club shot on the Glendale range yesterday at 200, 300 and 500 yards, poor scores and listless work featuring the gun fest. The scores were:

Name—	200	300	500
C. F. Nichols	38	39	38
	40		47
L. Watkyns	41	41	
E. C. Crossman	39	43	40
	40		
H. C. Miles	35	38	41

MORE FOOT RACING.

Seven Runners Are to Start in New York Tonight in Struggle of Fifteen Miles.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 13.—Professional foot racing will be revived at Madison Square Garden tomorrow night, when seven crack long distance men will toe the mark in a fifteen-mile struggle.

The starters will be Hans Holmer, Quebec; Fred Meadows, Guelph, Ont.; Paul Acoon, Grenfels, Sask.; Jim Crowley, Ireland; Gustav L. Jungstrum, Sweden; Percy Sallen, Toronto, and Charles Muller, New York.

New Running Records.

JOHANNESBURG, Feb. 13.—Donaldson, South African runner, yesterday broke the world's professional record for 1-0 yards, defeating Arthur Postle, world's professional champion of Australia, and C. Holway, American, in 9 3-5 seconds. Donaldson won by two and one-half yards.

Weston Still Busy.

PHOENIX, Feb. 13.—[Exclusive Dispatch.] Weston rested today at Seligman and will make Ash Fork tomorrow afternoon and possibly Williams in the evening, although the last leg of the twenty-three miles is up a heavy grade. The weather is exceptionally fine. He intends taking in the Grand Canon from Williams, a side trip of sixty-four miles over a comparatively easy country.

KRAMER IN FRONT.

Crack Bicycle Rider Sprints Away from Others in Race to Decide Six-Day Winner.

[ASSOCIATED PRESS NIGHT REPORT.]

NEWARK (N. J.) Feb. 13.—Frank Kramer of the Kramer-Fenn team, won the mile sprint to settle the tie between the five teams to determine the winner of the ten-hour-a-day six-day bicycle race that was finished here last night. Percy Lawrence of the Lawrence-Wiley team, gave Kramer a hard fight and finished a scant length behind. James F. Moran of the Moran-Lawson team was third; John Bedell of the Bedell-Bedell team, fourth, and Pat Hehir of the Hehir-Pye team, fifth. The leaders scored 1328 miles 7 laps in the sixty hours of racing.

The time between the second division teams for sixth, seventh, eighth and ninth places, was run first. West rods for West and Galvin; Bardell for Cummins and Bardell; Ruprecht for Ruprecht and Mitten, and Krebs for Krebs and Anderson. Krebs took the lead at the first and led all the way, defeating Bardell by a length. West was third. Tommy Smith and Ben Hill finished two lengths behind the leaders.

BIKE CONTESTS.

BRUSSELS GETS DATES.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Feb. 13.—Championship contests have been arranged by the International Cyclists Union, now in annual session here, for July 17, 21 and 24, in Brussels. The 1911 championships will be held in Turin.

The congress rejected the proposition of the American delegates that cyclists be authorized to appeal to the International Union, in cases where national bodies refuse licenses.

CHURCH ACCEPTED.

One at Redondo Beach Is Formally Received Into Los Angeles Baptist Association.

REDONDO BEACH, Feb. 13.—The Los Angeles Baptist Association met yesterday in the Masonic Hall for the purpose of accepting the newly-organized church of this place.

Among the visiting ministers and laymen were Rev. H. Russel Greaves, secretary of the Southern California Baptist convention; Rev. J. Louis Smith, Long Beach; Rev. R. D. Fisher, Earl T. Davis, Monrovia; Rev. Buxton Ross, A. S. Blackburn, Alhambra; Rev. and Mrs. George Taylor, Sawtelle; Mr. and Mrs. J. E. Eckles, Gardena; Mrs. F. H. Mullen, Gardena; Rev. John D. Smithers, Los Angeles; Rev. J. W. Epperly, Gardena.

A recognition service was held last evening, when the new church was formally welcomed. A fish dinner was served to the visitors at 6:30 o'clock.

The last details of costuming and the perfecting of specialties are keeping busy Manager A. L. Walton and other members of the home talent minstrels company, that will give the Chamber of Commerce benefit performance, Wednesday evening.

A dinner party was given last evening at 6:30 o'clock at the Dolphin by C. H. Burnett for Miss Hawkins of Chicago, who is visiting Mr. and Mrs. Joseph Ball at their home in Clifton.

Covers were also laid for Mr. and Mrs. Fielding J. Stilson, Mr. and Mrs. Wellington Clark, Miss Winder, W. Kay Crawford, Neal Brown and Philo Lindley, all of Los Angeles.

COVINA.

COVINA, Feb. 13.—Dr. Matt Hughes, pastor of the First Methodist Episcopal Church, Pasadena, was the speaker this afternoon at the third of a series of Sunday afternoon services given under the auspices of the Chamber of Commerce. His theme was "The Finality of Christ," and his eloquence so stirred the large audience that again and again it applauded. He was introduced by Rev. Henry W. White, pastor of the Covina Methodist Episcopal Church. The music furnished by a choir of sixty voices was under the direction of Prof. R. W. Groom.

If troubled with indigestion, constipation, no appetite or feel bilious, give Chamberlain's Stomach and Liver Tablets a trial and you will be pleased with the result. These tablets invigorate the stomach and liver and strengthen the digestion.—[Adv.

TCHEL AND LAUS AGREE.

Weights Are to Clash Early in March.

Men Is to Make English Weight Limit.

Men Expected to Sign Articles Today.

[SPECIAL WIRE TO THE TIMES.]

CHICAGO, Feb. 12.—[Exclusive Dispatch.] All doubt concerning the bout between Champion Stanley Ketchel and Frank Klaus of East Chicago has been dispelled. Ketchel has agreed to the weight exactions of Klaus and the match will be pulled off.

Articles stipulate that Ketchel must weigh 160 at 4 o'clock. Each fighter as well as the National Athletic club will post a forfeit of $500 with the stakeholder, this forfeit to bind each man to the match to fulfill every condition made. The exact date for the fight has not yet been decided upon, but the fighters must agree to fight on March 10 or 11.

Representatives of the National will confer with Frank Klaus and his manager Jack Engel, tomorrow, when they will attach his signature to the articles. A copy of the articles has been sent to Ketchel and it will be duly signed and returned to Pittsburg.

FINAL TRAINING.

KLAUS SHOWS WELL.

Several hundred of fight bugs attended the workouts of Lew Powell and Frankie Conley yesterday to get a line on the abilities of the two lightweights who are to meet at McCarey's pavilion tonight to determine which is entitled to take on the winner in the Wolgast fight.

Lew Powell boxed, wrestled, punched the bags and did all the rest of the stunts of the modern fighter and he was proudly cheered by the bugs who filled all the seats at Doyle's camp. He did two rounds with Young Seymour, three with Sailor Hanson and three with Curley O'Connell. He is down to the required weight and will be stronger than when he fought Wolgast. He made a very good impression with his clever footwork and his left jabbing and he will carry much of the coin bet on the outcome.

Memsic plodded along in his earnest way at Eastside, doing his regulation work before a big crowd of fight followers. He boxed six rounds with Chick Duffy and weighed 133 pounds after his workout. He will do a little road work this morning and that will end his preparation for the contest. Memsic has been going along so well of late that the Eastside fans are expecting to see him repeat his successes and do up the representative of the North.

The full card is as follows:

Lew Powell and George Memsic, ten rounds, 133 pounds at 6 o'clock; Frankie Sullivan and Curley O'Connell, ten rounds, 122 pounds at 3 o'clock; Bubbles Robinson and Joe Livermore, six rounds, about 128 pounds; Frank Roman and Bert James, four rounds, 132 pounds; Harry Curland and Danny Ruiz, four rounds, 118 pounds.

Curley O'Connell is training at Doyle's and is in good shape for his contest with Sullivan. When O'Connell met Danny Webster the youngster was suffering from indigestion, but since that time he has become cured of the ailment and his fast work yesterday showed that he should do much better than before. Frank Sullivan is doing his work at the Downey-avenue gym and will be fit and able to put up his best battle tomorrow evening. Sullivan expects to repeat his work of the former meeting except that he hopes to gain the knockout instead of being the one floored.

Bubbles Robinson and Joe Livermore should put up a good scrap over the six-round route. Both are willing fighters and there is little to choose between them at any points of the game. The four-round bouts are between beginners who have tried out successfully at the pavilion.

Frankie Conley went to work at Doyle's yesterday on his preparation for his fight with Monte Attell which is scheduled for Vernon arena February 22 over the 45-round course. Conley is full of confidence and has gone about his training in a way that shows he will be in the best shape to combat for the bantamweight championship. Attell will be in Los Angeles Wednesday and will probably train at Eastside.

WORTH A VISIT.

NDERFUL GAME SECTION IN NORTHERN ARIZONA.

Deer, bear, turkey, antelope, mountain lion, bob lynx, timber coyotes, coyotes, beaver, fox, quail, geese, trout, rabbits, edible fish of a variety of wild plants, which are very toothsome, are found in a district less than 500 miles from Los Angeles. This favored district of North Arizona.

The whole strip of country was known to the few trappers, miners, cattlemen travelers of the old stage road, and some of these had established small farms were thoroughly annoyed by the inroads of the Apaches. Now they are forgotten. Even the Indians, and the country remains the same unknown wilderness condition as before the coming of the white man.

It is said that every bungling hunter can kill all the game he wants, at least see plenty of it. The hunting ground where deer are found in bunches of twenty and more and also antelope; where there is every few days and where bear and wolf stand out on every hill. There still remain plenty of beaver on the Carrizo mountain and along the banks of Clear Creek. The wild turkey is numerous and feed on the mountain berries and pine nuts. Here the bear congregate where acorn is as plentiful as the acorn is with the squirrel a favorite article of food. The best hunting lies within the limits of the Sitgreaves National Forest, but the reservation abounds in game. There are many fine trout streams, game in the White mountains is not so plentiful as the hunter had one to believe, but there are far better for the Apaches are supernatural swimming bear and fish, within reach of them believe have been entered, but other parts of the White Mountains. The stage road, now almost abandoned by time and the elements, runs directly through the scene of many a thrilling country. The country finds old weather-beaten United States ammunition boxes scattered carelessly to some forgotten fight with the Apaches and soldiers.

The top of the Black Mesa affords a view equal to the Grand Canyon about ninety miles distant. Rim drops 3000 feet and unintercepted for hundreds of miles. The strangely inaccurate map of the district of North Central Arizona, entirely missing important features of considerable altitude of an altitude of 10,000 feet. The most interesting of this country lies between the San Francisco Peaks, which is a belt of timber one hundred miles wide by one hundred miles eastward, and takes in the Mogollon Mountains, and the White Mountains.

The country covered with great pine trees, the carpets of grass and bunch grass of dense undergrowth, the immensity of vast distances and clear atmosphere, make a few charming features. In this portion of the country the innumerable streams which form the tributaries of the Colorado, which flow into the Gulf of Lower California on the other side of the Mogollon Rim, the variety and variety of fish in Oregon, and the streams which form the waters finally empty into the Colorado, which flow into the Gulf of Lower California.

WRIGHT TO BOSS THE FLIGHTS.

Dayton Aviator Agrees to Take Charge of Meet at Ohio Valley Exposition.

[BY DIRECT WIRE TO THE TIMES.]

CINCINNATI (O.) Feb. 13.—[Exclusive Dispatch.] An arrangement has just been completed whereby Orville Wright, the aviator, will have charge of the aeroplanes of Ohio Valley Exposition which will be held in Cincinnati next fall. P. Lincoln Mitchell returned today from Dayton, where he met the aerial inventor and secured his promise to come and take charge of that part of the exposition.

Mr. Wright told Mr. Mitchell that he would make no personal flights but that he would come and direct the maneuvers. He says he thinks he can secure the presence of five or six of the world's leading aeronauts and that a meet can be arranged for Cincinnati which will eclipse anything ever held in this country.

TROUBLE GETS SEAMAN WIFE.

Steamer Captain Reads of Woman's Suffering, Investigates and Now Two Hearts Are Happy.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 13.—[Exclusive Dispatch.] Capt. Marcus O. Robbins of the Iron King, now lying at Pier No. 37, Brooklyn, was sitting in his cabin reading the World of January 17, when his eye ran over the pathetic account of how Mrs. Mamie Reid of No. 69 Navy street, driven desperate by hunger and poverty, had offered her baby for adoption.

From unhappy marital experience he was a confirmed woman-hater, but his heart was softened. He wrote to the little mother, followed his letter in person, and the two will be married some day this week.

"I wrote to Mrs. Reid inclosing nearly all my ready cash. She wrote me such a pretty little answer that I went down to ask how I could help out. Right away I calculated that there was a good little girl in the world—Mrs. Reid.

"Well, we are going to be married and we'll live in a pretty little home of our own. We are both going to begin life all over again."

AT IT AGAIN.

LATONIA RACE-COURSE ALIVE.

Tilles Secures Control of Once Famous Track.

Paris-Mutuel Gambling System Will Be Put on.

New Owner Intends to Make Many Improvements.

[ASSOCIATED PRESS NIGHT REPORT.]

CINCINNATI, Feb. 13.—The sale of the Latonia race track property by the owners of a controlling interest was officially announced today. Capt. C. A. Tilles of St. Louis, well known in turf circles, becomes the new owner by the purchase of the interests heretofore held by George B. Cox of Cincinnati, Congressman Joseph R. Hinck, Harvey Ayers and others of Covington, Ky.

It is understood that Capt. Tilles has obtained 90 per cent. of the stock and that he proposes extensive improvements.

The Court of Appeals having finally settled the litigation over bookmaking, it is announced that the Latonia authorities, at the coming spring meeting, will acquiesce in the use of the paris mutual system used on other Kentucky tracks.

Capt. Tilles formerly was at the head of what was known as the Cella-Adler-Tilles racing syndicate. The purchase price was not made public.

JUAREZ STRUGGLES.

FINISH IN TWO WEEKS.

[ASSOCIATED PRESS NIGHT REPORT.]

JUAREZ, Feb. 13.—Tiflis proved a big surprise today, when she won the fourth race by half a length. Col. Winn announced today that the meeting here will close on February 27. Summary:

Six furlongs: Alarmed, 108 (J. Wilson,) won; Judith Page, 101 (Goose,) second; Deer Foot, 101, (Rice,) third; time, 1:14.

Six furlongs: Deuce, 106 (Austin,) won; Succeed, 96 (Hoffman,) second; Myrtle Dixon, 106 (Molesworth,) third; time, 1:13.

Six furlongs: Luke Cates, 110 (Molesworth,) won; Kathryn Scott, 106 (Rice,) second; Camera, 105 (Creecy,) third; time, 1:13 4-5.

Seven furlongs: Tiflis, 101 (Smith,) won; Plume, 102 (J. Ilson,) second; Billy Taylor, 109 (McCahey, third; time, 1:27.

Six furlongs: Lykers 110, (Molesworth,) won; Kopek, 108 (Rice,) second; Joe Parish, 115 (Louder,) third; time, 1:13 1-5.

Mile: Fantastic, 108 (Garner,) won; Zensible, 109 (Benescoten,) second; Busy Man, 106 (Rice,) third; time, 1:39 2-5.

DEFINES BOOKMAKER.

What is a "bookmaker?" The suppression of race-track gambling in the State of New York depends upon a statute providing that "any person who engages in . . . bookmaking at any time or place; or any person who keeps or occupies any room, shed, tenement, tent, booth . . . or any part thereof, or who occupies any place or stand of any kind, upon any public or private grounds within this State, with books, papers, apparatus, or paraphernalia, for the purpose of recording bets or wagers . . . and any person who records bets or wagers . . . upon the result of any trial or contest of skill, speed, or power of endurance of man or beast . . . is guilty of a misdemeanor." In a prosecution under this statute the New York Court of Appeals holds in People vs. Langan, 89 N. E. Rep., 927, that a person at the race track who has no books or papers and does not occupy any building or tent and records no bets, but who simply offers orally to those present to bet upon a horse or horses that are about to engage in a race in which he lays odds, and so bets, is not a bookmaker within the meaning of the statute. The view of the court is that the purpose of the statute was to abolish the practice of registering bets and odds by which the person offering to bet could make odds enabling him to win and causing the public to lose. The court says: "The vice of bookmaking chiefly consists in soliciting and in the inducing the public to take chances in the carefully-figured and planned scheme of a bookmaker, and this, in order to be profitable to him, requires the writing out of the list of the odds laid on some paper or material so that they can be seen by those who are solicited to invest."- Mr. Justice Vann dissents, being of the opinion that the substance of the crime of bookmaking may be committed with or without a record, the record being merely evidence of the odds quoted and an aid to memory.—[Law Notes.

A Practical Politician.

A political office in a small town in Iowa was vacant, says Lippincott's. The office paid $250 a year, and there was keen competition for it. The Democratic candidate, Ezekiel Hicks, was a shrewd old fellow, and a neat campaign fund was turned over to him. To the astonishment of all however, he was defeated.

"I can't account for it," said one of the Democratic leaders, gloomily. "With that money we should have won. How did you lay it out, Ezekiel?"

"Well," said Ezekiel, slowly, pulling his whiskers, "yet see, that office only pays $250 a year salary, and I didn't see no sense in payin' $900 out to get the office, so I just bought me a little truck farm instead."—[The Pathfinder.

Why the Franklin is the most comfortable and the most reliable of all automobiles.

The closest possible examination of the leading water-cooled automobiles shows them to be practically alike in all important features. With their semi-elliptic springs and steel chassis frames they all ride about the same. You can get but little more comfort with one than another.

The Franklin is different. It is really comfortable. With its four full-elliptic springs and laminated-wood chassis frame, it is the most comfortable automobile in the world. And being comfortable also means that the Franklin lasts indefinitely—it does not rack and strain itself.

Other automobiles are all about the same on tires—usually unreliable. Their tires are too small and too weak. Here again the Franklin is different. We practically eliminate tire trouble. The solution of the vexed problem is in providing tires large and strong enough for the service required. The Franklin is light and flexible. It is easy on any tires, and with our 1910 tire equipment tire troubles are not a factor.

Being mechanically reliable, as shown by winning severe reliability and endurance contests, and having reliable tires, the Franklin is the most reliable automobile you can buy.

MONEY TO LOAN—
In Sums to Suit.

TO LOAN—
CENTRAL LOAN COMPANY.
424 Byrne Bldg. 3rd & Broadway.

HOW TO BORROW MONEY.
Read all the "MONEY TO LOAN" ads, compare them carefully; then decide which you like best; have a personal interview with the manager of each company; then if you are in a position to judge which firm you prefer to deal with. We invite comparison of this sort and feel we are running no risk in placing our business methods and the contract we offer against those of any other concern in the city. Take our advice on "HOW TO BORROW MONEY," it will cost you nothing, except a little time, for which you will be well repaid in the satisfaction of knowing you are dealing with the right people. We advance money to housekeepers on PIANOS, FURNITURE, LIVE STOCK, WAGONS, CARRIAGES, ETC. The service we offer is quick, quiet and polite. Call, write or 'phone.

QUICK LOANS. QUICK LOANS.

You can borrow any amount you wish from $10 to $500 on furniture, pianos, horses, wagons, cattle, etc. The property to remain undisturbed in your possession. You can get the money the day you make application and with no publicity. Loans can be paid back in any installments that suit the borrower and each payment so made will lessen the cost of the loan. There are no restrictions on your moving when you wish. No charges of any kind taken out in advance. You receive the full amount of the loan in cash. If you have a loan elsewhere or you owe a balance on your furniture, piano, or any other security, call and see us and get our terms. We will pay it up and carry it as long as you wish, feeling assured that we make no inquiries of your neighbors or employer. Private offices. If you are unable to call to the office, telephone us and we shall send our agent out to your home.

NEWS AND BUSINESS.

Session for Men.

A mission for men was organized yesterday at the Holy Cross Church, Fortieth and Main streets. Rev. J. Bonner and Rev. A. T. McMahan are at the head of the movement. Services will be held every evening throughout the week.

Business Profits.

It was announced yesterday by Mrs. A. A. Bryant, chairman, and Mrs. Orville MacGowan, treasurer of the Business Committee, that the net results for the performances at the Auditorium are $22,000, which is greater than was expected.

Before Independence.

A meeting of the California Business Woman's Association will be held tomorrow evening at 8 o'clock in the Motor Club room of the Young Women's Christian Association. An address on "The Economic Independence of Women" will be delivered by Miss Kinney.

I.O.W. Valentine Party.

The Fiesta Camp, Woodmen of the World, will celebrate St. Valentine's day with an entertainment and dance tonight at No. 517 South Broadway. An interesting programme has been arranged and all the camps and circles in the city have been invited to be present.

Lady Federate.

At a meeting of the New Hampshire Society in Mammoth Hall, No. 517 South Broadway, tomorrow evening the question of a federation of all the state societies will be taken up. Following the business of the evening an entertainment will be given. All members are asked to come and bring friends.

Held Up Sunday Auto.

S. S. Roten, a negro, was arrested last night by Patrolman Gifford and Ackoff, who caught him in the act of driving off with the automobile of the Rev. A. C. Smither from in front of the First Christian Church, of which Mr. Smither is the pastor. The clergyman's machine was stolen some time ago and recovered only after some delay.

Y.W.C.A. Talks.

A practical talk on "Good Occupations Needing Trained Women," will be given today by E. F. Hill at the Young Women's Christian Association from 12:30 to 1 o'clock. This talk will be free to the public. One week from today at the same hour, H. B. Gage will speak on "Comets, and Especially Halley's Comet." Members and friends of the association will hold a Valentine party this evening.

Broke the Bank.

Charles Wong Tong, a Chinese merchant from Portland, Or., arrived in Los Angeles last night in custody of an Oregon deputy sheriff, who is taking Tong back home from Leavenworth, Kan. Tong, it is said, did a private banking business for the Portland Celestials as a side line to his merchandise business. When the deposits aggregated something more than $1,000, Tong left town, taking the bank with him. He was arrested at Leavenworth and will resume his journey to Portland this morning.

Always Christians.

"The Way Out" was the subject of the address given at the Young Men's Christian Association yesterday afternoon by William George Palmer, the "Presbyterian Cyclone." He impressed upon the young men the necessity of living honest, clean lives, and above all, if they intended to be Christians, to be Christians, not only when they could be seen by other men, but at all times. A number of selections were rendered by A. L. Miller, harpist, and by Lawrence McGowan, a young singer.

Y.M.C.A. Banquet.

Nearly 500 guests are expected at the banquet of the Y.M.C.A. which will take place this evening at 6:30. President Arthur Letts has received several hundred reservations for the affair, and it promises to be one of unusual importance, unfolding as it will, the plans for the big membership campaign which begins next Wednesday and runs for an entire week. Robert Watchorn will be the toastmaster of the evening, and nine of the principal clergymen of the different denominations are on the list for ten-minute talks.

Lincoln Celebration.

The Massachusetts Society will commemorate the one hundred and first anniversary of the birth of Abraham Lincoln tonight, at No. 517 South Broadway. F. S. Forbes, president of the New England Society, will make the principal address, and members of the Lincoln family in Los Angeles will be present. A pleasant social time will follow the programme, and all members and friends are invited to be present. Appropriate souvenirs have been provided by the Committee on Entertainment. Walter Gould Lincoln, president of the society, will present some recently discovered facts regarding the ancestry of Lincoln.

Piles Cured in 6 to 14 Days.

Pazo Ointment is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

S. Conradi, at the Park Bank, corner 5th and Hill St.

Dr. Logan, leading oculist, 415 Spring.

TROUBLE TO GET JURY.

Two Panels Exhausted at Ventura in Murder Trial and Still Box Is Not Filled.

VENTURA, Feb. 13.—It has taken so far 140 men in a vain endeavor to make up a jury to try Manuel Fabela on a charge of murdering Officer Andrew McNaughton in Oxnard four years ago. The panel is not yet complete. A venire of forty more names has been issued, returnable tomorrow morning, when the case will be resumed. There are eleven tentative jurors in the box from the first two panels, but all of these are not certain for the reason that Fabela is a great stickler when it comes to jurymen, having had some previous court experience. The defense has left still thirteen peremptory challenges to six for the prosecution. The case is attracting a great deal of attention, as the murdered man was exceedingly popular, the killing deliberate and cold-blooded, and the difficult time which was had in landing the prisoner, who fled to Mexico after the crime and could not easily be apprehended.

Fillmore is building seven new bungalows, a new hotel is in prospect and a High School to cost $30,000. There is also talk of changing the Fillmore Herald into a daily.

The question of the change of the county seat from this city to Oxnard is being pretty thoroughly discussed. Santa Paula says Oxnard has no possible show until she rids herself of the saloons, while Oxnard says "bosh," and comes to the fore with an offer of a bonus of $40,000, raised in ten minutes. The present county seat, Ventura, is unanimous in desiring to remain so, and the people feel that they have the inside track and that there is little danger. A prominent Venturan says that the town would quickly raise $100 000 as a bonus if it came finally to a question of money.

This city is to have a tourist hotel to be erected on the beach tract immediately east. Mrs. Pierpont Ginn of Nordhoff, who keeps the well-known Pierpont cottages in that valley, will be largely interested and will conduct it.

MEMORIAL SERVICE.

Will Be Held at Alhambra for the Late Bishop Foss of the Methodist Church.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

ALHAMBRA, Feb. 13.—A memorial service for the late Bishop Foss will be held in the First Methodist Church on the evening of the 22nd inst. The deceased was father-in-law of Mayor Weeks. Rev. C. Edward Locke, D.D., of the First M. E. Church of Los Angeles, will give the principal address of the evening. Dr. Mather, District Superintendent, and Dr. Wilson, Chaplain of the Soldiers' Home and an old friend of Bishop Foss, will also be present.

The City Trustees will go in a body to attend the "Flag Day" celebration to be held in South Pasadena on Washington's Birthday.

The Knights Templar will give a ball in the Masonic Hall on Tuesday evening, the 22nd. An orchestra from Los Angeles has been engaged.

The Pacific Telephone and Telegraph Company has made improvements in the system, during the past two weeks, and it is understood will expend $27,000 here.

The ladies of the Marengo Avenue Methodist Church are making plans for a "Washington Birthday Party" to be held in the parlors of the church on the evening of the 21st. inst.

Mrs. S. F. Wuest has been called to Chicago on account of the illness of her sister, Mrs. Harrie Fletcher. As soon as Mrs. Fletcher is able to travel Mrs. Wuest will bring her back to her home in Pasadena.

Barney Carrigan, president of the Metropolitan Street Railroad Company of Kansas City, Mo., is spending the winter in Southern California and passed a week as the guest of Dr. J. M. Ford.

BANNING.

BANNING, Feb. 13.—The Indian Department has a special agent here investigating the title to a tract lying within the Cleveland forest reserve. This land was taken into the reserve under the proclamation of President Cleveland and the Forestry Department believed its right to the domain to be perfect until the superintendent of the Malki Indian reservation attempted to gain possession. To further complicate matters, the land is occupied as the home of the deputy forest ranger, a house having been erected for him a year ago by the department.

GLENDORA.

GLENDORA, Feb. 13.—Clark Lewis, aged 16 years, was painfully injured last evening when a big automobile collided with a light rig he was driving on Main street. Lewis was thrown several yards to the side of the road where he lay stunned for several minutes. The auto is thought to belong to a Covina man and was running. It is alleged, with only one side light.

VITAL RECORD {BIRTHS. DEATHS. MARRIAGES. DIVORCE.

McBurney's Kidney and Bladder Medicine

Chicago, Ill., April 8, 1896.
Mr. W. F. McBurney, Los Angeles, Cal.: Dear Sir—It affords me pleasure to testify to the efficacy of your Kidney and Bladder Cure. I have been troubled with my kidneys and bladder for over 4 years. I have been treated by the best physicians of this city during that time. (I mention two who stand at the head of the profession: viz., Dr. C. A. Purdy and Dr. Frank Walls, the latter being my son). I regret to say they did me no good. I was advised to spend the winter in your glorious climate and try the ocean baths, but received only temporary relief from the baths. On the night I left home I got a bottle of your medicine. The first dose did me good, and I was well when I reached home, and I can say in conclusion that I am grateful to you. If this letter is of any use to you, use it.

Notice of Annual Meeting

TO WHOM IT MAY CONCERN:

The Annual Meeting of the Stockholders of The Pacific Mutual Life Insurance Company of California will be held in the Directors' Room on the fifth floor of the company's home office building (Pacific Mutual Building,) northwest corner of Sixth and Olive streets, in the City of Los Angeles, County of Los Angeles, State of California, on Monday, February 14th, 1910, at 11 o'clock a.m. for the purpose of electing directors and for the transaction of such other business as may properly come before the meeting.

Dated at Los Angeles, California, January 11th, 1910.

GEO. I. COCHRAN,
President of The Pacific Mutual Life Insurance Company of California.

C. I. D. MOORE,
Secretary of The Pacific Mutual Life Insurance Company of California.

SEALED PROPOSALS WILL BE RECEIVED by the Superintendent of the Water Department, Phoenix, Arizona, until 5 o'clock p.m., Wednesday, February 16, 1910, for supplying fuel oil for a period of two (or three, at the option of the City of Phoenix) years, commencing August 1, 1910. No bids will be considered on oil heavier than 14 deg. Baume, nor on oil from which any of the component parts have been removed, either in process of refining or by other method. Quotations shall be f.o.b. point of shipment. Allowance shall be made to the City of Phoenix for all sand, water or sediment in the oil furnished in excess of 1 per cent. The right to reject any and all bids is reserved.

h Grade Player Pianos

Its wonder-
ful reserve power are reason-
ably economical. Hence the marked
ease of operation. Come in and examine some of
our Player Pianos—it will give us pleasure to
demonstrate them to you.

Select One Of These Reliable Instruments

STEINWAY PIANOLA PIANOS, $1475 TO $2900.
SOHMER-CECILIAN PLAYER PIANOS, $1050. Terms of $15 Monthly.
FARRAND-CECILIAN PLAYER PIANOS, $850. Terms of $15 Monthly.
CADILLAC PLAYER PIANOS, $600. Terms of $12.50 Monthly.

Pianos Taken In Exchange

Free Music With all Player Pianos except Steinways, we give a generous supply of music free. In addition to this our Music Library, containing thousands of rolls of Player Piano music is open to the free use of customers. You can exchange your music as often as you desire, daily if you like. This service is an advantage you'll appreciate.

Have You a VICTOR?

$3.75 Puts One In Your Home

Our plan the most favorable offered, enables you to have the pleasure of a talking machine at once, on a very small cash outlay. Choose ten selections, pay $3.75 cash. We'll send the records and a Victor to your home. Then pay a dollar or more weekly. Records may be purchased on the same basis, but with an initial payment of only $1 for six records. Victors $10 to $24. Editions $2.50 to $60. Come in and let us demonstrate these instruments for you. Hear some of the late new records—you'll enjoy them.

DISCIPLINE?

IT'S JUSTICE A LA GOO-GOO.

Patrolmen Suspended for Doing Their Duty.

Report Involved Members of "Purity Squad."

Irregular Investigation Not to Their Advantage.

As a result of a secret investigation conducted by officials of the Goo-Goo police department, none of whom are now willing to admit having had anything to do with the affair, Patrolmen Whaling and Bowman, have each suffered a three-day suspension for no other apparent reason than that of doing their duty in making a report to the acting captain, relative to the conduct of two members of the "Purity Squad."

Whaling and Bowman returned to duty yesterday after losing three days' work and after having been deprived of pay for those days. They make no statements relative to their suspension, will not talk about it or even say that they have been suspended. But the books show they have not been drawing any pay for three days, and investigations show a most weird condition.

Whaling has been on the force several years and walks a beat on Broadway in the heart of the business district. He has been kept in a district where a polite, safe man is needed. Bowman is a new member of the department, and was placed in the Japanese section.

It was not long after entering this district that Bowman had occasion to report that there was a disorderly house operating on Jackson street. Browning and Bowe, two members of the "Purity Squad," were sent there to conduct a raid. They returned with a French woman, and she put up $25 bail and disappeared.

PUZZLING.

For some unexplained reason the house did not cease operating. It continued and Bowman did not know just what to do. There had been a report of eight women in the house. Only one had been arrested and she apparently got off without much trouble.

Bowman, being a new man and unused to the ways of the department's diplomacy, was surprised to see the place in full operation the next night. He walked over and inquired into the state of affairs.

The woman told him that the "Purity Squad" had made an arrest and that she had been told that she could operate the house for two weeks longer.

Bowman was startled. He did not know just what to do.

It was a situation that he had not dreamed of. He thought the matter over. The officers involved were members of the private clique, who swarm about the captain's office. They were ranking patrolmen in plain clothes.

He was a new member of the department. He sought advice from Whaling, an older member. Whaling is said to have advised Bowman to make a report on the condition of affairs. It is one of the rules of the department that officers shall report such affairs whenever they find them.

Bowman and Whaling each submitted written reports to acting Capt. Haupt. Haupt, in turn, gave the reports to acting Chief Dixon. An investigation was ordered. The affair was not put up to the Police Commission, where it belonged, but a private investigation was held.

An official was sent to the house, accompanied by the members of the "Purity Squad" and the patrolmen. The woman was naturally so frightened that she could hardly speak. The first question of one of the "Purity Squad" is said to have been: "Do you mean to say that I told you, you could run this house for two weeks more?"

The woman denied that she had ever said anything of the kind. Immediately the patrolmen, whose chief offense had been their desire to report statements made derogatory to the police department, were suspended. The charge against them was put as a violation of discipline.

Acting Chief Dixon stated yesterday that he had nothing to say about the affair, that he did not care to discuss the rights nor wrongs of the suspension of the two officers, and that he did not consider a matter of discipline in the police department to be the business of the press.

Acting Capt. Haupt seemed worried and annoyed that the case should have come to light. "Matters of discipline do not concern the press, and this case least of all. It is a matter that should not be made public—one that does not help the officers implicated," said Haupt.

CONFLICTING.

"I have no statement to make on this case. It is a question that I would rather leave to my superior officers. I can only say that an investigation of the affair was made, and the statements of the patrolmen were found to be unfounded. I ordered the investigation, I secured the reports and made the suspensions. It was done to preserve discipline in the department. One of the men implicated, accompanied by a sergeant and a lieutenant, went to the house and conducted the investigation. The lieutenant was Kriege."

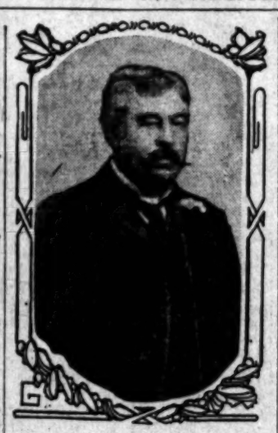
Lieut. Kriege showed a surprising ignorance of the affair when it was called to his attention. Despite the statement of his acting captain that he had personally conducted the investigation, Kriege stated, flat-footed and firmly, that he had never heard of the case, that he had never seen any reports of the affair, and that he knew positively nothing of the details, and that he most positively had never gone to the house or conducted such an investigation.

GOOD THING DUE.

A matinée card of six harness races has been arranged by the Los Angeles Driving Club for February 22 at Agricultural Park. A double team race will be one of the features of the programme.

In the 2:12 trot that has been slated, Paul W., Directum Penn, Copper King, Leonora, McKinney, and Lady Mac have already been entered. ... ent for February 22 will close next Wednesday.

The Agricultural Park track will be cut into about April 1, in the proposed changes for the grounds. The new track will probably be ready in about three months. Besides the matinée for Washington's Birthday, a card will



Carlo Demateis,

who died last night of a broken heart following an avalanche of troubles. His brother and partner is in the hospital from the same cause.

SUDDEN.

MANY TROUBLES KILL PIONEER.

PROMINENT ITALIAN MERCHANT DIES FROM WORRY.

Death of Carlo Demateis Follows Confiscation by Revenue Officers of Quantity of Brandy at His Winery and Payment of Heavy Fine. Brother in Hospital.

Carlo Demateis, aged 54 years, a prominent wine merchant of this city, died at his home, No. 494 Macy street, early last evening and the body removed to J. D. Button's undertaking parlors. Death was due, according to his friends, from worrying over a series of business and home troubles, which started several weeks ago and culminated with the confiscation of a large amount of brandy from his winery by government officials last week. At that time Demateis was forced to pay a fine of $5000. It was then that he became seriously sick and for the past three days had been confined to his bed.

His brother and business partner, John Demateis, is sick from a like cause at the French Hospital, and his friends fear that the shock of his brother's sudden death, when he hears of it, will prove a serious check upon his recovery, already thought doubtful by the physicians at the hospital.

Demateis had been a resident of Los Angeles for the past thirty years, and had owned a winery with his brother at No. 945 North Alameda street for nearly seventeen years.

He was a prominent member of the Italian colony and was connected with several Italian societies.

His troubles started several weeks ago, when, as the result of a fall, he was confined to his bed for a number of days with a badly-sprained leg. No sooner had he gotten up and about than he commenced to have trouble with the government officials. The suspicions of United States Revenue Collector Parker were that Demateis was distilling brandy that he was not paying a tax on. Last week government agents visited his place to check up the amount of brandy that was being sold. On Monday they returned and confiscated nearly one hundred gallons of the liquor. The charge was that the brothers had been working their still overtime and reporting only a part of the liquor distilled to the officials.

Three charges were made against him. One of selling illegally distilled brandy; another of having high-proof brandy outside the distillery premises, and the third of filling a barrel the tax had been paid on with brandy which had not been taxed. He was fined $5000 at that time, and since had worried a good deal over the matter, and for the past few days had been confined to his bed.

It was only six months ago that he married his cousin, Miss Louise Ferrante.

The funeral will be held from St. Peter's Church on Wednesday, Rev. Father Bucci will officiate. The interment is to be at Calvary Cemetery. Besides his widow, he leaves two brothers in Los Angeles and two sisters in Italy.

CLUBHOUSE DEDICATION.

The mystic hour of next Wednesday night, has been selected by the charter member body of the Player's Country Club as the time when they will dedicate their clubhouse and grounds in the hills of Ivanhoe.

A midnight high jinks will be held, starting in promptly at 12 o'clock and continuing until the hours of the morning. The last act in the furnishing of the new club took place Saturday.

Contracts are soon to be let for the tents which will go to make up the summer tent city. Inside of four weeks the combined club forces from the Burbank and Belasco theaters will give an old-fashioned minstrel performance at the Auditorium, the receipts from the same to go as a benefit to the infant organization.

William Jarrett, one of the best-known figures in the local stage-mechanics world, died Saturday at the California Hospital. The funeral services will be held Tuesday morning, at the Pierce undertaking parlors.

William Desmond is being sought as leading man for Frederic Belasco's San Francisco Alcazar Theater. He is in New York at present, but will probably take the place.

MURDERER IS LEFT FORTUNE.

Sailor Who Killed Shipmate Falls Heir to $81,000 and Will Try for Freedom.

[ASSOCIATED PRESS NIGHT REPORT.]

DULUTH (Minn.) Feb. 13.—Jackson McPherson, a salt water sailor, who has been for the last two seasons on the Great Lakes, and who yesterday was convicted of second degree murder in this city, for killing a shipmate, Otto Frey, on the ship North Lake, last September, today announced he had fallen heir to $81,000.

He displayed letters of proof and a draft for fifty-two pounds, sterling, he had received. The money and the letters, he says, was left him by the late Thomas Smith, of Kilmburg, an uncle.

McPherson says he will carry his case to the Supreme Court. He claims

SPECTACULAR.

LODGE GOAT HARD-RIDDEN

Enthusiastic Knight Hires Whole Special Train.

Horde of Guests Invade the City of Anaheim.

Hundred Candidates Are Put Through Ordeal.

Seized with an attack of Los Angeles enthusiasm, Maj. Julien O. Royer, a mining man who lives at No. 2118 South Grand avenue, hired a train of eighteen coaches over the Santa Fé and took members of the Uniform Rank, Knights of Pythias, to Anaheim Saturday. The conquering horde of visitors, representing lodges from this part of the country, passed Saturday night and Sunday in Anaheim and returned to Los Angeles last night. The occasion of the spectacular tour was the conferring of the Uniform Rank degree on 100 prominent business men in the mother settlement of Orange county.

More than 3500 members of the K. of P. managed to make the excursion and do honor to the occasion. Those who were unable to take advantage of the generosity of Maj. Royer took an additional special train from this city early yesterday morning.

In spite of the high cost of living, the enthusiastic knight who hired a train seems to feel that he can keep the wolf from his door for a few more days, as he paid $60 for each of the eighteen coaches, besides making generous contributions in other ways.

IMPOSING.

The special trains made an imposing spectacle carrying, as they did, men of many lodges in distinctive uniforms bearing their banners and streamers. Bands blared and crowds cheered as the galaxy of color swept on its way to startle the natives of Anaheim.

Not content with the conquest there, the "Royer Special" stopped at Fullerton yesterday afternoon on the return trip and a parade was held in that city.

The Anaheim population was well prepared for the invasion of visitors. Nearly every business house in the city was handsomely decorated in honor of the Knights, and the streets were crowded with those who yelled a welcome to the guests.

After the 100 newly-initiated members of the Anaheim Lodge had recovered from their experiences Saturday night they prepared to make a showing for themselves Sunday, and turned out for a parade in full uniform.

Before noon yesterday a procession of the Uniform Rank marched to their selected parade grounds where battalion drill of the Third Regiment of the K. of P. was held. Maj.-Gen. Driffle and his staff reviewed the regiment.

A line of six companies was formed after the drill and they marched to the operahouse where dinner was served for several thousand. The K.'s of P. proved themselves fully as proficient at the tables as on the parade grounds. The drill was excellent and the men showed ability in their manual of arms as well as in evolutions. Unlike many lodge drill corps, they kept their alignments and guides and used the regulation 120 steps a minute.

CONGRATULATIONS.

Members of Fidelity Lodge No. 23 of Napa, Cal., gathered last night at the home of Maj. Royer and congratulated him on his generosity and fidelity in working for the success of the lodge. While in Anaheim they presented him with an elaborate gold and jeweled medal in commemoration of the fact that he is Past Chancellor of Fidelity Lodge. Since he has acquired a ranch near Anaheim and has moved from Napa to this city, Maj. Royer has been an active member of the Anaheim lodge.

Hundreds of persons from all parts of Orange county witnessed the imposing spectacle offered by the Knights of Pythias and pronounced the occasion one of the greatest of the celebrations held in the mother colony city.

All of the 2500 travelers for the K. of P. say that they had an excellent time and were royally treated by their hosts. Since their return to this city druggists have done a rushing business selling dyspepsia tablets and foot salves.

The lodge goat at Anaheim is reported to be laid up with a severe attack of nervous prostration and hundreds of small boys there have begun imitating each other and planning for future careers of glory as Knights of Pythias—especially in the Uniform Rank.

THEFT OF FIVE BEDS.

Man Wanted on Burglary Charge Is Brought Back from Riverside to Stand Trial.

William Hildebrand, wanted here on a charge of burglary, was brought back last night from Riverside by Patrolman Oaker. Hildebrand, who was employed in clearing some orchard land at Riverside, is charged with being implicated in stealing five fancy brass bedsteads from the factory of the Los Angeles Bed Company, at Seventeenth and Los Angeles streets.

On or about November 10, at 6:30 o'clock in the evening, just after the factory had been closed for the night, a window at the side of the building was broken and the side door opened from the inside. Five of the finest beds in the place were placed on a waiting wagon and carted away. It was raining and the burglars had no trouble in getting away undetected. The same night they sold three of the beds, and these have been recovered by the police. The other two beds are also believed to have been sold, but the officers have not been able to find them.

Hildebrand was traced through one of the bed sales, and his arrest at Riverside followed. The prisoner is said by the police to have served two terms in the penitentiary, one of them for

Julien O. Royer,

Major in the Uniformed Rank Knights of Pythias, who hired a special Santa Fe train of eighteen cars to take the members of local lodges to Anaheim.

APPREHENDED.

YOUNG "DAYLIGHTERS" ARE VERY PENITENT

THREE desperate "daylight" burglars who broke into the W. T. Barn bakery at No. 1605 South Main street yesterday at noon were arrested at about 6 o'clock last evening by Patrolmen Moore and Bean of the East Side branch station. The prisoners confessed with a deluge of tears, giving the excuse that hunger drove them to it, and showed so much contrition that they were released without bail. It is not thought, however, that the unconventional disposition made of the case by the East Side officers will bring on a police scandal.

The "daylighters" are Ralph Mendoza of No. 151 West Fifteenth street, Henry White of No. 1415 South Hill street, and George Bruce of No. 141 West Fourteenth street. Henry is 8 and the others are each 12 years of age.

Whether they were started on their career of crime by the accounts of other "daylighters" who have been giving the police so much trouble of late, does not appear. But they made a thorough "daylight" job of it by choosing what the society writers call "high noon" as the propitious hour for their work. They broke through a ... dow in the rear of the place and ... ried off all the loot they could ... away. What pies and cakes they ... not eat, they stowed in their pe... and shirt fronts.

Patrolmen Moore and Bean were ... on the case and worked hard for ... hours. The officers would not say ... night whether they traced the cr... nals to their lair by the trail of cru... they left of the rotundity of t... "tummies."

But Ralph, Henry and Georgia ... very, very penitent when their a... sin was brought home to them. T... confessed bitterly that their love ... candy—and cookies had been ... downfall, and they made many ... less never to do it again. The ... did not have the heart to send t... to the Detention Home.

The three boys were placed in ... custody of their parents, and to ... the papas and mammas will be ca... upon to "produce the bodies of ... defendants in open court." Some p... of the aforesaid bodies may be a ... sore by morning, but the produce ... will have to be gone through w... just the same.

NO STRIKE TODAY!

HAPPY MINERS WELCOME COOK.

DAINTY FRENCH MISS TAKES CHINAMAN'S PLACE.

Celestial Stole Away to Participate in New Year's Festivities—Hungry Workers Threaten to Quit and Rush Orders to Los Angeles Brings Substitute in Lingerie.

"Send us a French cook on next train."

This was the message which flashed over the wire from Otis, San Bernardino county, to Los Angeles, Friday, and upon a quick response, depended the operation of the Gold Bunker mining group, twenty-two miles northeast of Otis.

The troubles—for Superintendent John DeLarmie certain has had them by the bushel, during last week—all developed from the sudden leave-taking of Wong Nim, camp cook, who stole away from the mines last Wednesday morning to participate in the Chinatown celebration of New Year, now proceeding in this city.

Three weeks ago Wong Nim apprised the superintendent of his desire to aid in the devil-chasing, and every effort to induce him to remain in camp was made.

"We'll buy you a ton of firecrackers and all those little tissue-paper devil bewilderers you want," pleaded the superintendent, but the Mongolian was firm.

He wanted to leave a week ago, but the miners blocked his way with rifles, pointing significantly to their weapons whenever he suggested his trip. Wednesday night he slipped away. His absence was not discovered until Thursday morning, but before going he prepared the breakfast, and when the miners arose it was to find everything on the table in the dining-house ready for the day's first meal. Wong Nim had even got things started for dinner, but the miners had to turn in and complete the preparations.

Thursday night the camp was in an uproar, and Friday morning Superintendent DeLarmie was served with an ultimatum. The miners proposed to quit today unless a cook of some sort was installed, and in desperation the superintendent sent his telegram to an employment agent in this city.

Saturday night's overland carried the cook, a dainty morsel in snowy lingerie.

A mob of miners was at the station yesterday to greet the arrival, but consternation resulted when she introduced herself to Superintendent DeLarmie, who cleverly arranged a breakdown of his automobile to permit the rough and ready miners to beat the cook back to the camp and get things straightened up before she arrived, as the kitchen had been fairly littered with half-washed utensils, ashes were strewn over the floor, and the place had been maintained since the Mongolian quit in a way that would have caused even the Chinaman to revolt. The new French cook is reported to look like a success, and there will be

At the Churches Yesterday.

it of Evil.

BISHOP CONATY yesterday morning at the high mass at St. Vibiana's Cathedral began his series of ten sermons, one of which he will ach each Sunday during the entire on. The cathedral was crowded to doors with a large congregation mbled to hear his lecture on "The ter Spirit of Evil." Under the diion of Prof. Frank Colby, special ic was rendered.

Bishop Conaty took for his text: en Jesus was led into the desert the spirit to be tempted by the il." St. Matthew iv, 1.

e then explained the reasons for ist's retirement into the desert the circumstances for the temptas, as explained in the gospel for Sunday, and said that thus Christ, fasting and prayer, gave an examto His followers as to the means preparation for the great battle of which is one of the temptations which man's fidelity to God is ed, and his Christian character ly developed. There is also consoon that temptation is not sin, and t God gives strength to resist it.

Bishop Conaty took occasion to give history of the devil, as found in Old and New Testaments. He said cifer, as his name indicates, was ated by God an angel of light, who ame by his own sin the archangel evil.

It is difficult," said the bishop, "to erstand how any one who believes the Bible as the word of God, can itate in believing in the personalof the devil as the master spirit of

One of the clearly defined docses of the Catholic church is the sonality of the devil and the work evil, which he does in life in order thwart the work of redemption apostles in their writings are full warnings against our adversary, the il, who goes about like a roaring seeking whom he may devour. we are reminded that sin is from devil, who from the beginning has ght sin.

It is hard to understand how any who believes in the Bible as sole rule of faith or in the Cathchurch as the supreme authority matters of faith, can for a moment itate in believing in the existence evil spirits whose purpose in life by temptation to suggest evil and lead man away from God. The iptation of Christ was a real iptation; the spirit that tempted n was a real spirit; Christ Himself him Satan, the devil, who is thus ognized a the master spirit of spoken of in the Old Testament foretold by the prophets.

No one can gainsay the presence evil in the world. It cannot come m God, who is the principle of od, and hence it must come from e agency external to God.

Christ came with the word of God teach men the truth concerning and salvation. By His redemption has atoned for sin, and by His cramental system He has given man portunities for salvation from sin grace sufficiently to withstand temptation. Let us obey the sugation of the angel of goodness; let r war cry be that of St. Michael, o led the loyal angels and conered Satan, 'who is like unto God.' the temptations of the evil eye let say with Christ, 'Begone Satan, Lord thy God thou shalt adore, Him only shalt thou serve.'"

ous Christ.

At the Universalist services in McKinley Hall, Walker Theater building, pastor, Rev. C. Ellwood Nash, D.D., ed, in part:

A true portrait of Jesus Christ can y be drawn in historical perspective. e record of the biographers is brief d tentative. Mere opinions upon the bject are of little weight, save as y carry the authority of unquesnable facts. We cannot accept as allible the judgment of his contemraries, for they were humanly ayed by antagonism on one side or rtiality on the other within the covs of the New Testament itself, it is vious that estimates of him changed d grew, as his story was discussed d pondered, and men sought to acunt for His power.

There can be no doubt that the most tent name in the world today is that this young Jew. Not only is there great and growing institution, the urch, with its hundreds of millions votaries, its enormous properties, organized force, to testify to the sistence and sweep of his authorit, but in the still larger world of ought, of ideals, of philanthropy, of vernment reform, of education, of afirs. His moral standards. His iritual visions. His very philosphy (so to call it) are in the ain taken for granted by ninety-nine elligent persons out of a hundred ong the nations where He is best own, and the pressure of His propaanda yearly, almost hourly, expands horizon of His dominance around globe.

We need not claim that everything od in the progress of humanity has ectly flowed from the initiative of is man, but it would be difficult to e any really ameliorating influence ich His spirit did not embrace. His heady disciples have often blunred, and progress has demanded the rrection one after another of many their notions. But who has conted Jesus of error, or shown any ndamental shortcoming in His simple stem?

Shall we say that this was God in o flesh? We cannot without repuating His own express declarations, d it becomes less and less necessary do so, as we rise to a better appreiation of the meaning of humanity. God is our Father, man himself ust be conceived as divine.

We see in Jesus a true type of the ture we share with God—man at his st, and so God is manifest in us. tween the Father and His child ere is no place for a mediator; more d more our humanity is to approach d absorb the eternal glory and beme an express image of the divine rfection.

In Jesus we see that process already ried to a point of inconceivable lendor. He alone reveals the lineaents of a veritable Son of God; but e is none the less a man, our brother, d our Lord."

"Minding Your Own Business."

Yesterday morning at Temple Auditorium Dr. J. Whitcomb Brougher eached a sermon to a large congretion on "Minding Your Own Busiss." He said, in part:

Someone has tersely and concisely id 'Christ alone can save the world.' t Christ cannot save the world one. Jesus Christ said to his disples, 'As the Father hath sent me, en do I send you.' We know that sus Christ came into this world 'to ek and to save the lost.' If we are carry out the mission of Christ in e world, then the chief business of Christian is to seek and save the st. A good many Christians act as they did not believe this, for they ake no definite effort to win souls for sus Christ.

There is no business in the world May that men undertake with greater liberation and pursue with so litenthusiasm and energy as the at night in order to pursue with energy and tireless zeal their daily business in order to make it a success, but these same men frequently pursue their Christian service with more or less indifference.

"The ungodly sometimes regard the personal worker as meddling in other people's business. There are many reasons why the Christian should be a winner of souls. Jesus Christ made that the business of his life. If we are to be followers of Christ, we also must be soul winners. Jesus Christ commanded us to go and preach the gospel to every creature.

"If Christian men and women put the same value upon souls that Christ did, we would be more anxious to work for their salvation. If it were possible for us to go out into the streets of this city for the next hour and gather up stones that could be transformed into diamonds, within five minutes I would not have a congregathion. Yet, Jesus Christ has said that a soul saved is worth more than all the world. Yet, we pursue the almighty dollar with greater zeal than we do the saving of souls.

"I want to have in the Temple Baptist Church at least 500 this year who will pledge themselves before God and their fellowmen to make an honest, earnest effort to win at least one soul to Christ in the next twelve months. If this is done, I have no doubt that we will have 1000 additions to Temple Church this year."

More About Heaven.

Dr. Charles Edward Locke, at the First Methodist Episcopal Church, last evening, continued his series of serrhons on "More Truth About Heaven." His text was, "Today, thou shalt be with me in Paradise."—Luke xxiii, 43. Dr. Locke said, in part:

"The question, 'If a man die shall he live again?' is answered by a universal affirmative. The thirst for eternal life proves it. The soul of man instinctively reaches out for immortality.

"We decline to accept the suggestion of extinction after death, because in the natural world annihilation is a myth. Souls created in God's image can be marred, but not destroyed. Neither do we accept conditional immortality, because either immortality is a basal principle to be applied to all soul life, or it is an empty dream.

"The doctrine of purgatory is not found in scripture. It is a fiction borrowed from Paganism, and is repugnant to reason and repugnant to common sense.' It was elaborated and made an article of faith by Gregory the Great, who, also 'added the idea of a tormenting flame.' It is out of harmony with the teachings of Jesus concerning pardon and the atonement.

"'Shall we know each other there?' is a question most frequently asked. There would seem to be no ground for any doubt upon this subject. 'Today thou shalt be with me,' would indicate companionship, and, again, our Lord says: 'I will come again and receive you unto myself.' All the songs and intuitions of the soul reach for reunions with those we have loved here.

"In reply to questions which have come to me concerning the recent visit of a retired Vice-President of the United States to Rome, I would say, that in common with all broad-minded Christians I deplore the Vatican episode, and the more so, because of my fond dream that the unification of all branches of the Christian Church will take place. All Americans will be proud of the stand taken by Mr. Fairbanks. He is a Methodist, and a trustee of a Methodist church in his home city. An audience with the Pope had been arranged for the distinguished American, but when it appeared that the Vice-President was to deliver an address at the Methodist Mission the Vatican withdrew its invitation unless Mr. Fairbanks would refuse to recognize his allegiance to the Methodist church in Rome!

"To be sure, it is not so many years since, during the temporal power of the Pope, Christians found in the city of Rome, in the possession of the Holy Bible, were arrested. Methodism has had something to do in Italy and in the world with introducing a Christianity that could not tolerate the cruel bigotries and all the bitter persecutions of Mediævalism. The Methodist church is still a Protestant church in its opposition to the idolatries, and fetishes, and relics of the Middle Ages.

"This incident reveals the attitude of the Roman church toward a tolerant and democratic Christianity. Is it not time for Americans to omit these empty courtesies to the old gentleman, in his prison on the Tiber? The custom is the last lingering vestige of a royalty that once belonged to the Vatican, when its temporary power was direfully oppressing all of Italy and much of Europe, as any reader of history has discovered for himself.

"This performance is another grotesque illustration of the infallibility of the Vatican; which, it will be remembered, persecuted Galileo, excommunicated Copernicus, and burned Savonarola at the stake, and then, 400 years later canonized the great Florentine preacher as a saint!

"Let all methods and prejudices of the Dark Ages be repudiated. The shadow never goes backward on the dial. The unification of all branches of the Christian church will some day occur, all barriers will some day disappear between the Methodists and the Romanists. Let us do all we can to hasten that glad consummation! In the meantime the Methodists will certainly go forward in their mission to bring the simple gospel of Jesus to all mankind regardless of the 'pontiff's susceptibilities.'"

Dr. Locke announced that his next sermon in this series would be on the subject: "Can the Departed Communicate With the Living?"

Cost of High Living.

At the First Christian Church last evening the pastor, Rev. A. C. Smither, preached upon "The High Cost of Living vs. The Cost of High Living." He said in part:

"The one fact most evident to all is that the cost of living has increased about 50 per cent. in the last ten years. Among the reasons for this may be named the great increase of our population to cities. The population of the country is consequently diminishing. The consuming public increases; the producing public decreases; hence the increased cost of the food supply of the country.

"Second may be named the increased cost of labor in the country as produced largely by the leadership of labor-unions. Increased cost of production necessarily leads to increased cost of purchase and consumption.

"The great trusts of the country may be justly charged with having had a share in raising the price of foodstuffs and living. The day will soon be reached when the country must control the trusts or the trusts will control the country. The tariff as a proctection to manufacturers which enables them to charge the price of production plus the tariff protection is no small factor in the increased price of living.

"Among the prominent causes of high prices may be named the extravagance of our modern civilization. This may be denominated as the age of electric lights, telephones and automobiles. These have become the necessities of our life. They cost, however, and add to the burdens of are equally common. The prospects of lower prices of living do not seem very bright. All salaries ought to be adjusted to conform to modern conditions."

Contrasted with the high cost of living the speaker mentioned some of the costs of high living. He said in part:

"By high living I mean those dissipations, luxuries, extravagances and abuses of modern life that are associated with drinking, gambling, dissipating and vice.

"The man who follows in the path of the high flyer may know that his manhood, physical, mental, moral and spiritual, will soon be sacrificed. Manhood is a severe price to pay for a mess of pottage. Usefulness to himself and his generation is another price the habitue of evil will pay to his generation for his pleasures. The genuine worth of any life is its contribution to its generation. Sin readily and gladly makes this sacrifice.

"It costs the soul of man all that would save his life to pleasure and vice will lose his life to God and the eternal world. The loss of eternal life is a heavy price to pay for the pleasures of an hour."

Resist Temptations.

"The Temptations," was the subject of the sermon delivered yesterday at Saint Athanasius Episcopal Church by Rev. Charles T. Murphy. The text "For we have not a High Priest which cannot be touched with the feeling of our infirmities but was in all points tempted like as we are, yet without sin." Hebrew 4:15.

Rev. Mr. Murphy tells of the temptations of Christ, and how Christ must have had the same longing to commit sin that we have. He said in part:

"We should consider the characters of these three temptations as applying to the policies of the church. As we have said, they were all temptations to the Messiah in His capacity as Savior of the world.

"The temptations to the church are not to doubt her origin and position in the world, but to cause her to use these in unworthy ways and for selfish ends. The contest the church is having this day with the devil is a real contest. The church is tempted to seek to conquer by appealing to the power of wealth, superstition or politics. But the church will never be able to conquer by such means; the church can conquer only when she follows her blessed Master and resists all such temptations."

Water and Life.

At the First Congregational Church yesterday evening the Brotherhood Service included violin numbers by Oskar Seiling. The pastor, Rev. William Horace Day, took as a text the work of the Los Angeles aqueduct, and illustrated it with pictures of the great water project. He said:

"Water and life are absolutely bound together. With a rainfall of but half the Atlantic seaboard, Southern California must maintain an extensive agriculture and a multiplying city population or die. The water conduit now being built is a superb demonstration of the fact that faith is a part of the life of the city. While it took New York ten years to feel the need and act upon it to supply her 4,000,000 of people with pure water, it took this city just twenty-three months between the time the plan was first suggested and the voting of the final $23,000,000.

"If Boston were to go nearly as far for water she would have to build to the St. Lawrence River, and St. Louis would have to bring her supply from Lake Michigan and then have some to spare. The quality of the men who are doing this work impresses me more than the courage which led a city to bond itself for $38 per capita. I do not wonder we are finding the city can be trusted to do economically and effectively so great an enterprise when men of the largest capacity are glad even at financial loss to undertake the leadership of this vast business. I want to show you the picture of automobiling in the desert. It shows you a man pushing behind. It is a pushing Los Angeles real estate man, and shows the truth of the verse which the driver of the City Engineer's machine was sure was in the Bible: 'By the sweat of your brow shall ye ride in an automobile.' At all events, we came through because of the 'push' of this successful business man.

"Usually a preacher spends about two minutes on the text and thirty on the sermon. Tonight I have been reversing the process. This text, taken from the experience of the city in bringing water 250 miles for the sake of serving life, could be likened to the day when Jesus stood in the temple. Looking over the hot, thirsty crowd, among whom I suppose the carriers were bearing their water skins, He cried to all who thirsted, 'If any man thirst let him come unto me and drink.' Have you some terrible sense of need? As you sit here tonight do you see you have not been getting what you need; have you failed to find life? Did you come West to escape some old surroundings, to get away from something that disgraced you before your neighbors; have you found the new life in Los Angeles? After tryining the other way why not listen to Him who speaks as with the voice of many waters? Trust Him; come and He will satisfy that soul thirst and give you life."

Spirit of Lent.

"The Spirit of Lent" was the topic on which Rev. James A. Reardon of Long Beach preached at St. Vincent's Church at the vesper service last evening.

The expressions of Lenten sentiment, the meaning of the period of sacrifice and devotion, and its origin were eloquently explained by Father Reardon. It was the first of a series of Lenten sermons which he will deliver, one each Sunday evening until Easter.

Rev. Joseph S. Glass, pastor of St. Vincent's Church will deliver the Wednesday evening sermons. His topic this week will be "Authority."

The music of Lent will be of special interest and will be under the direction of Prof. Wilde, assisted by a number of soloists who sang the vespers last evening.

HIT BY MOTORCYCLE.

Armenian Child May Die as Result of Injuries Received Yesterday at Chutes Park.

A seven-year-old Armenian girl, named Josephine, may die from injuries received in an accident at Chutes Park yesterday afternoon.

Accompanied by her mother, aunt and two sisters, the little girl ran directly in front of a motorcycle ridden by William Harvey of No. 843 South Spring street. She was thrown violently to the ground and was unconscious for some time. Her mother was finally induced to take the girl to the Receiving Hospital.

There an examination was made by Dr. Wright, who found that the little girl was bleeding profusely and showed other symptoms of a fracture of the skull. He begged the mother to permit the child to remain at the hospital, but the woman, frightened by the bars and the uniformed officers, insisted on taking the little girl away with her.

She gave her address as No. 801 East Washington street, but was unable to give her name in English, writing it down in Armenian in case

IN HIS NAME.

SUMMING UP LABOR OF LOVE.

SOCIETY OF ST. VINCENT DE PAUL CONFERENCE.

Quarterly Conference and Reports of Eight Conferences at St. Joseph's Church—Services for First Sunday in Lent—Good Work Performed in Caring for Worthy Poor.

The first Sunday of Lent was observed in a special manner by the Society of St. Vincent de Paul of Los Angeles, when seventy-two men representatives of eight conferences of the society, from the Cathedral, Lady of Angels, Sacred Heart, St. Mary's, St. Joseph's, St. Patrick's, St. Thomas and St. Vincent churches, attended services at St. Joseph's Church, East Twelfth and Los Angeles streets. Services began at 8 o'clock in the morning. Mass was celebrated by the pastor, Rev. Cassian Tritz, who after the services attended the first quarterly meeting of the society for the present year.

The visiting brothers were welcomed by the reverend rector of the local conference, who, after complimenting the members on the great work accomplished by them in behalf of the poor, referred to the early history of the society founded in the city of Paris sixty years ago by Frederick Ozanan. This order is now spread over the entire world.

Vincentian work is strikingly illustrated in the lives of late brothers of the society, B. Osterhaus, president of St. Joseph's conference, and C. F. Rapp, vice-president of St. Joseph's conference.

P. J. Delaney, vice-president of Particular Counsel, presided in the absence of President C. C. Dirgeman and W. J. Wallace was secretary of the meeting. H. C. Dillon offered a resolution regretting the absence of President Desmond on account of illness, and conveyed the greetings of the assembled brothers through the secretary to President Desmond.

After the reading of the quarterly reports from each conference, which showed in detail the work accomplished, and the large amount of money expended for food and clothing and fuel and other necessities for relief of the worthy poor, a committee of two was appointed by the chair to act as pallbearers at C. F. Rapp's funeral, to be held at St. Joseph's Church at 9 o'clock this morning. The chairman also appointed a committee of three, consisting of Brothers Hopkins, Lawler and Bishop to prepare resolutions on the death of Brothers B. Osterhaus and C. F. Rapp.

Vice-President Delaney called the attention of members to the work now being done by the St. Vincent de Paul Infant's Home in behalf of homeless infants. This home is at present caring for twelve abandoned children under 3 years of age. H. C. Dillon made an earnest appeal for support of this work on the part of members of the St. Vincent de Paul Society. H. Le Sage presented a memorial on the death of the late Secretary W. H. Wheeler. Joseph Mesmer urged the formation of conferences in parts of the city now covered, and in suburban towns.

Brothers McConville and Bertonneau spoke of the necessity of forming a conference of the society in Pasadena, and hoped that one would soon be organized in St. Andrew's parish. Paul McCormick made the closing address, thanking Rev. Father Tritz for his words of encouragement to the members, and paid a high tribute to his zeal, not only in his own parish district, but throughout the city. The meeting then adjourned out of respect to the memory of Brother C. H. Rapp.

The first quarterly report of the Society St. Vincent de Paul for 1910, combining reports from eight conferences from December 1, 1909, to February 6, 1910, follow: Active members, 90; families assisted, 180; persons assisted, 783; families on relief roll, 45; persons on relief roll, 176; personal visits made, 272; contributions by members, $90.55; receipts of poor boxes, $533.51; receipts, donations, $572.45; total receipts, $1196.51; on hand, December 1, 1909, balance, $1128.42; total receipts and balance, $2324.93; expended, local aids, $1093.47; February 6, amount on hand, $1230.46.

PERSONAL.

Prof. G. Stengel Sembrich registered at the Hotel Alexandria. Prof. Sembrich has been spending several weeks at Pasadena, and expects to leave today for New York.

G. W. Griffey, a mining man of Florence, Colo., is at the Hayward. W. H. Brodie of Rhyolite, Nev., also interested in mining, is registered at the same hotel.

Charles W. Beeching, chief clerk of the new hotel, the Sacramento, at Sacramento, is enjoying a short vacation in Southern California. He is staying at the Lankershim.

David S. Brookman, prominent in San Francisco banking circles, is a guest at the Angelus.

R. L. Donley of Kenosha, Wis., a leather goods manufacturer, is stopping at the Van Nuys.

A group of mining men of Goldfield, Nev., are at the Hollenbeck. The party includes E. J. Reynolds, C. W. Miller, G. W. Shallenberger, and F. A. Hoenston.

Edward Browning and wife of New York, who are touring California, are now at the Nadeau.

Dr. and Mrs. F. M. Brooks of Silverton, Or., registered yesterday at the Hayward.

A party of tourists at the Van Nuys includes Mr. and Mrs. Charles Glats, Mrs. E. G. Canfield and Miss Canfield, all of New York City.

Mrs. C. C. Riley and daughter of Visalia are guests at the Nadeau. Mr. Riley is the owner of extensive peach orchards in the neighborhood of Visalia.

Col. H. W. Wheeler and daughter of Fort Worth, Tex., are at the Hollenbeck.

J. Murzski of San Francisco, an importer of Japanese goods, is registered at the Nadeau.

Dr. C. H. Stover, a leading physician of Denver, Colo., and Mrs. Stover, are spending a few days at the Hotel Lankershim. Dr. and Mrs. Stover are both prominent in their home city society.

W. H. Bradford of Portland, Or., registered at the Lankershim yesterday. Mr. Bradford is president of the Warner Lake Irrigation Company, which supplies the city water for Portland.

H. J. Nunnemacher, a prominent Wisconsin capitalist, is registered at the Hotel Lankershim from Milwaukee, Wis.

WORK OF FOOTPADS.

Frank Stephens, a gardener, who said his home was in Hollywood and who claimed to be the victim of footpads, was treated at the Receiving Hospital early yesterday morning. He had several severe cuts on the head, which he said were made by two rob-

ACTORIAL TROUBLE.

"Babes in Toyland" Gets Into Financial Difficulties Through Contortionist's Attachment.

"Babes in Toyland" came near being babes in the woods, on Saturday, through attachments upon the management of the company.

The company has been playing at the Majestic during the week just closed, and though a fair week's business was done here, patronage elsewhere has been of the minimum order, and back salaries are said to have accumulated.

At any rate, the receipts were attached by a contortionist in the company, and his wife, and as a result the organization came near to concluding its engagement before the week's end.

Affairs were adjudicated by Oliver Morosco of the Majestic, however, and percentages allotted straightened up matters temporarily.

The company is here now, temporarily disbanded, but according to W. E. Flack, the manager, reorganization will be effected this week, and an engagement already booked for Salt Lake will be kept.

DEATH OF DR. STARR.

Dr. James Starr, professor of histology at the Los Angeles College of Osteopathy, died of organic heart disease at his residence, No. 1225 West Thirty-sixth street, in the early hours yesterday morning. Dr. Starr, who has held the chair of histology in the college only about a year, was a graduate of the institution. Although the heart trouble was chronic, the final attack was acute. Dr. Starr was 26 years old, and unmarried.

PRACTICE WAS STRENUOUS.

Atlantic Battleship Fleet Finishes Week of Varied Maneuvers at Guantanamo Bay.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON Feb. 13.—The Atlantic battleship fleet at Guantanamo Bay has finished a week of strenuous practice. Rear-Admiral Schroeder, commander-in-chief, in his weekly report to the Bureau of Navigation, says, in addition to the scheduled fleet practice, marine regiments were landed and made practice marches across the country.

The fleet had searchlight drills, mines were laid, torpedo practice was held and admirable records made.

Landing forces from several battleships camped the entire week at Deer Point and had rifle and pistol target practice. Boat crews of all ships in port exercised daily under oars and nature of sin. Adam and Eve were expelled from the Garden of Eden. This is perfectly natural and perfectly reasonable. Sin always leads the sinner in the end to seek to get away from the presence of that which is good. Vileness never feels comfortable in the presence of virtue. This is according to a great law of human nature. It is the law that will settle human destiny.

"Every man shall go to his own place. The sheep shall be separated from the goats because they are unlike in nature. Those who prefer hell will go to the place prepared for the devil and his angels. Those who are fitted by nature for heaven will go to the place prepared for the presence of Jesus Christ and his people.

"Sin will drive us away from God but Jesus Christ can save us from sin and fit us to enjoy the presence of God and the good."

Edith Helena,
who will be heard at Levy's this week.

IMPRESARIO LEVY.

Caterer Will Commence His Series of Concerts Today, Featuring Soprano Edith Helena.

Al Levy's career as an impresario of a café-chantant will commence today in his presentation of Edith Helena and a group of other artists at one afternoon and two evening concerts.

These attractions, which have been mentioned before, include an orchestra directed by J. N. Willey, Miss Helena, lyric soprano; Elsa Ward, a tenor named Carl Bravo, Whistlers Dare and Wolford, and Señor Galgano, harp virtuoso.

A new stage has been built for the orchestra and performers, and their recitals will take place at an afternoon tea to be given at 3 o'clock, an after-dinner concert at 8:30 o'clock, and an after-theater concert, commencing about 10:30.

Miss Helena appeared at the Orpheum some time ago, being billed as a singer of unusual range. She has appeared in opera quite extensively, but claims as her specialty a voice extending through nearly four octaves.

STREET CAR DELIVERY.

Early Newspaper and Passenger Service.

To facilitate an earlier delivery of The Times in the southeastern and southwestern parts of the city, arrangements have been made with the street railway companies by which yellow car starts from The Times Office, corner First and Broadway, at 4 a.m. daily. It runs via Broadway to 12th, to San Pedro, to South Park avenue and Slauson avenue.

An interurban car, running via Hill street to 16th, to Burlington, to Vermont and to Santa Barbara, leaves The Times Office at 1:50 a.m., taking papers to the southwestern section.

THE POLITICAL WATCH TOWER

Never in the history of California politics, at least within the ken of present voters, has there been a campaign so filled with uncertainties as is the one just opening under the direct primary law, which is admitted by those who procured its passage to be full of blowholes. Time was, at this stage of the game, where there could be some reasonable conjecture as to the nominees of the principal parties and of the independent soreheads, but not so now. The wisest old political stagers are very much up in the air as to candidates for the principal offices—Governor and United States Senator, and the new crop of reform organization managers is in exactly the same boat. On one hand they say the winner of the Republican nomination at the August primaries may be Stanton of Los Angeles, Curry of Sacramento and San Francisco, John McNab of Mendocino county, or some dark horse, who has not yet appeared. On the other hand, the Link-Rooster are unable to make out whether it will be former Senator Belshaw or Mayor Mott of Oakland, though in the last few days the sentiment of the local L.-R. brothers seems to be shifting from Mott to Belshaw, possibly of the fact that the latter has a good-sized barrel which he might be induced to tap in the event that he gets the indorsement of the government by goodness committee, which purposes to tie the tag around the neck of somebody—not a collar, understand.

Speaker Stanton's campaign is assuming proportions that have caused the Curry men to come scurrying here from the north. One of them, Senator "Dick" Welch of San Francisco—himself always aligned with the L.-R. crowd, has been making a tour of the southern counties, and he tells me that the outlook is excellent for the present Secretary of State.

Curry started out early, and well, going into the campaign before Gov. Gillett announced his determination not again to be a canidate, and for a time it appeared that everything would be lovely with the tall candidate with the snappy black eyes. He has myriads of friends throughout the State, probably no other man who will run for any office has so extensive an acquaintance; but there have arisen complications within the last few days which have caused him and friends to worry. Threatened with the loss of a tremendous support in the south because of Stanton's candidacy, Curry faces another hard fight in the Sacramento and San Joaquin valleys, because of the entrance upon the scene of Allen Anderson, State Superintendent of Banking, who was Lieutenant-Governor in the Pardee administration.

This has led Curry and his supporters to get busy at both ends of the line, and they probably will have to get busier before they are through with the game. Stanton is making lots of smoke in this end of the State, and it is believed he will start things when he swings up through the central and northern sections. I have heard some L.-R. people remark that Stanton is their second choice and that they will be glad to support him in the event they fail to nominate their man at the primaries. Anderson also of his association for four years with the saintly Pardee.

Something seems to have gone wrong with the Lee Gates candidacy for the United States Senate on the government by goodness ticket. A few days ago he loomed large, and there is no denying the fact that he was a willing Barkis for a job of this dimension, but there isn't quite so much enthusiasm for him as there was a week ago, and I even have heard that the Goo-Goos have switched their affections to Joseph Scott, president of the Chamber of Commerce and of the Los Angeles City Board of Education. Scott is a Republican of very independent tendencies, and he has been making many home runs of late in connection with public affairs, all of which cause the Goo-Goos to look upon him with kindly eye. Pressure is brought to bear by the Simon-pure Republicans now on former Gov. Gage in an effort to induce him to give up his portfolio as Minister to Portugal and to make the race for the Senate. Just how successful this endeavor will be is an enigma at present, but there is hope in the breasts of the eminent lawyer's friends that he will consent to be a candidate. If so, believe me, we shall have a campaign as will be a campaign.

The Goo-Goos are still trying to gold-brick City-Atty. Hewitt, whom they succeeded in persuading against his will to run again for the office he now fills, though it is known to his friends that he sacrificed thousands of dollars a year by taking the job once more. Because of his vote-getting ability, the "by goodness" people want him to run for State Senator in the Thirty-eighth district, against McCartney, the incumbent, who hopes to succeed himself. Hewitt also is mentioned as a possible candidate for the Superior Court, but I doubt if he will try for either of the offices named.

Assemblyman Leeds is an avowed candidate for State Senator in the Thirty-fourth District, a place that Savage of San Pedro has managed to anchor for two terms, but which is slipping from his grasp. The Goo-Goos are trying to persuade former Councilman Wallace to enter the lists against Leeds and Savage, but they have not yet secured his promise.

Assemblymen Barndollar of Long Beach and Cogswell of El Monte are out with petitions for their old places, and practically all other members of the last Legislature, with the exception of Stanton, of course, are said to desire reelection. Brewster Kenyon of Long Beach would like to have Barndollar's old seat, and has his petition in circulation. Both are independents, with L.-R. leanings.

"Jack" Johnston, who has been a deputy under Constable Cohn for the last two years, and who, before that, was in the Sheriff's office, is one of the earliest in the field with a petition for nomination as candidate for Constable. There will be scads of aspirants for the four places that are to be filled.

Northern politicians, who are flocking here, tell me that Surveyor-General Kingsbury of this city is meeting with grand success in that section in his campaign for renomination. Kingsbury, who formerly was City Engineer of Los Angeles, made a great hit at the last session of the Legislature by securing the passage of bills which have effectually put land sharks out of business in California. He made the fight against fierce odds, meeting and overcoming opposition that was backed by heavy capital. His chief opponent in the present campaign is Frank Wright, a Sacramento livery-stable proprietor, son of M. J. Wright

SCIENCE STUDIES.

Discovery of the Dynamo.

The wonderful development of the electrical industry owes its being to a series of historic tests made in August, 1821, by Michael Faraday, when he discovered the principle of the electric dynamo. Previous to Faraday's discoveries the only electricity known in the laboratories was such as could be readily produced on the static machines of rubbing glass with silk, or the weak, though continuous, flow resulting from chemicals acting on copper and zinc or other materials. Electrical experiments were being carried on, however, with these feeble sources of electrical energy, but it was easy to see that electricity would ever remain a scientific toy so long as it took costly chemical batteries of enormous size and great weight to produce a very slight current of electrical energy.

Michael Faraday was born at Newington, near London, September 22, 1791. At the age of twenty-one he received the appointment of assistant in chemistry at the Royal Institute, London, and that same year he became the private secretary of that great scientist and electrical experimenter, Sir Humphrey Davy, touring the continent with him. It was from Davy that Faraday became interested in and took up the study of electricity. After his return to London, Faraday was reappointed to the Royal Institute and there he commenced his great career of investigation and study in the magnetic and electrical field.

That noteworthy August of 1821, Faraday spent ten days performing a series of experiments which led to the discovery of the electric motor—a mechanical device to produce a steady flow of electrical energy of great power. Upon the fifth day he noted that electricity was produced in a copper wire whenever he moved it near a magnet. This proved that electrical energy could be produced by a magnet in motion near a good conductor. The ninth day Davy made a copper disk which could be revolved between the poles of a powerful horseshoe magnet. When this crude machine was set in motion his device for measuring the strength of an electric current showed that electricity was actually being made by mechanical means, a feat then undreamed of in scientific circles.

From this simple little device grew all the giant electric generators of today which supply the people of the world with millions and millions of horse power for the electric railroads, electric motors and a thousand other purposes.

Faraday died in 1867, reaping to the full the honors which were due him for his early investigations and subsequent inventions.—[Cleveland Plain Dealer.

Genius Is Accidental.

Genius is an accident of nature, asserts Prof. Wilhelm Ostwald, who gained last year's Nobel prize for chemistry. The professor has just published a book entitled "Great Men," containing some remarkable theories concerning the underlying biological and psychological principles of eminence in research.

Dr. Ostwald dissects the lives and family history of all the great men of science of modern times, and essays to lay down the general laws under which they attained greatness, and by which they carried on their work. The first question he deals with is: "What are parental, facial, social and other influences under which great men of science are born?"

While affirming emphatically that geniuses are born, Dr. Ostwald denies that genius or great talent is hereditary, and argues that neither the parents nor the brothers and sisters

scientific genius is an accident of ture.

Nearly all great men of scie says Prof. Ostwald, spring from t middle classes, the three notable ceptions, Cavendish, Boyle and J Rayleigh, being noblemen. They rarely spring from the working clas and from this Dr. Ostwald concl that it is necessary for a great of research to start from a cer cultural level; otherwise he w have to waste too much energy on attainment of preliminary knowle The parents of great scientists therefore often men who, without ing geniuses, have taken an inte in science, while not pursuing it a career.—[Washington Post.

A Cactus Gas Plant.

Covering many thousands of a of the arable lands of the west c of Mexico, there is a gigantic cac known as the pitahaya. For it use had been found up to a months ago, and the great g trunks and branches had been allo to lie, after being felled in clea the land, until they were dry enc to burn.

Recently Edward Daniels, a known geologist, carried on a few pie experiments with the dried t and discovered that in addition to taining more heat units than woo coal, the fiber of the pitahaya, properly treated, gives off a which is far superior to ordinary or oil gas for either heating or li ing purposes.

Concerning this tree and the dis eries which he has made, Mr. Dan tells the following:

"When the outer rind of this ca is dry it is found to be largely c posed of resinous matter, from wh a good quality of japan, for use on etc., can be made. The wood is c pact and heavy, like very rich p pine. I found the natives using for light in their campe for torches for night fishing. colonists from California and o States use it in their stoves on acco of its great abnudance and supe heating power. It is best for c fires, being a trifle too rich in p for stoves, but the main trouble in latter use is that the laborers will cut it into small enough pieces. W finely split, a small handful of splinters will make a hotter fire last longer than a stoveful of the pine.—[Detroit News.

Long-Distance Riding.

One of the most remarkable acco plishments in long-distance horseb riding was in the early part of last enturv when Squire Obaldist at Newmarket, Eng., on a wager $5000, was to ride 200 miles within hours. The horses were changed at end of the four-mile circuit, some them being ridden two or three tim and one, Franby, was brought out a fourth mount. The squire had mount and remount each horse f the ground, not using a mount block, so losing time and taking re strain. In spite of this and the grou not being in good condition, the miles were covered in eight hours thirty-nine minutes. About th horses were ridden.—[Indianap News.

Where Women Rule.

Prussy, in the Canton of the Ar dissement of Clermont, is run by wo en, five important officials of the li town being of the sex. The postwom has a hereditary title to the off the mother of Mme. Dauboin hav held it before her. The telegraph of is in charge of Mme. Lesobre. M Jeanne Marchandin takes all photographs, Marie Druhon-Mall

PUBLISHERS OF

Los Angeles Daily Times

Pronounced Loce-AHNG hayl-als.

Vol. 57, No. 72.

Weekly, Sunday Weekly Magazine. Founded Dec. 4, 1881. Twenty-ninth year.

EVERY MORNING IN THE YEAR.

NEWS—Our Associated Press service covers the globe, transmitting over 25,000 words daily, not including specials.

RMS—Daily, Sunday and Magazine, 75 cents a month, $9.00 a year. Daily without Sunday, $7.50 a year; Sunday, $3.50; Magazine, $3.00; Weekly, $1.50.

PHONES—Counting room, Subscription Department, Editorial Rooms, City Editor and Local News Room: Sunset, Main 8200; Home, ask for THE TIMES.

TS—Eastern Agents, Williams & Lawrence, Brunswick Building, 5th Ave and 34th St., New York; 1221 Marquette Building, Chicago; Washington Bureau, 46 Post Building. THE TIMES on file: San Francisco Office, Room 1206 Call Building, R. J. Bidwell, Representative.

UN CIRCULATION:—Daily, net average for 1894, 15,-901; for 1897, 19,258; for 1898, 26,151; for 1899, 25,781; for 1900, 28,723; for 1901, 28,448; for 1902, 30,930; for 1903, 36,548; for 1904, 37,702; for 1905, 42,180; for 1906, 40,501 copies; for 1907, 52,511 copies; for 1908, 52,790 copies; for 1909, 54,954 copies; Sunday average for 1909, 78,122 copies.

TIMES has a far larger bona-fide circulation than any local rival. The industrious, substantial, liberty-loving classes are its steady patrons. The greatest volume of business advertising, the finest display, the best classifications, the largest results to advertisers. Proofs indefinable.

Offices. Times Building, First and Broadway. Branch, 531 South Spring Street.

Entered at the City Postoffice as mail matter of the second class.

Editorial Pen Points

When Col. Roosevelt returns he will find several of his old friends with plenty of time on their hands.

"The Unknown Quantity" is the title of a new novel published this year. We'll bet it is about a man.

Reports indicate that the present winter in the east is the worst that has been experienced for the year.

Everything that we can think of has now been raised for the advanced cost of living, except the years.

A Cleveland man asserts that he has already seen Halley's comet. They have a special brand of liquor in Cleveland.

The new language is called "Ido." Isn't it strange that in this age of inventions there are not more languages?

In this mad rush back to the land the discovery has been made that a man must know something to be a farmer, too.

In Prussia objection has been made by the voters to the secret ballot. The Germans never could see a joke, anyway.

We wish our Chinese neighbors many happy returns—as many New Year's to come as those that have passed, and more.

Corn and wine and milk and honey are the poetical as well as the biblical foods. But, Lord bless you, they cost a lot these times.

It is beside the mark to state that sneak thieves are around. They are always around, only they are a little more active than usual.

A very successful actress of the present day was a stenographer before she went on the stage. It became naturally to her to act.

Count Tolstoy contends that books ought not to be copyrighted. He might go farther and say that most of them ought not to be printed.

The fighting in Nicaragua seems to have lost its rumor since old man Zelaya quit the ensanguined yard or fields, as the case may be.

There can be no doubt that this is an absolutely safe country, otherwise Meyer Lissner could not be induced to aspire to rule California.

Imperial Valley farmers raise an onion which does not make the eyes water or taint the breath. We should say that it must be a mollycoddle onion.

We have a Governor, other State officers, a Legislature, members of Congress and a lot of county officers to elect this year. How can any man escape?

We rejoice to note that the native sons statistics of the various towns, hamlets, townships and rural districts of California are showing a tremendous upturn.

After having thought the matter over, we are convinced that old age pensions would prove a great relief to men who feel compelled to support their parents.

The name of the man who started the Pinchot-Ballinger controversy is Glavis. Make a note of it, so that if he ever runs for office you can get square with him.

The proof that this is an unselfish world is that whenever a man or woman invents a useful, laboring implement he or she immediately takes out a patent on it.

Concurrent with the appearance of Halley's comet there will be numerous displays of shooting stars. Unfortunately, however, this has no reference to theatrical stars.

There will be plenty of eggs for Easter, although few if any hens have been laying all winter. The cracking-houses have not yet got down deeper than the vintage of 1878.

A Philadelphia editor declares that the American people are not swollen with pride. Certainly American men who have been married any length of time are not swollen with pride.

The announcement that five new novels are published every day in this country would seem to indicate that something ought to be done toward the conservation of printer's ink.

Something is being made in the papers of the fact that a Boston girl has caused a naval officer to be court-martialed. As though she were the first girl who caused trouble of that kind.

There is a stiff opposition to conferring the title of rear-admiral on Peary. The main objection is that Peary does not seem to have been in any kind of a fight where somebody was killed.

The fact is that the stomach is as well appeased by one thing as another. It asks only to be filled. Then why should any man be distressed by the price of meat and eggs? Is there not plenty of alfalfa.

A man named Stern has gone insane because he bears a resemblance to King Edward so striking that he was frequently taken for His Majesty. A smart man would have lived well from the same dilemma.

Every man ought to read Gen. Washington's farewell address on the anniversary of the birth of our country's father. It is not only a fine address, but the general meant it and lived up to it. It was not

THE Y.M.C.A. CAMPAIGN.

The belief of the people of Los Angeles in the Young Men's Christian Association, and their confidence in the men who have it in charge, with President Letts at their head, has verification in the magnificent building standing on South Hope street.

Los Angeles has some splendid commercial organizations, whose sole purpose is the successful upbuilding of the city, from a commercial standpoint. Their influence is unquestioned, and to them every enterprising citizen is ready to doff his hat.

There are in our city many great business enterprises, giving employment to large numbers of men, whose importance to the community is to be judged by the massive buildings they occupy, just as an artisan may sometimes be judged by the tools he uses. One naturally looks to these great establishments, with their fine equipment, for a finished product, and he rarely asks to "be shown."

The Young Men's Christian Association building is sometimes referred to as a "character factory," and General Secretary Luther takes special delight in emphasizing that thought. Commercial greatness is of the utmost importance to the city; fine buildings are the pride of her streets; that the products of her factories shall be the best is the desire of all; but how vastly more important it is that her men shall be men of character; that honesty, sincerity and the better things of life shall dominate them at all times!

The avowed object of the association is to attempt to produce this class of citizens, as opposed to the products of the saloon, the gambling house and places of questionable amusement.

When you know the men who direct its movements here in Los Angeles, you look at the towering ten-story structure; its splendid physical and educational equipment; its social advantages for the homeless young fellow; when you believe in the sincere motive behind it all, you intuitively feel that the quality of the product from this character factory is the best possible, in each individual case, according to the quality of the raw material offered.

D. E. Luther, general secretary, under whose inspirational leadership the half-million dollars was raised to erect the building on Hope street, and his executive assistant, C. F. Quillian, together with the other assistant secretaries, have the thorough confidence of the citizens of Los Angeles. Under their direction the membership has increased rapidly, being now about 3500, and tonight a campaign will be inauguarted to bring, if possible, the number up to 5000 in a single week.

With the cooperation of the stirring men of the city, the task should not be difficult. The money for the erection of the building was raised in thirty days, and following this, 800 members were secured in one week. With the new equipment, a much larger membership, new enthusiasm and a more general interest, the desired number of members will no doubt be secured.

NEED OF CAUTIOUS ACTION.

The most pressing question at Washington at present is the prosecution of "trusts" charged with violation of the various new laws against combinations in business which will result in restraint of trade, which may too rapidly enrich the stockholders in the "trust" at the expense of the people. The executive branch of the government and the legislative are in fairly good accord in their views. Mr. Taft has by his tact and conciliatory ways brought about an understanding between the most radical half of the populized insurgents and the most conservative of the stand-patters in his own party.

But now the vexed question must go up to the Supreme Court of the United States. This branch of the government is the most conservative of all. The Senate is radical compared with the Supreme Court. The House of Representatives is very responsive to popular opinion, for the reason that its members must be elected or reelected every two years. The Senate is moderately responsive to public opinion for the reason that one-third of this body has to be elected, not directly by the people, but still in response to public opinion, every two years. When we strike the Supreme Court of the United States we are against a wall of adamant. Politics is the mainspring in the House of Representatives, is a powerful influence in the Senate, but is "a dead one" when it goes before that august body of men who sit upon the bench of the Supreme Court. There are men here whose appointment to office dates back nearly thirty years. There is scarcely one of them who owes his place to the President now in office, and very few of later date than the McKinley term of office. They are old-school Democrats and old-school Republicans in politics, but first and foremost they are constitutional lawyers. They are men of vast learning in the law. They are statesmen in almost every instance. They owe nothing to the people, and are independent absolutely in the exercise of their office. Every decision they reach will be one based on cold law and fact.

In the popular branch of the government and less so in the Senate, and a little bit with the President, the political aspect of these affairs rises up to create anxiety in some cases, sleepless nights in others. Party pledges, platforms and what not, the will of the people, the outgivings of the daily press, and everything that partakes of public opinion appeal very strongly to such persons in direct proportion to the politics they do. In many cases it is not the individual's fate that causes this anxiety. Party loyalty and the success of the party make very strong appeals to very good men.

Whatever the decision of the Supreme Court may be, it will be vain "to kick against the pricks." Whether we will or not we must absolutely bow before the decision of this august court. That the judges who sit upon that bench are as patriotic as any similar body of men that could be picked out of the whole 90,000,000 of our population we make bold to assert. Party politics will weigh no particle with them. Public opinion will not influence them. Their decision will be law, and in our opinion it will be substantial justice. We say this because of our confidence in the full integrity of the Constitution of the United States. Anyhow, if anything is wrong in the decision of the Supreme Court the wrong will rest upon the fundamental law and not upon the judges.

Now the question arises, What is due to party fealty? And we answer without a moment's hesitation, To do that which is right. Suppose the Republican party has to face a hostile public opinion throughout the country next fall. What of it? Absolutely nothing, provided the party is right. If the party has made pledges and tried to keep them, but the pledges were not wisely made and are impossible to keep, that ends the matter. The people may "rage and swell" today as they did of old, but the American people are too just as well as too intelligent to hold the party long responsible for not doing what is impossible.

Sometimes the best thing that can happen to a party is to go out of power for a little while, and sometimes the worst thing that can happen to the people is to let them have their own way. We Americans went wrong (that is a small majority of us, just enough to do the mischief) in 1892, but we recovered our senses by 1896, and the Cleveland administration, with all the blunders the Democratic party made in that one term of absolute control of the Federal government in half a century was driving the last nail in the coffin of Democracy. The Democratic party died in the last Cleveland administration, never to rise again. The so-called Democratic party of today is not Democratic. The party, defeated and disgraced by its own acts in the Cleveland administration, had to ally itself

LETTER GO!

of the country in order to make any showing whatever in 1896, and it has been kept there ever since. The Democratic party never can return to life. It is as dead as Adam's off ox and as impossible of resurrection as Julius Caesar's ghost. The fight henceforth in America is between Republicanism and Populism. The Democratic party destroyed itself by one term of complete control of the Federal government, never to rise again, and if Populism ever gets its clutches on the whole government of the United States, four years of such wild legislation as will characterize its course will end its days more disastrously and completely than Prof. Wilson did for the old Democratic body.

In politics as in everything else the motto that wins is: "Be just and fear not. Be sure you are right, and then go ahead." Let us recall the inspired words of James A. Garfield on the streets of New York the morning after Mr. Lincoln was assassinated: "God still reigns and the government at Washington still lives." Let us not forget that, and the government at Washington under the reign of the Almighty will be for many years the Republican party, if it is only true to its own instincts and traditions.

"GOVERNMENT BY GOODNESS."

We are governed in Los Angeles, in the present year of grace, by a set of cold (but of course not calculating) gentlemen, who are so icily good that butter won't melt in their mouths—unless Lissner tells it to.

These psalm-singing and rather talkative good men are, we are assured by themselves, more holy than any others in the United States. They would have us believe that of such is the kingdom of heaven, but we beg leave to doubt it.

However, that's a mere by the way. What we want to get at is this—do these great and awfully good men, entrusted with the city government, see that the laws are carried out?

We know, of course, that they are amply able to get along without a Chief of Police. They got rid of a man who wouldn't do their dirty politics and now they have as acting Chief one who spurns first honors under their administration. But we haven't observed that crime has decreased since these honorable men chattered their way into office. There are undoubtedly more silk socks around the City Hall, but the number of prisoners who pass through the City Jail shows no falling off.

It is a painful fact, but nevertheless true, that the criminal seems to flourish like the green bay tree whenever a Goo-Goo government takes office. The Times, if only from a news point of view, would be glad to "point with pride" to some really beneficial act on the part of the most alarmingly holy administration which now does the celebrated act of "guiding our destinies." But with all the good intentions in the world, and after diligent examination of the record, so far, of the Goo-Goos, we are tearfully obliged to say that we cannot find anything upon which to base that praise which we so earnestly hoped the followers of the reformed rebater would compel us to bestow upon them.

We are indeed tremendously sorry for ourselves. Here we have been waiting with keen expectation for the carrying out of the promises of the Goo-Goos. We had anticipated, from their preelection pledges, that they would make this city as sinless as one of the courts of heaven, that they would remove all evil, that they would make this in fact a city so morally clean that the rest of the country would be simply overwhelmed with admiration.

"Turn the rascals out; put in the good men," was the cry previous to November. And all the good men were puffed up daily in the twilight twinkler, their virtues were writ in ink and what they were going to do was told in miles of rather wearisome prose.

So far, however, they haven't done a good thing worth mentioning and the people still go on in the same old way. There is marriage and divorce, there is robbery, women still ply an ancient trade, girls are still ruined in cafés and dance halls, men drink as much now as then and the chain gang is still carted about our streets, which are just as dirty as they used to be under the old administration.

Of course they will say they haven't had time yet to make an impression. Huh! They will make the same excuse when they are kicked out of office by a disgusted people at the first opportunity.

Rhode Island has passed a law compelling all persons intending marriage to publish the fact fifteen days in advance of the ceremony. But Rhode Island is so small that it will be easy to cross the line and get married in another State.

There are lots of men who will spend their whole lives in an effort to find out all there is to be known in a secret society, yet who cannot be induced to spend an hour learning a half-dosen of the secrets of nature.

Last year Mr. Bryan and Senator Beveridge carried on a debate in one of the magazines. We will give a prize of one day's subscription to any one who can tell the name of the magazine or what the

BUSINESS OUTLOOK.

As spring approaches the business prospect opens and becomes of the greatest interest to all.

The most notable feature is the active demand for money. There is not an idle dollar in the United States. Weekly bank clearings for the country are running to three and a half and three and three-quarters of a billion. This is about 40 to 50 per cent. more than in the depressed days a year ago. This demand for cash is not for speculative stock deals, for in these the market is dull, but for more substantial business purposes. The building trades are active, and so are most industries, except a little halting in crude iron.

The movement of cereals from North America lags behind the figures for last year, corn showing an enormous falling off. Thirty-two weeks of the crop year are passed and the exports of corn are only one-third of last season's to date. With a deficit of 12,000,000 bushels the balance of trade in our behalf is set back quite a bit for this account.

The farther west the eye roams, the brighter appears the business outlook. Merchants are busy, money is in great demand, and mining and all industries are moving at a good pace. All through the West railroads are going forward with many extensions and planning others. These roads of the West are doing a great deal of work in rebuilding hundreds of miles of old lines. The time has come for double-tracking the trunk lines of the West. The late E. H. Harriman set the pace on the Union Pacific ten years ago, and the policy is in active exploitation by the Santa Fé at this time. The Southern Pacific is to take the work up in the San Joaquin Valley at once. This means first that the West is growing in population and that business is keeping pace with this growth. It means in the second place that the expenditure of so much money will keep growth continually forward in population and business.

The Federal Congress has been very kind to the West and nowhere more generous than in California. The harbors which are now a part of Los Angeles get $378,000, San Diego $125,000 and the great Sacramento River $400,000.

For our harbors the city is about to spend a few millions, and we are going right on with the aqueduct. The county will spend a good slice of the big sum voted for roads this year.

Real estate is active in this section. The number of deeds recorded is back to an average of 200 a day, which is about the full record of active times in the past. Many of these sales are to newcomers, and mean additional capital for the section. We need this, for the demand for money is always very active. For ordinary purposes the interest rate is fully 7 per cent.

The steady progress of the city is manifested in the business done at the postoffice as well as elsewhere. In the actual cash receipts for January Los Angeles stood eighteenth among all the cities of the country, and only three reported a greater increase in business for the month as compared with last year.

For the whole country the indications point to a satisfactory business for 1910; for the whole West the promise is very good, and here at home prospects never were so bright. We have been assuring our readers for months past that the year would be one of the best ever known here, and the promise is being fulfilled.

A Valentine.

All things are here to make the season sweet;
The rush of pure, keen air through pale, clear skies,
The scent of shower-soaked earth beneath our feet,
Where frail green shafts from winter sleep arise;
And shall your heart not waken, nor your eyes
Look into mine, and grant what mine entreat?

What more can Love desire than to belong
To this first hour when faintly flushing spring,
Born but today, is yet so fair and strong
That she can set life's pulses quickening?
And shall your soul not listen while I sing,
Learning Love's springtime lesson from thy song?
—[London World.

Living Comes High.

[From the Philadelphia Public Ledger.]

"An operation will cost you $500."
"And is it absolutely necessary?"
"You can't live without it."
"Say, Doc, the high cost of living can't all be blamed on the tariff, can it?"

Air Diet Threatened.

Bread brings dyspepsia, meat is dear
And sugar is a snare;
So, orchidlike, ere long I fear
I'll have to live on air!
—[Washington, D. C., Star.

Some of the art treasures in Paris may have been damaged by the flood, but it is believed the absinthe, being tightly corked, escaped intact.—[Kansas City Star.

The Indiana man who lived to the age of 105 must have met many authors on the highway to

...and very well-... ... of the return of Tom ... the happy de...

...gives another ... principal ... as well. ... call ... This ... Perkins, ... Kirby. His sutdy is altogether out of the ordinary.

Mr. Burton as Larkin Bunce, is unusually well disposed, and, after McKee Rankin, it is indeed hard to name a worthier man for the part than Burton—anywhere.

Mr. Landau gives a brief though vivid and forceful portrait of Tom Randall.

Miss Nordstrom acts with energy and womanly instincts the role of Adele Randall.

Little Ollie Walters is artlessly charming and unusually intelligent as "The General."

Alice Lovell Taylor, Louise Royce, Ethel von Waldron, Harry Mestayer, Henry Stockbridge, H. S. Duffield, David M. Hartford and Willis Marks have the other roles of worth and depict them with their usual care.

"Florodora," which has served Ferris Hartman and his associates so successfully for the week past, opened its second week at the Grand Opera House yesterday and was received with the same amount of appreciative applause. The only change in the cast for the second week was the appearance of James Campbell, who succeeds Walter Catlett in the part of Cyrus Gillain, owner of the "Island of Florodora." The sextette number continues to receive encores, while the voting contest for the most popular couple appearing in this number increases in interest. Following the result of yesterday's vote Lillian Leighton and William Epperley are leading Carmen Phillips and Will Harrod by a very small margin. The contest will continue until the close of the last performance of "Florodora" Saturday night.

This morning the company will resume rehearsals for "When Johnny Comes Marching Home."

Leo Cooper will head the new bill opening at the Los Angeles Theater this afternoon, in the one-act sketch, "The Operator." Mr. Cooper is one of the best-known character actors on the Pacific Coast, for several seasons

Coulter Dry Goods Co.

appearance in this city was in the "Price of Power," which he presented at the Los Angeles Theater several months ago.

"The Man of the Hour," George Broadhurst's play of love and American politics, at the Belasco opens tonight for the third week of its run. The Belasco has had many runs, such as "The Dollar Mark" and others, but never before has any play made the attendance record that has been set by the first two weeks' attendance to "The Man of the Hour." The third week will find no changes in the cast, Lewis S. Stone remaining in the role of Alwyn Bennett, the young Mayor, with Thais Magrane still playing the part of Dallas Wainright.

Marie Cahill and her company will be seen at the Mason Operahouse tonight in "The Boys and Betty." Silvio Hein, composer of the music, will direct the orchestra.

The new Lambardi company will occupy the Mason stage next week in grand opera repertoire, opening Monday night in "La Gioconda," the cast including Mmes. Bosettia and Frau and Signori Maurini, Maggi and Sabellico.

MORE BODIES RECOVERED.

PRIMERO (Colo.) Feb. 13.—Three more bodies were recovered from the main Primero mine today, making sixty-five taken out since the explosion, on January 31. One body was identified as that of David Williams, Welsh mine boss. Workmen say more bodies will be recovered tomorrow.

SANTA CLARA VIEWS COMET.

SAN JOSE, Feb. 13.—Halley's comet was observed tonight at Santa Clara College meteorological observatory with the aid of an 8-inch equatorial. The comet is well along in the constellation of the fishes and will soon become an "evening star." The tail is described as being made of a "whitish substance," in bulletins from the college.

SSIONARY MOVEMENT.

eting of the Pasadena branch layman's missionary movement d late yesterday afternoon at st Baptist Church. It was at- by fifty members of the gen- mittee appointed from the va- hurches of Pasadena to take the convention which will be Los Angeles in March. A com- consisting of Robert Strong, Parker and Ira G. H. Sykes pointed to call on the ministers range for a series of meetings interest of the movement. H. ter was elected secretary of the to help Prof. Hamilton.

FOR BOSTON GUESTS.

nd Mrs. O. C. Hatch of Oakland entertained at dinner at the ala Country Club Saturday in honor of Col. and Mrs. Greenleaf of Boston, who are g the winter at the Hotel Other guests were Mr. and nnison of New Bedford, Mass., r. and Mrs. Henry Merrill of na, who formerly lived at Lit- N. H.

Harlow Bailey of San Rafael entertained Saturday after- a Valentine luncheon in honor daughters, Miss Dorothy and e Bailey. Those present were Brown, Isabel Wilson, Phila Theodora Robbins, Elizabeth Jane Stimson, Marjorie Fleming na Peterson.

Rudolph Schiffmann, accompa- his son-in-law, J. A. McLeod, other-in-law, C. L. Phillips of l, Minn., left yesterday for a Manila, where Dr. Schiffmann tensive interests. They will be out three months.

PATRIOTIC DANCE.

Minnie Haase and Miss Ander- Throop gave a delightful dance Shakespeare Clubhouse Satur- day night in honor of Lincoln's birthday. The decorations were patriotic colors. The guests were all Throop students.

Mr. and Mrs. David P. Ward gave a reception in honor of their twenty-fifth wedding anniversary at the home of Mr. and Mrs. Charles Edwards, No. 516 North Fair Oaks avenue, Saturday night. The house was profusely decorated with roses and ferns. Mr. and Mrs. Ward stood at the head of the receiving line underneath two great hearts pierced with an arrow. Those who assisted were Rev. Dr. and Mrs. Albert Hatcher Smith, Mr. and Mrs. Ira J. R. Sykes, Mmes. Melvin, Bourtelle, Shelton and Root. Mr. and Mrs. Ward were married at Vermilion, S. D., and later moved to Sioux Falls. They have lived in Pasadena for twelve years. There were 250 guests.

OLD TIMERS' MEETING.

The old timers of Pasadena and Southern California are making great preparations for a meeting on March 1 at the Shakespeare Club. Invitations are being sent out to every old timer in the San Gabriel Valley. Charles Bell and W. B. Clapp have the programme in charge and promise some interesting innovations in the way of entertainment.

The former residents of Carroll county, Illinois, will hold a basket picnic at Grand Army Hall, Wednesday.

Dr. Daniel F. Fox, pastor of the First Congregational Church, will deliver a lecture in the church auditorium on Thursday night on the subject, "A Neglected Cavalier."

The Throop baseball team and the Raymond Hotel team crossed bats Saturday afternoon on the latter's grounds. The score was 14 to 7 in favor of Throop.

HOTEL ARRIVALS.

Green: Col. and Mrs. John Lambert of Chicago, accompanied by Mr. and Mrs. D. H. Conkling and Miss G. Spear arrived at the Green last night and will spend several weeks in Pasadena. Col. Lambert is a prominent financier and a partner of John W. Gates. He states that his trip to Pasadena is merely for pleasure to get away from the miserable weather they are having in Chicago this winter. Other arrivals are Mrs. Frank Von Dersmith of New York and Mrs. L. M. Cheshire of San José.

Raymond: W. C. J. Doolittle, Utica, N. Y.; Mrs. Thomas Garrett, Seattle; Mr. and Mrs. C. T. Church, New York; Mr. and Mrs. I. W. Swabacker, Chicago; Mrs. G. F. Swift, Miss Anthony, Harold Swift, Barbara Everos, Chicago; Mr. and Mrs. F. C. Bunnell, Philadelphia; Mrs. W. P. Robertson and Mrs. Grace Camden, New York. Mrs. William McMillen and Mrs. Chadburn of St. Louis arrived late last night.

Maryland: Mrs. E. J. Frankenheim and Miss Dorothy Frankenheim and Mrs. E. W. Heyl, Pittsburgh; Dr. and Mrs. Henry L. Eisner, Syracuse, N. Y.

NOT FOR TROPICO.

Relative to the report from Tropico that the Cudahy Packing Company has bought a tract of twenty-five acres there for the purpose of building a large packing plant, Michael Cudahy was seen last night at his home in Pasadena. "We have made no purchase of land at or near Tropico," said Mr. Cudahy. "We have only one piece of land, and that is the Cudahy Ranch south of Los Angeles. We are not contemplating buying any more land anywhere at the present time."

DEVOTE DAY TO LINCOLN.

Churches at Pomona Hold Special Services—Trolley Construction Work to Go Ahead.

POMONA, Feb. 13.—The entire day at the First Methodist Church was given over to services commemorative of Lincoln's birthday. At the morning service Rev. L. D. Van Arnam spoke of modern conditions among the people freed under Mr. Lincoln. This evening a symposium lecture was given as follows: "Lincoln—a Sketch; Lincoln—the Ideal Statesman; Lincoln—Lesson to the Youth of America; Lincoln—Prevalence in a Nation's Crises." Appropriate patriotic music was rendered by the choir. At Pilgrim Congregational Church, Rev. Albert P. Davis addressed a large audience on the subject, "Lincoln's Enduring Memory." The members of Vicksburg Post, G. A.R., the Women's Relief Corps and the Boys' Brigade attended.

It is thought that by the first of next month the work of constructing the Bassett section of the El Monte-Pomona road will go forward with rapidity. There will be fifty-one bridges and culverts along this roadway, and 46,000 tons of crushed rock will be used.

The new grade school building on North Garey avenue will be the largest in the city when completed in August. The design is semi-classic and the dimensions are 154x115 feet. There will be a main section flanked by two pavilions. The first floor will contain a large classroom, sloyd, finishing and stock rooms, principal's office and teachers' rest rooms. In the south pavilion will be two kindergartens, luncheon and cloakrooms, and the north pavilion will have the domestic science rooms equipped with lockers, sewing tables, cooking tables and gas stoves. The second floor will contain classrooms and one for recitations, a library, toilets and rest rooms. In the large basement will be a complete heating and ventilating system. Robert H. Orr of this city is the architect.

A party of tourists, friends of Geo. W. Stone and family, just returned from a trip around the world with the latter, is registered at the Pomona Tavern. It includes Dr. and Mrs. Cummings of Cape Cod, Mass.; Dr. Barton and Miss Barton of Rome, N. Y.; Mr. and Mrs. Berrick of Buffalo, Mr. and Mrs. Waterhouse of Wollaston, Mass.; Miss Gertrude Levens of Glen Falls, N. Y. Yesterday all the visitors, with G. W. Stone and family, C. M. Stone and family, J. P. Storrs and family, Mr. and Mrs. C. E. Walker, and Mr. and Mrs. F. L. Thomas, enjoyed a picnic in Stoddard's Cañon.

CLAREMONT.

CLAREMONT, Feb. 13.—For the sake of stealing a small revolver worth $2, a hobo this morning smashed the plate-glass window of the Bennett Hardware store, inflicting damage of $25.

Complaint is made that the authorities are too lenient to tramps and that the hospitable people of this region treat the wanderers so well that this place is becoming known as the "hobo' paradise." Not a tramp has been arrested this winter and the place has been full of 'em, so much so in fact that it is unsafe for a woman to venture into the business part of town, alone after dark.

LONG BEACH.

DEVIL'S GATE RAISES CAIN.

DEMAND FOR PIER CAUSES THE COUNCIL MUCH CONCERN.

Belmont Heights Citizens Will Be Asked to Kindly Moderate Their Demands in This Direction and Accept a Thirty Thousand Dollar Plum—Warm Sunday by Sea.

LONG BEACH, Feb. 13.—The demand of the residents of that part of the city formerly known as Belmont Heights for a pier at Devil's Gate is giving the City Council no little concern. When the section relinquished its rights as a sixth class city and became a part of Long Beach, one of its first claims on its taxes was for a fishing pier. In order to keep the people satisfied it was tacitly promised that this would be forthcoming out of money saved in constructing the municipal wharf and that their tax money could thus be saved for road work and lights. Then the city began a movement for a bond issue for permanent improvements of the big pier at the foot of Pine avenue, and Belmonters saw their opportunity. "While you are calling a bond issue for the old pier repairs," they said, "you might as well incorporate an additional provision for a $75,000 pier at Devil's Gate." The Council does not want to incur so much indebtedness, but faces the alternative of having the bond issue for repairs jeopardized. If it ignores the Belmont demand it fears a retaliatory vote, and it requires a two-thirds vote on a bond issue.

Councilman Gridley, superintendent of the North American Dredging Company, and an authority on piers, says a concrete one, 800 or 1000 feet long, can be built for $30,000 or $40,000. The Council has instructed the city engineer to prepare estimates along this line, to be presented to a meeting of the Belmont citizens at the Auditorium, Thursday evening. It is hoped the suburbanites will see the embarrassing situation of the solons and agree to accept the plum offered. Incidentally the Council has also reduced its proposed bond issue for repairs from $100,000 to $75,000, which will make the total $115,000. This, it is thought, can be carried, as the bonded indebtedness is less than one-third of what the city is entitled to carry under the law.

LIBRARY ASSOCIATION.

Cards are being sent to public librarians throughout the State by Miss Ellis, city librarian, telling of the California Library Institute and annual State Library Association meeting in Long Beach, April 11 to 27. Replies will indicate the probable attendance.

The local charter of Native Sons have installed as officers A. L. Lingren, president; A. McCrary, W. B. Schweitzer, W. D. Vandecar, vice-presidents; Dr. T. J. Cummins, marshal; E. W. Oliver, secretary; Elmer Malcom, treasurer; H. D. Wilson, trustee.

Old soldiers of the Civil War, of both sides, have organized a Veterans' Social Club, and will hold weekly meetings in the sun parlor of the wharf. Officers are W. W. Kendall, president; E. B. Spooner, secretary. About 100 signed the charter roll.

CANADIAN PICNIC.

The annual picnic of former Canadian residents and those who are wintering in Southern California will be held here on Washington's birthday. It is expected that several hundred will be present.

The pleasant weather today brought thousands to the beach. The pike concessions did a good business, the boats carried hundreds to the breakwater and on fishing trips and many people took dips in the surf.

NOT THE MAN.

George W. Woodruff, No. 7021 Princeton avenue, Chicago, has written to Postmaster Hirsch, to ascertain whether Dr. W. L. Woodruff, who died here suddenly a week ago, was not a nephew of whom he lost track many years ago. In his letter he states that his nephew would be about 60 years of age, and was a Civil War veteran, and afterward a preacher, with a tendency toward medicine. Mrs. Woodruff, the widow, says that her late husband was not the man referred to.

The project ao construct a steel pier at the foot of American avenue has been revived. Col. W. J. Horne says he will start a subscription paper at $1000, and is willing to guarantee many thousands more by a personal canvass, if the city will aid.

WANT TO BE ANNEXED.

People west and north are clamoring for their districts to be annexed. At a meeting last night at the Burnett school, the Mayor and members of the Council were present to tell what could be expected in the way of fire and police protection, lights and road work. A straw vote taken showed an overwhelming majority in favor of annexation, and an election will probably be ordered.

The first of the interclass debates at the High School was won Friday night by the juniors, who defeated the seniors by 32 points. The juniors had the negative of the question that the United States should own and control the railroads.

Mrs. Anna Steele, proprietress of a local rooming house, died Friday night at a local hospital.

HARBOR TO BE SURVEYED.

The Long Beach inner harbor, built and developed by private capital, and on which $1,000,000 has already been spent, has been formally recognized by the government. The Rivers and Harbor Bill, as reported in the morning dispatches, showed no provision for a survey of the Long Beach Harbor, as had been personally promised by Congressman Alexander of New York, chairman of the committee. A personal telegram sent to Congressman McLachlan by P. C. Roberts, brought a reply that the bill does provide for a survey. The money involved is insignificant, but it means official recognition of the waterway, and suggests great possibilities for the city in the certainty of Federal aid for future necessary development.

CARELESS THROWING.

During the track meet of Long Beach vs. U.S.C. Preps., yesterday, at the High School campus, a hammer carelessly thrown toward the spectators struck P. T. Gregory, a traveling salesman, breaking his left leg below the knee. Two weeks ago a shot similarly thrown almost brained a high school student.

By a score of 38 to 7, the Long Beach basketball girl champions for the fourth successive season won the championship of their section of the County League, and hope to make a clean sweep by winning the semi-finals and finals of the league, making a clean score of victories for the year. Their opponents yesterday were the U.S.C. Preps.

Postmaster Hirsch has received orders from the Postoffice Department to begin weighing the mails next Thursday, continuing for seven days.

The Illinois Society of Long Beach was reorganized yesterday, about 100 members attending the picnic at the Sun Parlor. Addresses were made by D. M. Hammack and J. L. Dryden of Los Angeles.

Times' Cook Book, No. 3, latest edition. Largest, most elaborate and comprehensive cook book of the series issued by The Times. The 318 recipes for hot Spanish and Mexican dishes and the hygiene department are big features of the publication. The recipes brought out by The Times prize-cooking contest are generally from Southern California housewives and noted chefs. Price 30 cents; by mail 5 cents additional. Address The Times, Los Angeles.

GOOD-BY TO MEASLES.

South Pasadena Schools Will Reopen Today, the Epidemic Being Considered as Past.

SOUTH PASADENA, Feb. 13.—The Board of Health, after consultation with the School Board, has decided to allow all the schools to reopen tomorrow morning. They were closed one week on account of measles.

South Pasadena will have three registration clerks this year, one for each of the voting precincts. The appointments made by the Supervisors are: First Precinct, D. F. Hirshler, No. 1021 Sycamore avenue; Second Precinct, William H. Lowry, No. 1140 Diamond avenue; Third Precinct, John F. Crossley, No. 1308 Diamond avenue. It is necessary that every citizen who desires to cast his vote at the State and county elections next fall register anew this year, as a new Great Register opens every two years, and the one now in effect will close automatically forty days before the next general election. This city will have a voting strength this year of approximately 1000, and will therefore be an important factor in the county campaign.

"PLATFORM MEETING."

A platform meeting with several speakers on "World-Wide Views in the Problem of the Kingdom" was held at the Presbyterian Church this evening. William Hazlitt took as his subject "The Church Member's Relation to the World-Wide Problem;" Rev. Charles M. Fisher, the pastor, spoke on "The Student Volunteer Movement—Its Inception." P. A. Dodson and Watson Burt also delivered addresses.

The funeral services of Burnell Marion Franklin, son of Mr. and Mrs. L. D. Franklin, No. 1008 Fair Oaks avenue, who died at Needles of tuberculosis Friday, aged 23, will be held tomorrow afternoon at the undertaking parlors of Turner, Stevens & Berry, on Mission street at 3 o'clock. Rev. J. Harvey Deere of the Baptist Church officiating. Interment will be at Mountain View. Mr. Franklin was formerly in the real estate business in this city, but at the time of his marriage to Miss Grace Mitchell moved to Burbank. He leaves a widow, two small children, two sisters and two brothers.

Mrs. T. W. Witte died at her home, No. 1011 Meridian avenue, of tuberculosis, yesterday. She leaves a widower, one son, two brothers and two sisters. Arrangements for the funeral will not be made until eastern relatives are heard from.

"MAKES GOOD VOYAGE."

Captain of Windjammer Thus Describes Hazardous Passage from Ballard to San Pedro.

SAN PEDRO, Feb. 13.—In spite of adverse winds, heavy seas and hard luck, the schooner Robert R. Hind, Capt. Wikander, arriving this morning from Ballard made a good voyage, being out but fifteen days from Puget Sound. After leaving Ballard, the Hind was driven on the beach at Useless Bay, but was pulled off with tugs, undamaged. Resuming her voyage, when she was out two days and just after passing Cape Flattery, she encountered a terrific gale. Her rudder-stock was broken and for twenty-four hours she was helpless and at the mercy of the storm, narrowly escaping destruction by being driven ashore. The damaged steering gear was finally repaired by using chain deck lashings, and Capt. Wikander steered the windjammer all the way to San Pedro with a crippled rudder.

BIG TRADE WITH MEXICO.

The Canadian-Mexican Steamship Co.'s steamer Georgia, flying the British flag, which arrived Friday night from Victoria, B. C., passed quarantine this morning and was berthed at the Crescent wharf. After discharging 500 tons of fertilizer, she cleared for Salinas Cruz, via Guaymas, Masaltan and San Blas, with a cargo of general merchandise. The Georgia is a vessel of 1777 tons net, and is under command of Capt. Whittle. She and her little sister ship, the Lonsdale, are subsidized by the Canadian government and maintain a monthly schedule between Victoria and West Mexican and Central American ports. San Pedro is the only American port of call. The Georgia's cargo consists of 1000 tons of coal, Alberta wheat, lumber and salmon. The Lonsdale is now bound north from Salinas Cruz, and way ports with 2300 tons of freight, of which 1300 tons is for Eastern Canadian shipment.

Capt. Whittle states that trade between British Columbia and the Latin-American republics is constantly growing and that both vessels operated by his company have more business than they can handle. The company would be glad to make San Pedro a port of call, north-bound, if any business could be secured. Arrangements have been made to place two large modern steamers in the trade and these will arrive from England in June, at which time the Lonsdale and Georgia will be retired and sent to Europe.

GOVERNOR TRANSFORMED.

When the Pacific Coast Company's liner Governor arrives here next week, her old friends will hardly recognize her. She has been in the hands of a large number of mechanics and has undergone almost a complete transformation in the matter of alterations and additions to her passenger facilities.

All parts of the vessel have been painted and varnished, more deckhouse has been provided and a house has been added to the bridge deck, which will make things more comfortable for the officers. It is now possible for the liner to carry fifty more salon passengers than formerly. Her sister ship, the President, will be taken out of commission and receive similar alterations.

While it is often impossible to prevent an accident, it is never impossible to be prepared—it is not beyond any one's purse. Invest 25 cents in a bottle of Chamberlain's Liniment and you are prepared for sprains, bruises and

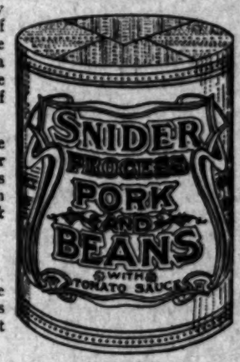
Can Laugh At High Meat

When you know that

Snider Pork & Beans

Contain over three times the percentage of nutriment and cost only about one-third as much as meat.

The exclusive "Snider-Process" takes out the waste material—eliminates the gas-forming element of home-cooked beans, so distressing to many persons.



Snider Pork & Beans comply with all Pure Food Laws of the world—are ready to serve from the can, hot or cold—a delicious food that can be served often for any meal of the day.

The same unapproachable quality that has made Snider Tomtao Catsup the world's standard of excellence, is in every can of Snider Pork & Beans.

"It's the Process."

Buy a can for a trial—make your own comparisons—it's money back from grocer if not satisfied.

There Is No Advance in Price of Snider Pork & Beans.

"The Mark of Guaranteed Quality."

The T. A. Snider Preserve Co., Cincinnati, Ohio.

Special Sales ON Newly Imported Goods

We have just received a complete line of Japanese porcelains. All positively best patterns, best shapes, and various prices:

Tea	Sets (17 Pcs.)	95c and Up
Chocolate	Sets (14 Pcs.)	90c and Up
Berry	Sets (7 Pcs.)	55c and Up

BEATS WESTON.

WALKS MANY MILES ACROSS DESERT AND MOUNTAINS.

REDLANDS, Feb. 12.—Harry J. Phillips concluded a walk of thirty-five miles across mountains and desert this morning, made because he was the victim of a singular accident with a 45-90 Winchester, which was accidentally discharged, killing both his horses.

Phillips left Beaumont two weeks ago by team on a prospecting trip. All went well until Friday afternoon. He had camped for the afternoon by Wells's Spring, and having staked out his horses, sat down to clean his rifle. Not knowing the weapon was loaded, he sighted it on the horses, which stood fifteen feet distant. He murmured, "What a pot shot for two," and pulling the trigger was horrified at the report which followed, his two animals dropping dead where they stood. An investigation disclosed that the bullet had passed through the brain of one horse, glanced on a rock and burst in the second animal's head.

Realizing the futility of delay, Phillips scraped together a small amount of provisions and, with a roll of blankets and his canteen filled, he set out for this place to secure another team.

JOKE ON SHERIFF.

FOXY ROBBERS ELUDE POSSE.

SAN DIEGO OFFICIALS LEARN THE SAD STORY.

Men Who Broke Into Postoffice at Oceanside Indulge in Kindergarten Methods Which Successfully Fool Pursuers—Lemon Ranch Brings Fancy Price.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO, Feb. 13.—[Exclusive Dispatch.] Sheriff Jennings today received information telling how easily the Oceanside postoffice robbers eluded the pursuing posse. After the wounded thief had dressed his injury in a barn they took care to show their tracks leading in the direction of the ocean front. By back tracking, however, they fooled the posse and lit out for Los Angeles by way of Temecula Cañon. Friday night the robbers stole a horse and buggy from a rancher at Bonsall, drove from there by way of Pallbrook and Red Mountain to Temecula where they turned the horse loose, hid the buggy in the brush and then boarded a train on the Temecula branch either for Los Angeles or some of the other towns in that vicinity. The men were seen at Temecula, yesterday morning, shortly before the train left. One of them limped as he walked along the platform.

STRIKE CAUSES DELAY.

Because of a strike in the plate glass mills of the Pittsburgh district last summer a shipment of several cars of glass for the windows of the eight-story Timken building has failed to reach here. Ordinary window glass was placed in the building temporarily. Since the strike was settled the glass works shipped the window plate material, but another delay is caused by reason of the railroads inability to move trains in the snowbound districts. According to the local contractors the glass has been on the road twenty days and its whereabouts cannot be ascertained here. Telegraphic tracers have been sent out.

WITNESS GONE.

The District Attorney's office is anxious to learn the whereabouts of Blanch Collins, the woman who caused the arrest of former Detective Marshall Smith by swearing to information charging that he accepted a bribe of $15, which she paid him as protection. Shortly after Smith's first trial, when the jury disagreed, the woman disappeared. She is now believed to be in Arizona. Smith's second trial is set for next Wednesday, it is doubtful if the prosecution will go on without the woman as a witness. If the District Attorney does not decide to dismiss the charges against Smith the woman's testimony given at the former trial will be read to the jury.

RANCH BRINGS FANCY PRICE.

Barker Burnell yesterday sold his ranch consisting of fourteen and one-half acres, located at Lemon Grove to James West, of Warren, Ind., the price being $18,000, or more than $1200 an acre. The ranch is one of the best appointed in the citrus belt, the lemons produced being of the finest quality and commanding the highest price. Mr. West is a retired oil operator, who has accumulated wealth. He will bring his family here.

A. L. Burton of Lake Geneva, Wis., has bought the J. L. Davenport orchard and home consisting of five acres at Chula Vista, for $6300, or $1200 an acre. San Diego citrus ranches are in great demand this winter and those who sell are reaping good profits.

AFTER RECKLESS DRIVER.

Rialto Autoist Who Killed San Bernardino Man Is to Be Prosecuted. Verdict of Jury.

SAN BERNARDINO, Feb. 13.—Chief of Police Shay announced today that he will apply tomorrow for a warrant for the arrest of Fred Jonas, a Rialto real estate agent, charged with breaking the speed laws of this city Thursday night. Jonas ran down and killed Rosel Roberds, a well-known member of a pioneer family. The jury at the inquest brought in a verdict finding him guilty of reckless and careless driving. This will be the broker's second arrest in three weeks on a similar offense.

Attorney F. B. Daley has been retained by the Roberds family to bring civil action for damages against the autoist, and it is expected that the suit will be instituted tomorrow or Tuesday. The testimony taken at the inquest showed that Jonas was not only racing on the wrong side of the road, but that he was looking backward at another automobile, which he had passed, and was waving and shouting in pride at the speed of his machine.

FRATERNAL MAN DIES.

T. J. Peachey, a prominent fraternal man, died at his home here last evening, after a protracted illness. The funeral will take place from the chapel of Barton & Shaw tomorrow afternoon at 2 o'clock.

Saved His Feelings.

At a twenty-first birthday party a mother was praising the talents of her son, and asked him to show the company the prizes he had won.

One of the guests, picking up the best article, said: "And what did he win this prize for?"

"Oh, that was for running," said the proud mother.

"And who presented it to him?" asked the guest.

"We did," said the mother.

The guest looked surprised.

"You see," said the proud mother, "he'd have won, but he didn't hear the pistol go off."—[Detroit News.

NEEDED.

COLD STORAGE IN HOT PART.

PLANTS WILL BE ERECTED IN IMPERIAL VALLEY TOWNS.

Holt Plans a String of 'Em at El Centro, Brawley, Imperial, Holtville and Calexico—Espee's Demonstration Train Will Visit District This Week.

EL CENTRO, Feb. 12.—Excavation is in progress here for a large central cold storage plant, to be erected by the W. F. Holt interests. It will be operated in connection with smaller establishments to be put up in Brawley, Imperial, Holtville and Calexico. The one here will be 100x150 feet, three stories in height. It will also provide room for a new creamery plant. From it will be operated a general wholesale business in perishable products, and the smaller stations in the valley towns will be used as both collecting and distributing depots.

Mr. Holt also has buildings in progress in all of the other Imperial Valley towns.

The Southern Pacific's agricultural and horticultural demonstration train will be in Imperial Valley three days this week, the 16th, 17th and 18th, stopping for exhibition purposes at all of the valley towns.

CHILD DROWNED.

The 16-months'-old child of M. P. Bowman was drowned in a reservoir on the ranch, seven miles west of El Centro, last Monday evening. The child wandered away from the ranch house while the mother was away milking, and she found the body floating on the water when she went in search.

The Imperial country grand jury has recommended to the Supervisors that a second story be built to the County Jail, to be used for jury rooms. The work of the Superior Court is hindered by insufficient facilities. The grand jury has also arranged for the experting of all county books.

Actual grading for the extension of the Holton Interurban Railroad—the eastern connection of the San Diego and Arizona Railroad—has begun here. This week a large force of men and teams will be put on the work, and it is expected the track will be completed to New River a distance of about ten miles, before hot weather arrives.

DECIDE ON IMPROVEMENT.

Property Owners of Upland Arrange for Work on Ninth Street—Political Candidates.

UPLAND, Feb. 12.—Property owners on Ninth street, from Campus to Euclid avenues, this city, met at the town hall to agree on some method for the improvement of their street. It was finally agreed to place a base of crushed rock, three inches deep at center, and tapering to two inches at sides, the whole to be covered with oiled and rolled surface. Those property owners on the east end of the same street, from Campus avenue to the city limits, will probably use the same method, except with a slightly lighter rock base. The whole of the work is to be done under the provisions of the Vrooman Act, and it is said, will cost but slightly in excess of $1 per lineal foot. This is the first real improvement of streets, aside from the Euclid avenue macadam, now under way, to be taken up here. The result on Ninth will be watched with interest by residents of the other sections.

Dr. E. W. Reid of Cucamonga has announced himself as a candidate for the Board of Supervisors, to succeed himself. He had anticipated making the race for Coroner. However, he has acceded to the wish of many friends, and will seek to remain on the board of which he is chairman. E. P. Fuller is a candidate for the nomination for Coroner.

There is a great deal of local agitation against the playing here of Sunday baseball. The situation is somewhat peculiar. The field used by Upland is just over the line in Ontario, yet so far removed from the center of that city as to cause no annoyance. Residents of Upland, complain of the noise and disorder accompanying the games.

Most of the local packing-houses are working almost to capacity in forwarding the fruit. During the past three weeks 133 cars of navels have gone forward from the Exchange here, and the fruit is said to be commanding satisfactory prices in the East. This section suffered but slight damage from frosts during the winter.

NEWPORT BEACH.

NEWPORT BEACH, Feb. 12.—The Chamber of Commerce will hold its third annual banquet at the Newport Inn on the evening of 2 arch 29th.

The Balboa Oil Company is drilling a new well near the site of its present one.

Application has been made by the Newport Land Company for permission to dredge and reclaim the easterly end of the Balboa Island.

What Was Her Age.

Toward the close of a recent lawsuit in Massachusetts, relates Everybody's Magazine, the wife of an eminent Harvard professor arose and with a flaming face timidly addressed the court.

"Your honor," said she, "if I had told you I had made an error in my testimony, would it vitiate all I have said?"

Instantly the lawyers for each side stirred themselves in excitement, while his honor gravely regarded her.

"Well, madam," said the court, after a pause, "that depends entirely on the nature of your error. What was it, please?"

"Why, you see," answered the lady, more and more red and embarrassed, "I told the clerk I was 38. I was 39 last birthday, and I've been worrying ever since."

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — MRS. EMMA IMSE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

GHOSTS OF THE FORESTS.

Strange Fungi on Dead Limbs of Trees in Borneo That Give Off Strange Light.

[The Pathfinder:] In Borneo some English engineers had to survey a tract of forest through a low-lying country which was almost impenetrable, and in order to get the way opened up a bit, they employed natives to blaze the way, one shift working at night and another in the day. One night the night shift came into camp head over heels and well nigh frightened to death. They said that there was a portion of the forest ahead through which they would not attempt to go, as there were "spirits" on the trees telling them that evil would come upon them if they advanced any farther. Of course the engineers wanted to see these supernatural beings, and they hastened in the direction of the haunted forest. As they approached some of them did feel a peculiar, uncanny sensation come over them, for, sure enough, the whole forest was lit up with something which shone forth with a strange light from the limbs of the trees. They summoned up courage, however, and made an investigation, and were rewarded by finding that the light came from certain agarics, or fungi, growing upon the dead limbs and throwing off a phosphorescent light something like that of "fox-fire." These bodies were traced for a long way through the forest, and so bright was the light they made that at times it seemed as if the forest was afire. The engineers found it possible to read by the phosphorescent light.

Pittsburgh's Dynamite Pastry.

A Polish coal miner in Ohio, biting into a slab of Pittsburgh mince pie, struck a rivet and broke off seven teeth; but, being extremely hungry and having no money to buy actual food, he kept at his grim task. A minute later he struck a stick of dynamite in the core of the same pie and was buried from his late residence the next day, leaving a wife in Poland and another in Ohio.—[The Independent.

San Joaquin Valley.

FRESNO.

CATTLE FEVER AFFECTS HERD.

VETERINARIAN WRITES TO THE SUPERVISORS.

States Quarantine Will Be Declared Unless the Board Takes Steps to Segregate the Diseased Cattle—Dentist Sues Traction Company for Damages for Injuries.

(CORRESPONDENCE OF THE TIMES.)

FRESNO, Feb. 13.—State Veterinarian Charles Keane has formally notified the Supervisors that an infectious disease exists among the cattle of this county. He intimates that the board will declare a quarantine if the county officials do not segregate the diseased cattle immediately. So far the tick-infected cattle have been found only in township 17, range 20.

In giving notice on the Supervisors, Keane said his complaint was no reflection on the work of County Veterinarian Longley. "I have found," he explained, "that Dr. Longley needs more assistants to carry on his work properly, and I take this means of securing them."

DENTIST FILES SUIT.

Dr. M. Gilstrap, known all over the San Joaquin Valley as a traveling dentist, yesterday filed suit in the Superior Court of this county against the Fresno Traction Company for the sum of $25,000 for injuries received in a collision between two street cars in the "subway" under the Southern Pacific tracks on September 20. According to the complaint, Dr. Gilstrap was riding on the westbound car when the accident occurred and received injuries to the spine which have confined him to bed since that time.

WOMEN WORK CITIZENS.

The police are looking for four women who have disappeared with a considerable sum of money collected for the laudable purpose of establishing a "rescue home." The quartette were working about three weeks and held meetings nightly on street corners, singing hymns and calling attention in addresses to the great need for a "rescue home." During the day they canvassed the town, explaining to the business men that they intended to establish a sort of clearinghouse for unfortunate children, where those too poor to support their little ones might leave them and those wishing to adopt children might have their wants supplied.

The women appeared to be very earnest and talked well on their subject, many citizens subscribed liberally after the city had been pretty well worked over, the women disappeared.

MELON KING.

According to local fruitmen, K. Arakelian, a prominent melon grower of Madera county, will actually own from 40 to 50 per cent. of the melon crop of the valley this year. He will have melon fields at Manteca, Ceres, Turlock, Modesto and Imperial. Last season Arakelian acted as selling agent for the Earl Fruit Union, which had charge of the disposition of the melon crop. He resigned the position because he was not a great single owner of melons to justify the organization. The total acreage planted to melons in California this year was approximately 20000, of which number Arkelian owned 700 acres. It is through unlikely that the Earl Fruit Union will have control of more than this year.

AROUND ENDORSEMENT.

The San Joaquin Valley Cattlemens' Association, now in session here, has passed resolutions endorsing the policy of the forestry service, the Taft administration in general and specifically the method inaugurated by Gifford Pinchot, the deposed forester, in collecting fees for trespassing cattle, horses and sheep in government reserves.

GROWTH.

THIRD SCHOOL NOW NEEDED.

BOARD'S ADVANCE MAKES ANOTHER NECESSARY.

Attendance Averages Over a Thousand Pupils—Manual Training Course Is Also Desired. Old Burglars Are Sent Up for Long Terms in Superior Court.

(CORRESPONDENCE OF THE TIMES.)

HANFORD, Feb. 12.—Hanford needs a new school building, according to a report filed by Principal Baker. At the last meeting of the trustees he presented figures showing that unless another school is provided by the time school opens in September at least two and possibly three classes will have to be accommodated in private buildings. The second school was occupied only a few months ago, but the attendance has increased so rapidly that another school is imperative. The daily attendance now averages over 1000.

In presenting the matter to the board Mr. Baker stated that each of the forty-two teachers employed has from forty to pupils under her charge, and that the assembly hall in the newer building is being used as a classroom.

He recommended that ward schools be established when the third building is erected, and that it be constructed south of the Southern Pacific railroad track.

The principal recommended that a manual training course be installed as an "experiment" subject, stating that the equipment would cost no more than $100.

The city's population, according to the compilers of the new directory, is 6,000, consisting of 3289 males and 2711 females.

SENT UP FOR TRIAL.

After preliminary examinations of Charles C. Shelton and Justine P. Lasserda on burglary, committed when they are alleged to have entered the warehouse of High, Lake & Co. on the Santa Fé reservation, was held Thursday. The two men were bound over to answer in the Superior Court, bail being fixed at $5000 each. Laserda, as he was in the Shelton hearing, made a complete confession of the burglary, stating that Shelton was the one who entered the warehouse while he (Laserda) waited outside with the wagon to cart the plunder away.

CITRUS EXPERIMENT.

Mr. White has set out a number of orange trees on a portion of his ranch north of Armona with the intention of experimenting as to the adaptibility of this climate for citrus trees when given no more than the ordinary care. Numbers of private grounds are graced with orange and lemon trees in the country, but Mr. White is experimenting on a larger scale.

Judge Thornberry Brooks, a pioneer of this State and locality, succumbed Tuesday evening to an attack of la grippe, which at his advanced age, 88 years, he could not withstand. The funeral was held Thursday morning at the family residence north of this city, on King's River. Deceased came to California "around the Horn" in 1850 and settled on the river in 1866. He was a member of an organization known as the Territorial Pioneers and was widely known and esteemed. He leaves a widow, eight children and several grandchildren.

Mrs. Bertie Logan of Napa has filed petition in the Superior Court praying that her brother, Peter Daggs, be compelled to render an accounting as administrator of the estate of their father, J. Monroe Daggs, deceased. Theodore A. Bell of Napa came here to file the papers for his client.

The trial of L. T. Sue on one of the six charges of illegally practicing medicine, will be called in Justice Ferguson's court Wednesday, having been postponed a week by stipulation.

Free lectures. All about the Great San Joaquin Valley, at The Times Branch Office, 531-533 S. Spring st. Information any time through the day. Lecture at 8 o'clock every evening (except Sunday.) Come and bring your friends.

THE GAY LIFE OF THE CITY.

BY A CLUBMAN.

It was a moral certainty when Ferris Hartman started "Florodora" that something would happen—even if he had not added a voting contest for the most popular of the "Florodora" girls. There is something about the name and the history of the many "pretty maidens" who have run away with millionaires' sons, or, for that matter, the crustaceous old money-getters themselves, that causes the most prudent pillars of society to throw caution to the winds.

These "Florodora" girls were here before and they were singing and dancing their best in a score of productions. But when they came on in the sextette there were the boxes, filled with the inevitable young men. A "Florodora" girl is irresistible.

I ran across a number of club acquaintances last night at one of the cafés, and before I was advised of the situation I had been duly presented to Dixie, Lillian, Geno, Carmen, Amelia and Evelyn. They are really a very charming and demure lot of girls—for "Florodora" girls.

Somehow a good many of the fellows who go every night have discovered that Lillian Leighton is a Los Angeles girl and she is "boosted" as home talent with the result that she is in the lead. Evelyn Abbott and Carmen Phillips, however, are not far behind. Evelyn is a good type of the blonde, while Carmen, of course, is a pronounced brunette and both have their constituencies.

"How does it feel to be a real 'Florodora' girl?" I asked Miss Carmen just by way of saying something.

"Not so that you would notice it," was her chic rejoinder.

"Are you fond of motoring?" I tried this one on Miss Gentry, perhaps because her name sounded rather speedy.

"A taxicab is rather a nice way to get home on a rainy night," she answered naively.

You see, all I know about "Florodora" girls is what I've read in the newspapers. I interrupted Dixie Blair in the process of prying an oyster from its shell to ask her if she cared much for Bernard Shaw.

"Never met him," she smiled back. "I'm from San Francisco, you know."

It was the gayest kind of supper party and I did not interfere any further. It's highly amusing to walk down Main street any evening between 8:15 and 11 o'clock. Several of the best machines in town are sure to be lined up there and the owner of the most easily recognizable one has hit upon the scheme of stopping across the street and throwing a canvas cover over the body, number and all.

It has become necessary this winter for the first time in Los Angeles to be a "first-nighter" if you would maintain a social reputation. The Monday night suppers at the Alexandria perhaps had something to do with it, but there is also the fact that there are enough first nights now that are really worth while.

Tomorrow night Al Levy will open his Café Chantant and then we shall have a real criterion by which to determine whether the spirit of old Broadway and the Parisians has traveled so far West.

The first Café Chantant I ever visited was at the famous Kinsley's in Chicago. It was given by the "400" when Mrs. Potter Palmer, the Marshall Fields, the Arthur Catons and the first aristocracy of the then metropolis of the West were holding sway. They made it an exclusive affair and invitations were in great demand.

It was quite the gayest social event of its class that I ever attended, happening in the days before the Seeley dinner swung the pendulum clear back to the extreme of decorum. There was a great deal of singing and dancing and the acts all took place on the floor of the café, without any stage. The big banquet room had been transformed to resemble one of the cafés of the Jardin des Tuileries, and the gentlemen all sat at the tables with their silk hats on—al fresco. The danseuses, pirouetting their ways about among the small tables, could not resist the temptation to tip over a tile with the point of a toe now and then. And there were other mild diversions from the regular character of elaborate dinner parties.

Twain Turned the Joke.

Mark Twain, when he worked in Nevada on the Virginia City Enterprise, inserted in the news a good many boarding-house jokes.

In revenge, the humorist's sensitive fellow boarders in Virginia City decided to put up a game on him. They enlisted the landlady's help, and at the Thanksgiving dinner at the boarding-house Mark Twain, by a dextrous piece of sleight-of-hand, was served, apparently direct from the fowl, with a turkey leg of painted wood.

"You've changed your poultry dealer, haven't you, ma'am,"

"Why, no, Mr. Clemons. What makes you think so?"

"This turkey," he answered, giving the wooden drumstick a little whack with his knife, "it's about the tenderest morsel I've struck in this house for some months."—[Detroit Free Press.

An attack of the grippe is often followed by a persistent cough, which in many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed.—[Adv.

IMPREGNABLE.

CONCRETE FORT LIKE BATTLESHIP.

PECULIAR FORTIFICATION BEING ERECTED IN MANILA BAY.

Located on a Rock of Small Dimensions the Fort Will Use Turrets for Protection of Its Great Guns the Same as If They Were on a Great Battleship.

[New York Tribune:] Recently there has been references in the news dispatches to a curious fortification which Uncle Sam is erecting on a small island named El Fraile, as a part of the line of defense of Manila Bay. It was styled a concrete battleship, which was to be fixed upon the island. What would a concrete battleship look like, and why should one be erected as a part of a permanent and immovable fortification, were natural questions.

El Fraile is a Spanish term which has more than one meaning. Translated it means either "the friar" or a kind of sea fish. Whether the origin of the name is due to its resemblance in appearance to some physical characteristic of a friar or to the kind of sea fish indicated by the word is not revealed, but the island itself formed an interesting problem when the question of fortifying it arose. It is merely a pinnacle of rock rising a few feet above the surface of the water.

It was at first a question how the island could be made to serve its purpose. According to a story as to the way the idea developed of creating on top of the rock a structure of concrete somewhat resembling a battleship in shape and style of armament, it was first planned to enlarge the island in order to obtain the essential space for the big guns. This would have cost a good round sum, said to be more than $5,000,000, and would have provided only a modest fort after all. Then it was suggested to shave off the top. A young man connected with the engineering corps brought forward the stationary "battleship" plan.

The fort, which is already in process of construction is an ellipse about 300 feet long and 150 feet wide, the walls of concrete being forty feet in height. Within the inclosure will be two steel turrets of the kind found in battleships. Each will house two of the big new fourteen-inch guns. The use of the turrets economizes space. Besides these great guns there will be four six-inch guns. The entrance to the fortification, or "concrete battleship," will be by means of a sallyport. It is believed that the unique fortification will be impregnable.

The armament itself will be interesting, as the fourteen-inch gun for the navy is a new arm. It is believed that this weapon will withstand the wear and tear of use much better than the twelve-inch gun, whose life has been estimated to be not more than eighty shots. It is believed that for a permanent fortification, a large gun, so built as to last much longer than this, is a necessity. A battleship can go to a navy yard for renewals of its armament, while a fortification has no such recourse for refitting. It is estimated that the life of the fourteen-inch gun, such as is now being constructed, will be from 275 to 300 shots.

The gun will be fifty-three and one-half feet long. Nine men, five feet eleven and one-third inches long could lie on its barrel. It is almost exactly three feet longer than the present twelve-inch gun, which is fifty feet seven inches long.

A fort of concrete formation resting on piles and stones has been suggested for the entrance to Chesapeake Bay. The two capes forming the mouth of the bay are so far apart that fortifications upon them would not fulfill the purpose of commanding the entrance. By placing a fort near the channel in the entrance this difficulty can be obviated. The fort which it is planned to put here has been denominated "Taft's big fort at Newport News," because it has been strongly advocated by President Taft. Only tentative plans for it have geen discussed. If built it may be concrete, like the one on El Fraile.

JANUARY CIRCULATION OF THE TIMES.

The following are the sworn statements of the circulation of The Times for Janiary, 1910:

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS:

Harry Chandler, Assistant General Manager of the Los Angeles Times, being duly sworn, declares upon his oath that the following is a true and correct office record of the circulation of said newspaper for the month of January, 1910:

JANUARY, 1910.

1	134,120	17	55,070
2	87,000	18	55,475
3	57,010	19	56,420
4	56,850	20	55,360
5	55,620	21	55,285
6	55,070	22	56,700
7	55,200	23	57,400
8	54,730	24	55,320
9	85,000	25	55,770
10	53,940	26	55,300
11	54,255	27	55,250
12	55,430	28	55,120
13	54,550	29	55,730
14	55,435	30	89,000
15	55,830	31	55,330
16	87,400		

Total 1,955,650

The average circulation for every day of January, 1910, was 63,085

The average circulation for every day of January, 1909, was 57,004

Showing an average daily GAIN over the corresponding month of 1909 of 6,081

HARRY CHANDLER,
Assistant General Manager, The Times.

Subscribed and sworn to before me this 25 day of February, 1910.

[Seal] T. L. CHAPIN,
Notary Public in and for the County of Los Angeles, State of California.

A. L. Dennis, being duly sworn, declares that he is and has been for ten years Superintendent of Circulation of the Los Angeles Times; that the above detailed statement of circulation for the month of January, 1910, is correct, and shows the actual number of papers printed for each day of the month named.

A. L. DENNIS,
Superintendent of Circulation, The Times.

Subscribed and sworn to before me this 3d day of February, 1910.

[Seal] T. L. CHAPIN,
Notary Public in and for the County of Los Angeles, State of California.

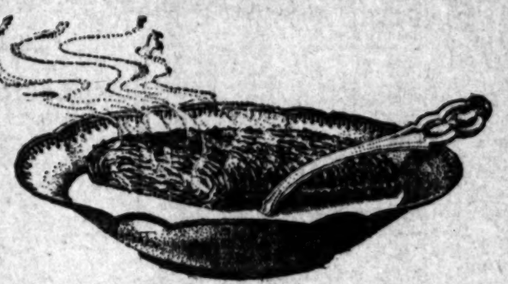
"The Pinch of Prosperity"

Have you felt it?
You wouldn't mind the high prices of food if your wages advanced with them.
It is a good time to cut out expensive foods and try

SHREDDED WHEAT

It is a better substitute for meat than vegetables, because it is rich in muscle-making, brain-building material. It contains more body-building nutriment than meat or eggs. It costs much less, always the same price—always clean—always pure—always wholesome. Your grocer sells it.



Shredded Wheat Biscuit is made of the whole wheat, steam-cooked, shredded and baked in the cleanest, finest food factory in the world. It is ready-cooked, ready-to-serve. Two Shredded Wheat Biscuits heated in the oven to restore crispness, and eaten with a little hot milk, and salted or sweetened to suit the taste, will supply all the energy needed for a half-day's work. If you like it for breakfast, you will like it for any meal in combination with vegetables, baked apples, sliced bananas, stewed prunes or other fruits.
